House Votes 280-65 to Probe Kennedy, King Assassinations

By Mary Russell

Washington Post Staff Writer

The House created a select committee yesterday to investigate the assassinations of President John F. Kennedy and Dr. Martin Luther King Jr.

The 12-member committee, established on a 280-to-65 vote, will be headed by Rep. Thomas Downing (D-Va.) for the remainder of this Congress. Speaker Carl Albert (D-Okla.) said. Downing, however, is retiring, and Rep. Henry B. Gonzalez (D-Tex.), with Downing a prime sponsor of the committee, is expected to become chairman in the new session next January.

Downing said he would ask for \$250,000 to get the committee started and hire staff, but Rep. Frank Thompson (D-N.J.), chairman of the House Administration Committee, which must authorize the funds, indicated yesterday he might be reluctant to approve that amount.

Because the select committee expires at the end of this year and will have to be re-established by the House next year, it should wait until then for funding, Thompson said.

Downing said the committee would not hold public hearings before the Nov. 2 elections, to avoid charges of capitalizing politically on the investigation, but he said it might hold some closed hearings "in order to preserve testimony."

Reasons for looking again at the 1963 Kennedy assassination, he said,

are revelations by the congressional intelligence committees that information about CIA attempts to kill Cuban Premier Fidel Castro was withheld from the Warren commission, "the murder of two Mafia members enlisted by the CIA to help assassinate Castro, and the destruction of notes on Kennedy's autopsy and a note by assassin Lee Harvey Oswald to a member of the FBI.

The commission headed by Chief Justice Earl Warren investigated the assassination of Kennedy in Dallas and concluded that Oswald acted alone.

But Downing said yesterday, "I am convinced there was a conspiracy involved. I do not know the identity of the conspirators or their motives. That should be investigated in depth."

Downing promised "to engage in no witch-hunts" and "not blame those who may have made mistakes in the original investigation."

Rep. B. F. Sisk (D-Calif.) called the planned investigation a waste of taxpayers' money to satisfy "the melodramatic desire of the morbid to create an incident."

Though Downing and Gonzalez set out more than a year ago to create the committee, they were going nowhere until they received a push from members of the Congressional Black Caucus, who felt they had received "new information" in the 1968 killing of Martin Luther King Jr. that called for congressional investigation.

D.C. Del. Walter Fauntroy and Rep. Yvonne Burke (D-Calif.) confirmed that the information came from writer and TV producer Abby Mann, who is working on a documentary on King's death, and from writer Mark Lane, one of the first to doubt the Warren Commission conclusions.

Reportedly the information has been known since 1968 but never investigated by the FBI.

It deals with the removal of King's black security chief from his side shortly before he was killed in Memphis, and the sudden transfer of two black firemen from the firehouse across the street from the motel where King was staying and was shot.

Edward Redditt, in charge of security for King, was ordered to go home about 4 p.m. on the day of King's death, because of a reported attempt on the life of Redditt's family.

The order was attributed to Memphis Fire and Police Director Frank C. Holloman, who had worked for the FBI for 25 years, part of the time in the office of the late Director J. Edgar Hoover, who had tapped King's phone and ordered surveillance of the civil rights leader.

Floyd Newsum, one of the black firemen abruptly transferred from the fire station across from the motel, said he had attended a King rally in Memphis and, though he publicly told of the transfer at the time, says he was never interviewed by the FBI.

As to the assignment of FBI personnel selected by the Committee, this appears to be highly undesirable. Mr. Uhlmann was, of course, advised by SA Paul V. Daly of this Division that the assignment of personnel to Congressional Committees had been recently done only with the Attorney General's approval and was also advised that it was not proper for a Committee of Congress to select what FBI personnel would be assigned to that Committee should the Attorney General and the Director agree to furnish personnel.

ADDENDUM: SPECIAL INVESTIGATIVE DIVISION

AJS:dc 10-21-76

We cannot begin the investigation of any case until the Department of Justice and the House Select Committee on Assassinations (HSCA) have formalized a Memorandum Of Understanding.

A representative from the Employees Security and Special Inquiry Section of the Special Investigative Division should be present at any conference with the HSCA wherein the procedures for conducting these background investigations are discussed. We have utilized this format very successfully previously.

The HSCA should be advised they should insure these cases are sent to the FBI in an even flow rather than a large number at one time as we have many other commitments, which commitments are particularly demanding in a Presidential election year.

Although we have not charged The White House or other Congressional committees for conducting these investigations, it is noted the charge would be \$2137 per case and the new pay raise would increase this charge. The HSCA states it anticipates requesting approximately 175 to 200 investigations and this means approximately \$400,000 would be diverted from our appropriation if we are not reimbursed. Since this is a Presidential election year we will undoubtedly receive a large number of special inquiry investigations for which we are not reimbursed.

PURPOSE: To provide comments from the General Investigative Division, Criminal Section, regarding access of the Select Committee on Assassinations to FBI files.

SYNOPSIS:

[REDACTED] HSCA
[REDACTED] General Investigative Division recommends that material in the FBI files be made available to the Committee under procedures adopted for making materials available to the Senate Select Committee. Two requests by Congressman Downing cannot be complied with and a meeting with members of the Committee is recommended to work out the necessary arrangement for compliance with these requests and future requests.

RECOMMENDATIONS: 1. That the comments contained in this memorandum be furnished to the Office of Congressional Affairs for consideration in preparing a response to the Department of Justice regarding the requested access to FBI files.

2. That the Office of Congressional Affairs recommend to the Department of Justice that a meeting of staff members of the Committee and appropriate Department of Justice and FBI personnel be scheduled to clarify the two

Re Request Number 1

GID concurs with the opinion of Legal Counsel that access to FBI files should be granted to the same extent as the Senate Select Committee on Intelligence Activities was granted access with due regard for excision of material which might disclose the identity of informants, sensitive sources or methods or, in the case of third agency material, clearance from the third agency before release.

Re Request Number 2

This request is not specific enough to allow compliance. All information that has been disseminated from our files is also still in the files and would be covered by Request Number 1. If the Committee desires to know the dissemination of the material requested under Request Number 1, it can be

provided. Do the agencies mentioned include only the Executive Department agencies such as the CIA or Secret Service or does it also include previous Congressional Committees, for instance? Does the request regarding information furnished to individuals include that made under the Freedom of Information Act?

Re Request Number 3

The FBI has not compiled a summary of the total investigation of the assassination of President John F. Kennedy. The FBI conducted approximately 25,000 interviews and reinterviews in the initial investigation and submitted over 2,300 reports totaling over 25,000 pages to the Warren Commission. Many of these reports contained a synopsis which is a summary of the investigation contained in that particular report.

The Warren Commission used the numerous FBI reports as well as reports of investigations conducted by other agencies and the testimony of witnesses called before the Commission itself and arrived at its conclusion which is summarized in the Report of the President's Commission on the Assassination of President John F. Kennedy dated 9/24/64. This report would constitute the best currently available summary of our investigation.

Legal Counsel to the Associate Director
RE: HOUSE SELECT COMMITTEE ON ASSASSINATIONS

Mr. Sprague advised that he did not desire delivery of large numbers of Bureau documents to the Committee. He felt that the Committee's needs could best be served by having access to Bureau documents at FBI Headquarters. He further commented that there may be the necessity for the delivery of selected documents to the Committee on occasion.

Mr. Sprague advised that he was interested in receiving FBI assistance in setting up his security procedures for this Committee and would welcome the Bureau's assistance in this matter.

Mr. Sprague advised that he was desirous of obtaining clearances for his staff personnel so that review of the FBI documents could be undertaken. Mr. Adams advised Mr. Sprague that a great portion of the material on these two assassinations was not classified and that the Bureau would proceed with the background investigations as soon as the agreement for these investigations is signed by the Attorney General and the Chairman of the Committee. Mr. Sprague was also advised that his background investigation would be handled in an expeditious manner.

HOUSE SELECT COMMITTEE ON ASSASSINATIONS

This is to advise you that John A. Mintz and Paul V. Daly of this Bureau and Mr. Maurice Rosenberg of your office met with Chairman Thomas Downing and Ranking Minority Member Samuel Devine of captioned Committee. In accordance with Mr. Rosenberg's letter of November 18, 1976, to the Chairman, they were shown Xerox copies of the letter addressed to Honorable J. Lee Rankin of the Warren Commission dated June 17, 1964, from former Director J. Edgar Hoover.

They both appreciated the sensitivity of the information contained in the letter and indicated an appreciation for the need for special handling of information of this nature.

During the course of the meeting with Chairman Downing and Congressman Devine, Chairman Downing asked whether we had received a subpoena from his Committee as yet, and we indicated we had not and did not know there was such a subpoena in existence. It was explained to Chairman Downing the concerns the Department of Justice and the FBI would have if such a subpoena was issued and that it was the intention of the Department of Justice and the FBI to cooperate fully with this Committee. Chairman Downing and Congressman Devine indicated a desire to avoid proceeding in this inquiry by way of a subpoena. Subsequently, Congressman Devine advised SA Paul V. Daly of the FBI that he had discussed the issuance of a subpoena with Staff Director Richard Sprague and advised him of the FBI's concern. Devine said Sprague agreed not to proceed with a subpoena.

J. S. Peelman to Mr. Gallagher Memo
Re: HOUSE SELECT COMMITTEE
ON ASSASSINATIONS

ADDENDUM: LEGAL COUNSEL DIVISION PVD:mcz 11/12/76

As to the questions raised by the General Investigative Division in this memorandum, Legal Counsel Division makes the following observations:

The authority of a committee of Congress to make a request for information is derived from the authority to seek information to fulfill a legislative function, and in this instance this particular committee is acting pursuant to a resolution of the House of Representatives. The more critical question rather than the authority for the request is the kind of information the committee will receive, and it is for this reason that the standards set forth in the agreement between the Attorney General and the Chairman of the Senate Select Committee on Intelligence, Frank Church, are being used to govern this question.

The possibility, of course, could be raised that the Select Committee on Assassinations is not a properly constituted Committee in that it has^{not} been created to serve a legislative function, but it is not believed advisable nor desirable to raise this particular issue since there would appear to be little hope of obtaining support in the Department or elsewhere in such a challenge.

Concerning the invasion of privacy "of those individuals who furnished information in a criminal case." It should be noted the Privacy Act does not preclude or prohibit responding to a legitimate request of a committee of Congress. The question of protecting identity of informants, persons who furnished information on a confidential basis, raised in this memorandum is addressed in the aforementioned agreement between Senator Church and the Attorney General which is governing the furnishing of information to this committee and provides for the protection of the identities of such people. The third agency rule providing for clearance prior to the furnishing of information to the Committee will also be followed.

As to their access to FBI files, it is believed they should be granted access to the same extent that the Senate Select Committee on Intelligence Activities was granted. This position is consistent with what we understand has been in Departmental discussions with the Committee concerning this matter. Such access would include deletions or excisions of material which might disclose informants, sensitive sources or methods and involve obtaining third-agency clearance.

On 7/25/75 at the request of Special Counsel for Intelligence Coordinator Michael Shaheen in the Department, a meeting was held between representatives of the FBI (SAs Paul B. Daly and John Thomas), representatives of the Senate Select Committee (John T. Elliff, Task Force head of the Domestic Task Force, Mark Gitenstein) and Michael Shaheen of the Department. At this meeting Mr. Shaheen advised that the proposed procedures concerning the handlings of requests for documents by the Senate Select Committee had been approved by the Attorney General and in the Senate Select Committee. (A copy is attached.)

Shaheen and Elliff indicated the purpose in meeting on the 25th along with an anticipated meeting on Monday, 7/28/75, was to assist the SSC in the planning of a superseding request in accordance with the newly established procedures concerning document requests. Both Shaheen and Elliff expressed concern at this time that the schedules set forth in the new agreement was such that in many instances the Bureau would not be able to respond in time to meet the deadlines. Additionally, Shaheen expressed concern that the provisions require that the Attorney General adjudicate any question as to the necessity of furnishing a document to the Committee and to make such a decision within 24 hours would be very burdensome.

Messrs. Elliff and Shaheen were advised by SA Daly that this would be true, pointing out that in many instances files are not readily available because of FOIA requests, needs of the Bureau's ongoing investigations and law suits in which it was necessary to view particular files. It was also pointed out that many of the requests of the Senate Select Committee necessitate the review of a number of files and/or numerous volumes of a particular file all of which are not necessarily available immediately. Mr. Shaheen advised that it was the Attorney General's desire that Senate Select Committee requests take precedence over all other matters including the Freedom of Information. It was pointed out to Mr. Shaheen that our responses to Freedom of Information Act are under deadline by law and; if

RE: SENSTUDY 1975

this were to be the Attorney General's feelings, he should advise this Bureau in writing so that we would be in a position to use this statement of policy should this question arise during litigation. It was pointed out that in many areas of possible abuse set forth by the Senate Select Committee we have pending FOIA requests and/or litigation which require the availability of those files for responses.

Elliff indicated that it was the Committee's desire in their forthcoming superseding request to request material that had been previously furnished the Committee with the understanding that there would be less excisions made in compliance with the new agreement. He inquired as to whether the Bureau could advise him as to what material previously furnished was readily retrievable and could be furnished in accordance with a new request. He was advised by SAs Daly and Thomas that it was not possible at this time to give him a response, however, we would endeavor to make an analysis of prior requests to obtain this information and have it available for the meeting Monday, 7/28/75.

A general discussion was had concerning the new agreement especially concerning the type of material which might properly be excised and third agency problems. It was generally agreed upon that not only the identity of informants be excised but also information which might disclose the identity of informants might also be properly excised. Elliff indicated that the Committee did not wish to see many items referred to the Attorney General as is called for by the agreement for his decision and would rather at least on a preliminary basis where it was a question of the propriety of the excision that the discussion be held with him or one of his representatives before such a referral was made. Shaheen also indicated a desire that the referrals to the Attorney General be kept to a minimum. Regarding the "Third Agency" problems which are not addressed in the agreement there was no final decision arrived at. Elliff and Shaheen were under the impression that the clauses referring to foreign intelligence operations or foreign intelligence sources would handle this problem. They were advised that this was not the case. This was not true since even in these instances Senators on the Committee are given access after the Attorney General has made a determination that material involved "peculiarly sensitive foreign intelligence sources or peculiarly sensitive ongoing foreign

intelligence operations." It was pointed out that this would require that many documents be referred to the Attorney General for his determination which would be contrary to Messrs. Elliff's and Shaheen's desires.

The meeting was held 7/28/75, Messrs. Gitenstein and Elliff of the Committee, Michael Shaheen and Steven K. Blackhurst of the Department, and SAs Paul V. Daly, [REDACTED] and Elmer Larson were in attendance. Regarding the "Third Agency" rule problem, we advised the Department and the Committee that we would continue to abide by this rule. The Committee presented a request dated July 28, 1975, captioned "Superseding Request for FBI Materials." This document amounted to a recapitulation of prior requests made by the Committee with a schedule for delivery set forth in accordance with the established guidelines for the production of documents. An item-by-item analysis of the request contained in the document was had and where necessary modifications concerning scheduled responses was made. It was obvious the intent of the Committee in making the superseding request was to have more documents made available in the Committee offices and also to have less excisions made on documents previously furnished the Committee based on prior requests. We were requested by Shaheen to prepare as soon as possible correspondence to the Attorney General setting forth instances where the deadlines set by the Committee could not be made. This prompted the provisions in the guidelines for the production of documents which require the Attorney General to notify the Committee Chairman and Vice Chairman within 24 hours of any expected delay beyond 96 hours of the request. I wish to express my concern regarding the eventual dissemination of material obtained from FBI files by the House Select Committee on Assassinations. The Committee through its staff will be given access to sensitive materials in connection with their inquiry into the assassinations of President John F. Kennedy and Dr. Martin Luther King, Jr.

In the past Congressional committees have agreed to refrain from publishing certain information such as the names of our Special Agents below the level of Section Chief. In the course of conducting both of these investigations, information was obtained from concerned citizens which was of value in our inquiries. The dissemination of the names of these individuals, our Special Agents, and certain other sensitive information, could be detrimental to the investigative interest of this Bureau.

I am aware of no restrictions placed upon this Committee regarding official disclosure of materials obtained during the Committee's inquiries. I feel this matter should be discussed with appropriate Committee personnel, and I would like to arrange a meeting between you and your staff and representatives of this Bureau to discuss my concerns.

Note: In the past the Bureau has had agreements with the Senate Select Committee and other committees of Congress regarding the eventual dissemination of information obtained from Bureau files. Legal Counsel Division is concerned with the problem of dissemination and particularly with the dissemination of Agents' names. In the past Congressional committees have agreed to the dissemination of the names of Agent personnel at the level of Section Chief and above. It is felt that a meeting with the Department of Justice and ultimately with the Committee staff is necessary to secure the Bureau's interest.

House Select Committee on Assassinations

On 10/15/76, RICHARD SPRAGUE, Special Counsel for the House and Senate investigation into the deaths of President JOHN F. KENNEDY and MARTIN LUTHER KING, telephonically advised SA WILLIAM LOGAN CURTIS that he had recently met with officials of the U. S. Department of Justice. He indicated to them that he might request the assistance of certain FBI Agents to help in his investigation. They asked if he had in mind Agents who had worked on the YABLONSKI murder investigation, to which he responded in the affirmative. REC-60

Mr. SPRAGUE asked SA CURTIS if he would be agreeable to assisting in this investigation if details could be worked out between him and FBIHQ.

Mr. SPRAGUE was advised that SA CURTIS would be interested however, this decision could only be made NOV 11 1976 by FBIHQ. It was further related that SA CURTIS would only consider this if there was a pay increase, moving and travel expenses for SA CURTIS and his family were paid, and upon completion of the investigation, SA CURTIS could return to the Sacramento Division.

This is being furnished to the Bureau for information purposes.

The purpose of this memorandum is to advise of an article concerning the House Select Committee on Assassinations that appeared in the Los Angeles Times on 12/15/76.

DETAILS:

Attached hereto is a Xerox copy of an article that appeared in the Los Angeles Times on 12/15/76, on page 16, part I.

The attached article captioned "Assassination Probe Will Study Slayings of Giancana, Rosselli for Possible Link" by Norman Kempster, details certain investigative techniques and intentions of this Committee. The article indicates that the Committee plans to purchase two tiny transmitters to be hidden in the clothing of an investigator during the questioning of a potential witness. When combined with a stress evaluator this device will permit the Committee to "...subject individuals to secret lie detector tests." Richard A. Sprague, Committee Staff Director, indicated that witnesses "...including present or former government officials would be asked to submit voluntarily to a polygraph test. The stress evaluator can be used when a person does not agree to a polygraph." Sprague indicated that the Committee might even reveal the identity of CIA Agents if necessary to tell the full story. Sprague also indicated that the FBI and the CIA had agreed to give the Committee access to "raw files" of the two agencies.

Assassination Probe Will Study Killings of Giancana, Rosselli for Possible Link

BY NORMAN KEMPSTER

Times Staff Writer

WASHINGTON—A new congressional committee plans a thorough investigation of the murder of Sam Giancana and John Rosselli to find out if the mobsters' deaths were linked to the assassination of President John F. Kennedy.

Richard A. Sprague, staff director of the House assassinations committee, said Tuesday that the panel would explore the relationship between the President and the two mob figures as part of its investigation of the killings of Kennedy and civil rights leader Dr. Martin Luther King.

"In the investigations of both King and Kennedy, any other murder that has the appearance of relevancy must be investigated as well," Sprague, a former Philadelphia prosecutor, said during a breakfast meeting with The Times Washington bureau.

Outlining his plans for the \$6.5 million-a-year inquiry he has proposed, Sprague said that his staff would use extensively two types of lie detectors: the usual polygraph, which must be physically attached to the witness, and a "stress evaluator," which its developers claim can indicate truth or falseness of tape-recorded statements.

The committee also plans to purchase two tiny transmitters that can be hidden in the clothing of an investigator during the questioning of a potential witness. When combined with the stress evaluator, this device will permit the committee to subject individuals to secret lie detector tests.

Sprague said that witnesses, including present or former government officials, would be asked to submit voluntarily to a polygraph test. "The stress evaluator can be used when a person does not agree to the polygraph," he said.

Discussing the value of the poly-

ator "can subject someone to a test and have the person remain mute, yet on the basis of the questions and the reading of the emotional responses, he can pinpoint where people met, on what occasions, who met them."

He said that no "bona fide" conclusion could be reached if a person refused to take a polygraph test. But he added, "from an investigator's standpoint, it might then make us question why not, and dig in that particular area more thoroughly."

Sprague said that the purpose of the investigation was to answer the many questions that have been raised since the Warren Commission concluded that Lee Harvey Oswald was the lone assassin of Kennedy and since James Earl Ray pleaded guilty to the murder of King.

He said the committee would make public—chiefly through public hear-

ings, even if the disclosures might affect individuals or government agencies only indirectly connected to the murders.

Sprague said the committee might even reveal the identity of undercover CIA agents, if necessary to tell the full story.

Sprague said last week that the committee would hire its own investigators because it could not rely on the FBI and the CIA to do its leg work. He said that the agencies had withheld information from the Warren Commission on at least two occasions.

In elaborating on the matter Tuesday, Sprague said his staff has discovered instances in which federal agencies withheld information from the commission in addition to the previously disclosed situations. He declined to elaborate but he promised to supply details later.

"It is important to trace through each and every step that has the appearance of relevancy, even if it shows that the reason for the nondisclosure was for some other motive than involvement in the murders," he said.

It was in that connection that Sprague said the committee must conduct its own investigation of the deaths of Giancana, who was shot at least seven times in the basement of his Chicago home last year, and of Rosselli, who was killed and stuffed into an oil drum that later was found floating in Biscayne Bay near Miami earlier this year.

Giancana, reported once to have been second in command in the Chicago mob previously headed by Al Capone, and Rosselli, alleged to have been Giancana's West Coast lieutenant and who was once arrested for fixing card games at the Friars Club in Los Angeles, shared both friends and enemies with Kennedy.

DISPOSITION OF FBI FILES

OR HISTORICAL

Federal regulations (41 CFR 101-11) require that records of continuing value are preserved and that records no longer of current use are disposed of promptly. In connection with these regulations, the FBI follows an active destruction program for obsolete material in accordance with the Records Retention Plan established by the National Archives and Records Service (NARS). Destruction relating to investigative matters generally applies to: (a) cases in which there was no prosecution, (b) perpetrators of violations not developed, and (c) investigation revealed allegations were unsubstantiated or not within the FBI's jurisdiction.

Additionally, NARS has provided authority for all FBI field offices to destroy investigative matters when the case is closed since the field is required to forward to FBI Headquarters the originals, duplicates, or summarizations of substance of all significant aspects of pertinent investigative matters. However, this authority has not been completely delegated to the field since they have a need to maintain certain files for investigative reference. For this purpose, the field may destroy files after they have been closed for: (a) six months in Auxiliary (or lead) Offices and (b) ten years in Office of Origin (controlling offices).

The FBI, however, is taking great care to insure that no files are destroyed that involve litigation or matters that would be of interest to a Congressional inquiry. In accordance with the House Select Committee on Assassinations, the FBI's investigation into the assassinations of President John F. Kennedy and Dr. Martin Luther King, Jr. would be of prime interest to the Committee. Therefore, FBI Headquarters advised all field offices on November 24, 1976, that all files regarding these matters (even though they are duplicated at FBI Headquarters with all pertinent and significant data) should not be destroyed.

PURPOSE:

To advise of meeting with HSCA.

SYNOPSIS:

Meeting held with representatives of HSCA to discuss various matters including background investigations to be conducted by FBI. No agreement was reached. Main problem from HSCA's standpoint is the Executive Branch requirements concerning security clearances prior to access to Executive Branch material.

RECOMMENDATION:

That the FBI agree to accept the returned summaries of background inquiries for retention for the life of the HSCA. (This provision will be included in the Memorandum of Understanding, if approved.)

Legal Counsel to the Associate Director
RE: HOUSE SELECT COMMITTEE ON ASSASSINATIONS (HSCA)

DETAILS:

At the request of the Assistant Attorney General Michael Uhlmann, Office of Legislative Affairs, on 12/14/76, SA Paul V. Daly of this Division and SA Jack C. Lawn, General Investigative Division, met with Mr. Uhlmann, Kenneth E. Brooten, Staff Counsel, HSCA, and Steven Fallis, Deputy Chief Counsel, HSCA. Also in attendance were [REDACTED] and [REDACTED] all of CIA, Michael E. Shaheen, Jr., Counsel on Professional Responsibility, his assistant, Steven Blackhurst, and Special Assistant to the Attorney General, Morris Rosenberg. (b)(3) (b)(7)(c)

At the meeting the HSCA representatives raised objections to the attached Memorandum of Understanding drafted by the Department to serve as a basis for the FBI to conduct background investigations. There were three basic objections, which are as follows.

(1) The HSCA desired that the FBI retain the copy of the background investigation which was furnished to the HSCA. The HSCA would return the background summary to the FBI for retention purposes. The retention period would be for the life of the HSCA. It appears the basic reason for this position is to insure that the exact material furnished the HSCA as a result of a background investigation would be available during the time span of the HSCA. It was explained to them that we do retain an exact copy of what is furnished but this was not satisfactory to the HSCA representatives.

(2) The HSCA desired that the FBI state in the Memorandum of Understanding affirmatively that they will notify the HSCA whenever a staff member or member is the object of a criminal or national security investigation. The agreement at this point provides for such notification when it has been determined that it would not impede or compromise the particular investigation. The staff members were informed that we could not agree to such a proposal. It was, however, pointed out to them that the Memorandum of Understanding clearly states the Bureau's policy of informing the Chairman or his designated representative

of information of this nature and that their concern addressed only the exception to this rule. They agreed after a discussion that there could not be a blanket statement creating an affirmative duty on the FBI to notify in all instances. They will, however, attempt to draft an acceptable alternative statement in this regard which will be reviewed by the Department and we will be furnished a copy.

(3) The Committee objected to any reference concerning procedures governing access to material in the possession of the HSCA being based on clearances. This point was the main topic of discussion during the meeting and remains unsolved. The HSCA's contention is that they do not want to sign an agreement in which the Executive Branch dictates to the Legislative the terms of access to information that the Legislative believes it has a right to. It was pointed out that to remove the portion of the Memorandum of Understanding dealing with this problem would, of course, raise serious questions as to the legal authority for the FBI to conduct background investigations for staff members of the HSCA. This is based on the premise that our authority to conduct such investigations results from instructions of the Attorney General which instructions, insofar as the Department of Justice is concerned, are based on Title 28, CFR 17.1, et seq, which sets forth procedures concerning access and the handling of classified material.

Mr. Rosenberg agreed with the Bureau's position in this regard and reinforced the argument that to remove that portion of the agreement would raise serious questions as to the authority to conduct such investigations.

By way of observations as to objection #3, it appears obvious that the HSCA and the Executive Branch are at odds concerning a fundamental authority of the Congress to obtain classified material and the Executive Branch to protect same. It appears that this particular problem may not be solved at the staff level but be the subject of a conference with the Chairman and Ranking Minority Member of the HSCA.

Legal Counsel to the Associate Director
RE: HOUSE SELECT COMMITTEE ON ASSASSINATIONS (HSCA)

Also, during the meeting, Mr. Fallis stated it was his understanding based on what the Attorney General had informed Richard Sprague, Staff Director of the HSCA, that the FBI was not destroying any material. Mr. Fallis was advised that this was not true and that the FBI was destroying material with the approval of House and Senate leaders and the approval of the Attorney General. Mr. Fallis then asked on behalf of Mr. Sprague that the FBI not destroy material.

He was informed that the FBI could not agree to this and it was explained to him in a general fashion the kind of material being destroyed. He was also advised that we had instructed the field offices and Headquarters' personnel that relevant material to the assassinations not be destroyed. He asked for a letter from the Bureau setting forth its Archival retention plan for the HSCA. It is to be noted that the Records Management Division is preparing such a letter for the Attorney General's approval and forwarding to the HSCA.

MEMORANDUM OF UNDERSTANDING

FEDERAL BUREAU OF INVESTIGATION BACKGROUND INVESTIGATIONS
FOR THE HOUSE SELECT COMMITTEE ON ASSASSINATIONS

The Federal Bureau of Investigation (FBI) will conduct background investigations at the request of the Chairman of the Select Committee on Assassinations (SCA) of applicants, employees or any persons engaged by contract or otherwise to perform services for the SCA who during the course of their employment require access to classified information. These investigations shall only be conducted pursuant to the agreement between the Attorney General and the SCA to ascertain facts and information relevant to the employee's trustworthiness and suitability for clearance for access to information classified under the provisions of Executive Order 11652 and where necessary for clearance for access to compartmented information in accordance with the standards set forth in Director of Central Intelligence Directive 1/14.]

Requests for investigations by the FBI shall be made in writing from the Committee Chairman to the Director of the FBI enclosing a completed Standard Form 86 (Security Investigation Data for Sensitive Position) which provides the necessary background data and a set of the individual's fingerprints for a check of FBI Identification Records. To enable the FBI to comply with Section (e)(3) of the Federal Privacy Act of 1974 and in keeping with the spirit of this Act, the request shall be accompanied by a statement signed by the subject of the investigation acknowledging that he or she has consented to the investigation with the knowledge that facts or information gathered shall be retained consistent with the FBI Records Retention Plan.

The SCA is to secure signed releases from the person under investigation authorizing the FBI to review educational, credit, and employment records. If a person furnishes information disclosing a medical problem or if such information is developed through investigation, the FBI will advise the SCA. The SCA will advise whether further investigation is desired and will either furnish to the FBI a release to review necessary medical records and interview the physician or advise if it desires the FBI to contact the persons under investigation for the appropriate medical releases.

MEMORANDUM OF UNDERSTANDING

Page 2

Subject to the Federal Privacy Act of 1974, persons interviewed during these investigations may be assured that to the extent permitted by law information identifying such persons will be kept confidential.

The FBI will furnish summary memoranda and supporting materials containing the results of its investigation to the Committee Chairman or his designated representative and retain a record of the person to whom such information is furnished. The Committee Chairman will insure that access to these summary memoranda and supporting materials is restricted to persons directly involved in making a determination as to the person's trustworthiness and suitability for clearance for access to classified information. The SCA shall maintain records of the identities of persons receiving access to the aforementioned materials and such records shall be furnished to the FBI upon request. The SCA shall not reproduce or disseminate any of the aforementioned materials without the express consent of the FBI unless otherwise provided for in this agreement.

The Chairman will insure that summary memoranda and supporting materials and any copies will be destroyed within ninety (90) days of their receipt unless written notice has been given to the Director of the FBI that an additional period of time, not exceeding ninety (90) days, is needed to complete a decision relating to clearance. [The Chairman will notify the Director of the FBI when these materials have been destroyed pursuant to this paragraph.] *retain & retain*

Under no circumstances should the SCA allow the person who is the subject of an investigation direct access to the summary memorandum and supporting material. If necessary to discuss the contents of the summary memorandum and supporting material with the applicant or employee, the SCA will insure that the confidentiality of the sources contained therein is protected. Any request by the individual for access to the memorandum will be referred to the FBI for processing in accordance with the Privacy Act of 1974.

MEMORANDUM OF UNDERSTANDING

Page 3

Information obtained during a background investigation will be retained at FBI Headquarters and FBI field offices in accordance with the FBI Records Retention Plan. The Director of the FBI will insure that access to investigatory files, compiled pursuant to this agreement, is limited to FBI personnel who require it for the conduct of their official responsibilities.

The FBI will inform the Chairman or his designated representative of any adverse information developed during the original background investigation. The FBI will also provide the Chairman or his designated representative with any adverse information and supporting materials which subsequently come to the attention of the FBI that question the trustworthiness and suitability of any employee or any persons covered by this agreement engaged by contract or otherwise to perform services for the SCA. Upon such notification and upon request by the SCA, the SCA shall have access to the summary memoranda and supporting materials from the original background investigation. Information obtained during background investigations conducted pursuant to this agreement will not be disseminated outside the FBI except when necessary to fulfill obligations imposed by law, FBI regulation or presidential directive or executive order. When a request is received from a Federal agency for background information concerning a current employee or contractor of the SCA, if the individual concerned has given written consent authorizing the SCA to be notified, the FBI will notify the SCA of the request for background information, except where the request concerns the individual's employment application to the agency requesting the background information. Notification by the FBI to the SCA will not extend to a criminal or national security investigation until it is determined that notification would not impede or compromise the investigation.

[When a tentative decision is made to employ an individual, the Chairman or his designated representative shall furnish a copy of the aforementioned summary memoranda and supporting materials to the Director of Central Intelligence (DCI). The DCI will insure that the summary memoranda and supporting materials furnished to the DCI pursuant to this agreement will be returned to the SCA within ninety (90) days of its receipt.]

MEMORANDUM OF UNDERSTANDING

Page 4

No person employed by the Committee shall be given access to any classified information or material until appropriate procedures for granting clearance for access to classified information have been established and clearance granted. The SCA will provide the FBI and the DCI with a list of persons cleared for access to classified information and the SCA will advise the FBI and the DCI when an individual granted a clearance terminates employment with the SCA or no longer requires access to classified information.

HOUSE SELECT COMMITTEE ON ASSASSINATIONS

Reference is made to Chairman Thomas N. Downing's request contained in his letter of November 2, 1976, addressed to the Attorney General, requesting certain information concerning the assassinations of President John F. Kennedy and Dr. Martin Luther King, Jr.

You referred the aforementioned request to the FBI for comments concerning access to FBI files. In this regard, I believe that this Committee should be granted the same degree of access for appropriately cleared personnel as was granted to the House Select Committee on Intelligence Activities (HSC) and the Senate Select Committee on Intelligence Activities (SSC). I am taking the liberty of enclosing a copy of the agreement between the Attorney General and Chairman Frank Church of the SSC concerning access to FBI files.

NOTE: By memorandum dated 11/4/76, Legal Counsel to the Associate Director, the Intelligence Division and the General Investigative Division were requested to furnish their observations concerning the request for access to FBI files by captioned Committee. The General Investigative Division in two separate memoranda dated 11/8/76 and 11/10/76, respectively, made conflicting recommendations; one granting access under the agreement that existed between the Attorney General and Chairman Church of the SSC and the other denying access. The Department, as is set forth in Legal Counsel memorandum to the Associate Director dated 10/15/76, has preliminarily discussed the access to FBI files with Chairman Downing and Staff Director Richard Sprague. According to Larry Callaghan, Deputy Assistant Attorney General, Office of Legislative Affairs, who was present at this meeting, the standard for access offered was the same as the aforementioned agreement, although no commitment was made. Concerning access to the material involving the assassination of Dr. King, Michael E. Shaheen, Jr., Counsel, Office of Professional Responsibility, has informed Callaghan that he has no objection to captioned Committee gaining access to that material despite the pending inquiry by his office.

(2) The following procedures shall apply (a) where delivery of materials requested might jeopardize FBI sensitive sources or ongoing operations, or (b) where the Domestic Task Force Leader requests access to materials, rather than delivery to the SSC.

(a) before the copies of such materials are taken to the Committee's offices, the Bureau shall, within 24 hours of the selection, make appropriate excisions and paraphrases of information which might, if inadvertently disclosed, endanger sensitive or sensitive FBI sources and/or ongoing operations.

(b) If the Task Force leader has any objections to the excisions or paraphrases, the materials in issue will be forthwith conveyed by the Bureau, with a written statement of its grounds for its position, to the Special Counsel who shall resolve the matter by negotiation within 24 hours.

(c) In the event the matter is not resolved within 24 hours, the Special Counsel shall submit the matter forthwith to the Attorney General who shall notify the Chairman forthwith and arrange for an appropriate disposition.

Re: HOUSE SELECT COMMITTEE ON ASSASSINATIONS

Mr. Fallis advised SA Coulson that Staff Director Richard Sprague of captioned committee was extremely upset over the inability to review FBI documents in Secret Service possession and that if this matter could not be resolved in the Committee's favor in the immediate future, that he (Fallis) would desire an appointment with Director Kelley to resolve the matter.

Contact with SA Tucker by SA Coulson revealed that the Secret Service intends to honor the Third Agency Agreement and not to release any FBI documents to the Committee. Tucker further advised that the Secret Service has between three and five cabinet drawers full of FBI documents.

Re: Reproduction of Material

procedure, it is recommended that the attached Reproduction of Material memo be approved which would be maintained as the top serial of the volumes reproduced. After access by the HSC has been accomplished, the reproduced copies will be destroyed and this memo as the top serial can be removed.

In the event that any of these files or portions thereof are delivered to the HSC, a notation will be made on the appropriate original serials denoting which material was furnished.

This procedure would improve the efficiency of this Unit in preparing this material for access and enable the personnel of the Unit to handle requests for access expeditiously.

^{LM}
ADDENDUM RECORDS MANAGEMENT DIVISION LWB:dw 12/22/76

Records Management Division agrees that it would be extremely burdensome, time-consuming and impractical to note the date and number of copies prepared on each serial that will be Xeroxed in this project involving over 700 volumes of files to be reproduced on an expedite basis. It is believed the proposed form will serve the purpose intended and Records Management Division recommends the proposed form and procedure set forth be approved for use by Congressional Inquiry Unit.

SPRAGUE-ASSASSINATIONS

PHILADELPHIA (AP) -- INSTEAD OF ANSWERING QUESTIONS, THE HOUSE
ASSASSINATIONS COMMITTEE'S RECENT REPORT ON THE MURDERS OF PRESIDENT
 KENNEDY AND THE REV. MARTIN LUTHER KING JR. WAS A "HOAX," ACCORDING
 TO THE COMMITTEE'S FORMER CHIEF COUNSEL, RICHARD SPRAGUE.

"ALL THEY DID WAS EVOLVE ANOTHER CONSPIRACY THEORY," SPRAGUE
 SAID IN AN INTERVIEW PUBLISHED IN THE SUNDAY BULLETIN.

THE FORMER ASSISTANT DISTRICT ATTORNEY SERVED AS THE COMMITTEE'S
 IEF COUNSEL FOR SIX MONTHS IN 1976-77 BEFORE RESIGNING IN A DISPUTE
 WITH THE PANEL'S LEADERS.

THE COMMITTEE'S 686-PAGE REPORT, RELEASED LAST WEEK, CONCLUDED
 THAT "IT WAS POSSIBLE ... THAT AN INDIVIDUAL ORGANIZED CRIME LEADER,
 OR A SMALL COMBINATION OF LEADERS, MIGHT HAVE PARTICIPATED IN A
 CONSPIRACY TO ASSASSINATE PRESIDENT KENNEDY."

THE COMMITTEE ALSO CONCLUDED THAT THERE WAS A "95 PERCENT"
 CHANCE THAT MORE THAN ONE GUNMAN FIRED AT KENNEDY AND THAT THE
 BROTHERS OF JAMES EARL RAY "PROBABLY" ASSISTED HIS FLIGHT AFTER THE
 MURDER OF KING.

"IT IS OUTRAGEOUS AND IRRESPONSIBLE FOR THEM TO SPEND \$5.4
 MILLION TO PRODUCE A REPORT THAT SAYS THIS 'MIGHT HAVE' HAPPENED OR
 THAT 'PROBABLY OCCURRED,'" SPRAGUE SAID.

TO : Mr. Bailey

DATE: 9/28/79

FROM : P. L. Andrews

SUBJECT: LEE HARVEY OSWALD -
SELECT COMMITTEE ON ASSASSINATIONS

PURPOSE:

It is recommended approval be granted for the return of 27 cartons of Xerox copies of the files of Lee Harvey Oswald from the Library of Congress previously furnished the Library of Congress for work prepared for the Select Committee on Assassinations.

DETAILS:

Mr. Nathan R. Einhorn, Chief, Exchange and Gift Division, the Library of Congress, Washington, D. C., by letter to Mr. James O'Neill, Acting Archivist of the United States, National Archives and Records Service (NARS), dated September 7, 1979, (copy attached) advised that the Library of Congress was in possession of 27 cartons of Xerox copies of FBI files on Lee Harvey Oswald dealing with the work for the Select Committee on Assassinations. Mr. Einhorn indicated the Library had no further use for this material and in seeking a suitable repository for it, requested a response from NARS as to whether they wanted the material transferred to the National Archives. The contents of this letter was brought to the attention of the Records Management Division by NARS personnel for comment on whether this material is of any value to the FBI.

It has been determined that the 27 cartons contain excised copies prepared by the FOIPA Branch and delivered to the Library of Congress on 1/19/78. A receipt is in file showing the transfer of this material to the Library of Congress. On September 27, 1979, Mr. Einhorn telephonically advised that the material he has at the Library of Congress is the Xerox copies which were delivered to the Library of Congress as indicated above. Inasmuch as

LEE HARVEY OSWALD -
SELECT COMMITTEE ON ASSASSINATIONS

NARS intends to advise Mr. Einhorn that they have no interest in the Xerox copies and that the original documents are the only material of archival value, NARS will inform Mr. Einhorn that he could dispose of this material. Mr. Einhorn stated normally they would turn such material over to the GSA, who would give it to a contractor for reclamation purposes.

In the interest of avoiding the material being made public through improper disposal, it is recommended that the FBI obtain the material from the Library of Congress and return it to FBIHQ where it can be properly disposed of through the classified disposal system in the basement.

RECOMMENDATION:

That approval be given to reclaim 27 cartons of Xerox copies of the Lee Harvey Oswald files from the Library of Congress for the purpose of disposing of said material through the shredding operation located in the basement of FBIHQ.

As you are aware, we are currently allowing representatives of captioned Committee access to FBI materials pertaining to our investigations into the deaths of President John F. Kennedy and Dr. Martin Luther King, Jr. This access was granted in accordance with Assistant Attorney General Michael M. Uhlmann's letter of November 18, 1976, to Chairman Thomas N. Downing.

The Committee was established by House Resolution 1540, which terminated with the conclusion of the 94th Congress and in the absence of a new resolution, the Committee is no longer in existence under the rules of the House of Representatives. While a new resolution has been submitted, it has not been adopted. I am concerned that continued access to the material by staff members of captioned Committee constitutes a possible Privacy Act violation and request your advice on this matter. In the interim, we will continue to grant access in accordance with the aforementioned letter of November 18, 1976.

NOTE: Legitimate requests of Congress are exempt from the Privacy Act. Since this Committee has not been reconstituted under the rules of the House of Representatives for the 95th Session, it is highly questionable that access to the materials in question can be considered as pursuant to a legitimate request of Congress. This memorandum advises the Department of our concern in this regard. This has been coordinated with Records Management Division.

DETAILS: The House Select Committee on Assassinations, formed in September, 1976, (House Resolution 1540) was mandated . . . "to conduct a full and complete investigation and study the circumstances surrounding the death of John F. Kennedy and the death of Martin Luther King." As you are aware, the FBI previously conducted extensive investigations concerning the assassination of Kennedy at Dallas, Texas, in 1963 and the assassination of King in Memphis, Tennessee, in 1968.

Attached is a copy of a "Report Together with Additional and Supplemental Views of the Select Committee on Assassinations, United States House of Representatives." In the beginning of this report Congressman Thomas N. Downing, Chairman of the Committee, states that "I am transmitting herewith to the House of Representatives the Report of the Committee representing the results of the Committee's investigation and study since its inception on September 17, 1976. The report includes the recommendations of the Committee with respect to continued investigation by the House of Representatives of the assassinations of John F. Kennedy and Martin Luther King, Jr." The report includes a budget recommendation of \$6,531,050 for 1977.

Memorandum to Mr. Gallagher
Re: House Select Committee on Assassinations

The introduction to this report includes, in part, a statement that "The passage of time has not healed the national trauma caused by these assassinations. In the ensuing years, old doubts have remained and new disturbing questions have been raised as additional evidence has come to light." The report cites "just a few examples of these new issues."

A review of these "new issues" as well as other information set forth regarding these assassinations in this report reveals that there are in fact no "new issues" contained therein. All "new issues" set out in this report have been raised previously and, where appropriate, were investigated, the results of which were furnished to the Department, or with Departmental authority to various congressional committees.

In view of the nonspecific nature of other "unanswered questions" and of other points raised by innuendo, no attempt is being made to respond to these nebulous "unanswered questions."

U.S. HOUSE OF REPRESENTATIVES,
SELECT COMMITTEE ON ASSASSINATIONS,
Washington, D.C., December 31, 1976.

HON. EDMUND L. HENSHAW, JR.,
Clerk, U.S. House of Representatives, Washington, D.C.

DEAR MR. HENSHAW: On behalf of the House Select Committee on Assassinations and pursuant to the mandate of House Resolution 1540, I am transmitting herewith to the House of Representatives the report of the committee representing the results of the committee's investigation and study since its inception on September 17, 1976. The report includes the recommendations of the committee with respect to continued investigation by the House of Representatives of the assassinations of John F. Kennedy and Martin Luther King, Jr.

I would like, at this time, to express the deep appreciation of the committee to the committee staff for its excellent work on this phase of the Select Committee's investigation.

I note, on my retirement from the House of Representatives, the fine start which has been made on this investigation, for whose initiation I have worked over the past years. It is my sincere hope that the House will see fit to proceed with the investigation in the same thorough and professional manner in which it has begun.

Sincerely,

THOMAS N. DOWNING,
Chairman.

RESULTS AND RECOMMENDATIONS OF THE
SELECT COMMITTEE ON ASSASSINATIONS

DECEMBER 31, 1976.—Committed to the Committee of the Whole House

Mr. DOWNING, from the Select Committee on Assassinations
submitted the following

REPORT

I. INTRODUCTION

Twelve years have passed since the Warren Commission released its report finding that Lee Harvey Oswald was the sole assassin of President John F. Kennedy.

Eight years have passed since Judge W. Preston Battle of the Shelby County, Tenn., Criminal Court accepted James Earl Ray's plea of guilty to the murder of Dr. Martin Luther King, Jr.

The passage of time has not healed the national trauma caused by these assassinations. In the ensuing years, old doubts have remained and new disturbing questions have been raised as additional evidence has come to light.

The following are just a few examples of these new issues:

(1) Did the Central Intelligence Agency deliberately avoid furnishing critical information to the Federal Bureau of Investigation which would have resulted in the surveillance of Lee Harvey Oswald prior to the assassination of President Kennedy? If so, why?

(2) Was critical evidence withheld from the Warren Commission? If so, why?

The U.S. Senate Select Committee to Study Governmental Operations, in a report released April 23, 1976, concluded that the performance of U.S. intelligence agencies was defective both with respect to the investigation of the assassination of President Kennedy as well as the reporting to the Warren Commission. That report states in part:

In the days following the assassination of President Kennedy, nothing was more important to this country than to determine the facts of his death; no one single event has shaken the country more. Yet the evidence the Committee has developed suggests that, for different reasons, both the CIA and the FBI failed in, or avoided carrying out, certain of their responsibilities in this matter.

* * * * *

The Committee emphasizes that it has not uncovered any evidence sufficient to justify a conclusion that there was a conspiracy to assassinate President Kennedy. The Committee, has, however, developed evidence which impeaches the process by which the intelligence agencies arrived at their own conclusions about the assassination, and by which they provided information to the Warren Commission. *This evidence indicates that the investigation of the assassination was deficient and that facts which might have substantially affected the course of the investigation were not provided the Warren Commission or those individuals within the FBI and CIA, as well as other agencies of Government who were charged with investigating the assassination. (Emphasis supplied.)*

(3) There are reports of intensive surveillance of Dr. Martin Luther King by domestic intelligence agencies, including the FBI. Who and where were these agents at the time of Dr. King's assassination? Do they have any evidence concerning the assassination or any plans to commit it? Was this surveillance deliberately curtailed prior to the assassination? And, if so, why?

(4) There are reports that there were unusual transfers of personnel by the Memphis Fire and Police Departments on April 3 and April 4, 1968, which may or may not have affected the security of Dr. King. If so, why were these transfers made and at whose direction?

Over the years repeated disclosures of agency misconduct, foreign assassination attempts, concealed information, destruction of evidence and possible deliberate misinformation have fostered among our citizens an ensuing lack of confidence in Government agencies.

As a result, there has been a growing sense of national concern about the adequacy and integrity of the original investigations. The history of these assassinations has demonstrated that the passage of more time will only increase that concern, and only a thorough and definitive inquiry at this time will resolve the growing doubts.

On September 17, 1976, the House of Representatives rose to this challenge. It created the Select Committee on Assassinations (H. Res. 1540) with the mandate to conduct a "full and complete investigation of the circumstances surrounding the death of John F. Kennedy and the death of Martin Luther King, Jr., and of any others the Select Committee shall determine."

The members of the Select Committee recognized the need to resolve certain preliminary matters in the 3 months remaining before the close of the 94th Congress. With a realistic appraisal of the task in mind, staffing and budget levels were determined. Threshold investigative inquiries were begun. With the advent of the new Congress the committee is now prepared to proceed with the investigation.

The committee undertook its legislative mandate with the recognition of its responsibility to the American public. The purpose of this mandate is to investigate and provide the facts relating to both assassinations and to do so in a manner which will be credible, professional, ethical and will reflect well on the integrity of Congress.

Pursuant to this mandate, the committee will make recommendations regarding the adequacy of existing laws relating to the assassination of the President of the United States, conspiracy, deprivation of civil rights, and the investigatory authority and capability of agencies and departments of the United States government.

The committee has received widespread support for this legislative investigation. An assistant counsel to the Warren Commission, citing recent disclosures of documents which were withheld from the Warren Commission, strongly urged the reopening to the investigation. He stressed that "the conduct of the Commission and of the agencies upon which it relied should be carefully examined and any new information be fully pursued."

The important questions, he said, are "not only how and why President Kennedy was assassinated, but how such events can be effectively investigated." He was joined by another assistant counsel to the Warren Commission who has endorsed "a full and thorough investigation of both assassinations."

In the case of the King assassination, the committee was provided with the results of a 1975 investigation conducted by the Atlanta, Ga., Bureau of Police Services. The report states in part: " * * * even a cursory examination of certain information presented to us elicits some very interesting series of coincidences which would appear to merit investigation by appropriate agencies." The report urges that a new investigation be undertaken in order to reach "a more definitive position on the circumstances surrounding the assassination of Dr. Martin Luther King, Jr."

II. THE COMMITTEE'S INITIAL ACTIONS

The committee's first task was the selection and appointment of a chief counsel and director.

The committee obtained the services of Richard A. Sprague. Mr. Sprague served as First Assistant District Attorney of Philadelphia, Pa., from June 1966, until December 1974. He has represented the Commonwealth of Pennsylvania as prosecuting attorney in more than 10,000 criminal trials. Serving as Special Prosecutor for Washington County, Pa., he was responsible for the investigation and subsequent prosecution of the Yablonski murder cases. As Special Assistant to the Attorney General of the United States, he was responsible for the conviction of W. A. "Tony" Boyle, the deposed president of the United Mine Workers.

The committee considered the necessity of moving expeditiously on both investigations. It felt that new evidence pertaining to either the Kennedy or King assassination should be pursued immediately, that further delay would be unwarranted.

Thus, the committee decided to pursue each investigation simultaneously. It organized itself into two subcommittees: one, chaired by Walter E. Fauntroy to direct the King investigation; the other, chaired by Richardson Preyer to pursue the Kennedy probe. All members of the Full Committee will be active in both investigations.

The committee agreed upon the need for a staff of 170. This figure provides for two investigative teams of approximately 15 attorneys and 25 investigators each. It is the intention of the committee to recruit the best talent within this Nation. The committee believes it can attract dedicated professionals in the field of criminal investigation with broad experience and ability, who will view this call as a professional challenge as well as an opportunity for public service. Substantial progress has been made in this area.

Finally, the committee decided unanimously not to conduct the investigations under deadlines. One reason for this is to avoid a situation where an agency, individual or group might engage in delaying tactics in an attempt to outlast the committee.

The Warren Commission, which was under intense pressure to resolve the question of responsibility for the Kennedy assassination quickly, produced its final report within 10 months. That Commission did not have an independent investigative staff and conducted its proceedings in closed hearings. These factors, which may or may not have influenced the outcome of the Commission's investigation, have nevertheless contributed to the increasing challenges to that Commission's conclusions.

With the passage of time since the original investigations, there is no longer the pressure to arrive at quick conclusions. The Select Committee, with the advantage of hindsight, with independent investigators, and without artificial deadlines, will conduct the full, dispassionate, and comprehensive investigation that is necessary.

To the extent that it does not impede or impair the integrity of the investigation, the committee intends to hold open hearings. These sessions will be held as the investigations lead to verifiable conclusions, which either prove or disprove prior findings or allegations. In observing the various witnesses and being able to observe their demeanor and judge their credibility, the American public will have a greater basis for confidence in ultimate conclusions. These sessions will also enable the public to observe the investigation as it unfolds.

III. PRELIMINARY INVESTIGATION AND ANALYSES

In the 3 months since its establishment the Select Committee has initiated preliminary investigations into new and previously unpursued leads in both assassinations. While we cannot yet verify the results of our preliminary investigations, we can provide two examples which are representative of the investigative activity that the committee has undertaken.

On November 26, 1976, committee staff questioned extensively an ex-CIA agent regarding his personal knowledge of conversations between Lee Harvey Oswald and personnel within the Soviet and Cuban Embassies in Mexico City.

As a result of the initial questioning, members of the Kennedy Subcommittee held an executive session on November 27. Based on information obtained during the hearing, staff members were dispatched to Mexico where they located and interviewed new witnesses. These witnesses had never been sought out before by any investigative body, notwithstanding the fact that they had important information concerning statements by Lee Harvey Oswald in Mexico within 60 days of the assassination of President Kennedy.

With respect to the assassination of Dr. King, committee counsel obtained relevant information from a witness who had never been interviewed before by any investigative agency. This witness has stated that James Earl Ray related to him the fact that after Ray fled to Europe, Ray contacted another person from whom he received further instructions to aid in his continuing flight.

In other areas of inquiry, committee staff has interviewed persons with new relevant information who had never been contacted by any investigative agency. The committee intends to continue to pursue such information.

In addition to pursuing other new investigative leads, the committee has been conducting an intensive analysis of the evidence available in both assassinations in order to define and determine the nature and scope of the inquiry.

With respect to the Kennedy investigation, the chief counsel presented the committee with a list of hundreds of questions which must be resolved. The committee also has identified several hundred witnesses who must be interviewed.

The committee has taken positive steps to insure that it will preserve all relevant materials in the possession of investigative agencies. It has

issued several subpoenas duces tecum to insure evidence will be made available. The committee has been informed that the Central Intelligence Agency alone is in possession of more than 60 cartons of materials relating to the assassination of President Kennedy and the activities of Lee Harvey Oswald prior to that assassination.

With respect to the assassination of Dr. King, the committee's initial examination of the events and circumstances during the period of James Earl Ray's escape from prison in Missouri in 1967 until his capture and subsequent extradition from England in 1968 gave rise to hundreds of questions. The committee has completed a detailed analysis of the stipulations of fact contained in the guilty plea of Ray in March 1969. The committee noted that during the course of the plea proceedings, Ray rose to advise the court that he did not concur with statements made by both the State prosecutor and his own attorney, that there had not been a conspiracy to assassinate Dr. King.

The committee does not mean to imply that there was or was not a conspiracy. It merely indicates that this is one of the areas which requires further investigation, especially in view of the failure to obtain a full statement of involvement from Ray by the Tennessee authorities.

Two staff members of the Select Committee traveled to Memphis, Tenn., and compiled a 76-page index of materials contained in only one of the evidentiary files. The Federal Bureau of Investigation has advised committee staff that it has more than 80 volumes of materials on the assassination and subsequent investigation into that assassination.

To insure the preservation of certain evidence and documents the Select Committee voted and issued a total of 12 subpoenas duces tecum related to evidence in the assassination of Dr. King.

The Select Committee is cognizant of the significant accomplishments of other independent investigations by the Congress. A quantum of evidence relevant to our investigations has been accumulated by various committees and select committees of the House of Representatives and the Senate. To date, contacts by committee staff have demonstrated a willingness on the part of both Houses of Congress, their Members and various committees to cooperate in making those materials available to this committee.

On the basis of these numerous areas of inquiry and the necessity to preserve evidence already under subpoena, the Select Committee unanimously recommends to the 95th Congress that the Select Committee on Assassinations be immediately reestablished to continue the investigation.

IV. STAFF AND BUDGET REQUIREMENTS

The committee wishes to emphasize that the unprecedented nature of the task identified in House Resolution 1540 makes past methods of determining the Select Committee's budget inappropriate.

The committee feels strongly that the integrity of this investigation is contingent upon the independence of our investigative efforts. The executive branch agencies, which were utilized in the past, are the very agencies whose previous performance may be the subject of a part of this investigation. The committee, therefore, cannot employ the services of the executive branch agencies. Both the size of the staff and the budget requirements are predicated on the necessity of conducting a comprehensive, impartial investigation.

The committee submits the following comparative analysis of budget and staffing levels of certain previous investigations as a standard by which our recommendations may be measured.

Warren Commission

Staff: 83.

Duration: 10 months.

The Warren Commission did not possess an independent investigative staff. For investigative purposes, they relied on the Federal intelligence agencies. We have been able to amass the following figures, indicating the level of support provided to the Warren Commission by each agency.

FBI: Provided 150 full-time agents who in turn conducted 25,000 interviews and submitted 2,300 reports totaling 25,400 pages. They also provided secretarial and clerical assistance.

CIA: Provided 12 full-time and part-time professionals. They also provided secretarial and clerical assistance.

Secret Service: Provided over 60 full-time professionals who conducted 1,550 interviews and submitted 800 reports totaling 4,600 pages. They also provided secretarial and clerical assistance.

Justice Department: Provided at least 4 full-time professionals.

State Department: Provided certain professional support.

IRS: Estimates that between their Internal Security Inspection Service and their Intelligence Division, they provided 6 staff-years of support.

FBI Investigation Re: Patty Hearst

The only figures available for this investigation are for the first 3-month period. During this initial 90-day span, the FBI spent \$2,600,000. Figures for the number of staff employed are also unavailable.

New York State Special Nursing Home Investigation

This investigation of abuse of the medicaid program by nursing homes has a total staff of 421. The staff includes 65 lawyers, 156 auditors, 100 investigators, and 100 support personnel. Its present yearly budget is \$6,000,000. In addition it utilizes 40 sitting grand juries, the cost of which is not included in the \$6,000,000.

The committee feels that the staff and budget requirements it has identified at the end of this report are at minimal levels necessary to conduct comprehensive and independent investigations of the assassination of President Kennedy and Dr. King.

V. RECOMMENDATIONS

The committee and, indeed, the 94th Congress by the passage of House Resolution 1540 recognized that there are many lingering doubts as to the comprehensiveness and credibility of prior investigations into each of these assassinations. The questions which arise from even a preliminary analysis and investigation are legion. Thus, the Select Committee unanimously and unequivocally recommends:

(1) That the House of Representatives immediately move to continue the investigation of the circumstances surrounding the death of President John F. Kennedy and the death of Dr. Martin Luther King, Jr.

(2) That the House immediately re-establish the Select Committee to insure that evidence which is currently under subpoena will remain intact and under the continuing control of the House and to insure that there is no delay in the ongoing investigations.

(3) That the House approve the budget as set forth herein.

ADDITIONAL VIEWS OF HENRY B. GONZALEZ

I completely support the recommendation of the committee, urge that the 95th Congress immediately reestablish it, and that a budget be approved in the full amount requested.

If ever a legislative effort began with less promise, it was the work of this Select Committee. The committee began its work in the waning days of the 94th Congress, had no staff, no offices, no time to organize properly, and no time to prepare or carry out the study it was commissioned to do. The committee has, however, accomplished more than anyone could have thought possible.

First, the committee has secured the services of an outstanding chief counsel, Richard A. Sprague; he is one of the most effective and respected investigators in the country today. The committee has also been able to hire a team of exceptionally able investigators, researchers, and attorneys. There is absolutely no doubt that Mr. Sprague and his Staff can conduct a completely independent, dispassionate, objective, and thoroughly professional study, given time and adequate support.

In the very short time available, the committee has obtained a substantial amount of information and evidence, and placed these under its control. Researchers and investigators have compiled, and indexed an immense amount of material, initiated some investigations, and most important, prepared the ground for the sustained effort ahead.

Second, the committee has defined its job and has a clear idea of how it is to be accomplished.

The committee does not intend to prove or disprove any theory concerning the assassinations it will study. Instead, the committee will conduct a completely new, independent study. It will begin with the events, take the evidence available, verify that evidence, and reach reasonable conclusions based on the available evidence: no more, no less.

I recognize that an approach of this kind will entail a substantial amount of money, and will require a large number of people; moreover, a study of this kind will take time, and cannot be subject to any deadlines. To have any meaning, the investigation must rely on unimpeachable integrity. To do less than a completely thorough job would be to accomplish nothing at all.

The committee is unanimous in its conclusion that it must be able to rely completely on its own resources. We know that neither the FBI nor CIA cooperated fully with the Warren Commission; and we know that the FBI Director in 1968 had passionate feelings against Dr. Martin Luther King—feelings that might well have been reflected in less than objective work by his subordinates. The decision of the committee to rely on its own staff rather than Executive agencies does not reflect on the integrity or efficiency of those agencies; but we are determined that this be a completely independent study, not in any way affected by the interests of any agency or group.

Investigations of any kind are expensive. Few people, perhaps few of my colleagues, realize how costly even a simple investigation can be. The scope of this study, and the fact that evidence and witnesses are scattered far and wide, the complexity of carrying out two major homicide investigations at once, will make this a very expensive effort. But I am satisfied that the study must be independent, must be thorough, and that every finding must be as thoroughly verified as humanely possible, or the entire effort will be meaningless.

Third, the committee has demonstrated its competence. In the very short amount of time it has had available, the committee has accomplished miracles of organization, defined its work, and begun an extremely complex set of investigations. It is difficult to imagine how it could have accomplished more than it has, especially under the very adverse conditions it has been forced to operate under.

I believe the committee has demonstrated that it has a real task to accomplish. If it is permitted to proceed, the committee can settle hundreds of questions about the murder of President Kennedy and that of Dr. King. Beyond that, the committee can shed light on the larger issue of political murder and violence. We should not forget that President Ford had his own narrow escapes; no Member of the House should forget that the Capitol Building was bombed; and no Member of the House should forget that we live and work under increasingly tight security measures.

It is necessary today to have a vast police force in and around the Capitol. It is necessary to have television monitors on every door. It is necessary to have parcels X-rayed.

Every airline passenger must be subjected to an electronic search for metal, and baggage carried aboard airplanes, and even into boarding areas, must be X-rayed.

Visitors to the Supreme Court must be cleared.

New gates and increasingly sophisticated surveillance devices surround and protect the White House. A whole new police force is employed to protect Embassies.

All of this reflects an age of political violence; all of it has come about since 1963. All of it shows that we have not learned the answer to the crucial question: Why?

That, as I see it, is the ultimate task of the Select Committee—to find out not just what happened, but why.

If we can answer that question, it may be possible to end political violence, and begin taking down the security measures that repress all of us, and represent a genuine threat to free government. Political violence is not inevitable, and it is not inexplicable. The Select Committee may, and I hope will, shed light on why these events took place, and why they shadow all our lives, even today—and how we can begin to end political violence and the omnipresent threat of it, which is, in fact, a threat to free government itself.

HENRY B. GONZALEZ.

SUPPLEMENTAL VIEWS OF CONGRESSPERSONS LOUIS STOKES, WALTER E. FAUNTROY, YVONNE BRATHWAITE BURKE, AND HAROLD E. FORD

The purpose of these supplemental views is to strongly emphasize our concurrence in the recommendation contained in the committee's report. In our opinion, the House of Representatives took a giant step toward restoring the faith of the American people in their Government when, in the 94th Congress, it passed House Resolution 1540 by a majority vote of 280 to 65 and established the Select Committee on Assassinations. Just this past week, the latest Gallup Pool told us that 80 percent of the American people do not believe that either Lee Harvey Oswald or James Earl Ray acted alone in the murders of President John F. Kennedy and Dr. Martin Luther King, Jr. They feel that their Government has not told them all that it knows or that it is in position to find out about the brutal assassinations of two of the most important leaders of the Post World War II era.

The following article appeared in the Washington Post on December 26, 1976, and read as follows:

As the House Select Committee on Assassinations begins its investigations, the overwhelming majority of Americans believe that others besides Lee Harvey Oswald were involved in the assassination of President Kennedy in Dallas on November 22, 1963.

In the latest survey, just completed, 80 percent think others were involved in the assassination, while only 11 percent think Oswald acted alone. Nine percent do not express an opinion. Persons with a college background, while overwhelmingly of the opinion that some form of conspiracy was involved, are less inclined to hold this view than are persons with less than a college background.

Approximately one-half of the survey respondents who believe others were involved did not name a specific group. Among those who did, however, Cuba or Premier Fidel Castro were mentioned most often. Other responses frequently given are "the Mafia," "Communists," and the Central Intelligence Agency.

The same survey also shows that few Americans believe James Earl Ray acted on his own in the assassination of the Reverend Doctor Martin Luther King, Jr. in Memphis on April 4, 1968. Only 18 percent hold this view, while 69 percent think others were involved and 13 percent do not express an opinion.

An investigation into the assassinations of Kennedy and King was recently begun by the newly established House Select Committee on Assassinations—the sixth to be conducted on a large scale by Government officials since Kennedy was assassinated.

Thus, in the case of the death of President Kennedy, in spite of the Warren Commission investigation and the investigations by other Federal agencies and the U.S. Congress, the final reports to the American people have lacked the thoroughness to allay their suspicions that a conspiracy existed which has not yet been uncovered. In the case of James Earl Ray and the King murder, the same general suspicions exist. The threshold inquiries made into these two deaths by our present committee do not provide the answers to these rumors, theories, and suspicions. If these fears, theories, suspicions, and rumors are to be put to rest and if the confidence of the American people is to be restored in the investigative agencies of their Government, a thorough, competent and objective investigation into each of these deaths is an absolute necessity.

This committee has proceeded in that vein. The committee has selected Mr. Richard Sprague, a prominent prosecuting attorney as chief counsel and director of its staff. He is in the process of establishing a staff of attorneys, investigators, and administrative personnel who are capable of exhibiting the highest degree of competence and professionalism in the enormous task of investigating two murders. The Warren Commission was able to avail itself of the investigative personnel of numerous agencies such as the FBI, CIA, the Secret Service, the Justice Department, the State Department, and the Internal Revenue Service.

The integrity of the results of the investigation by the Select Committee on Assassinations will be predicated upon a thorough, objective, fair, and impartial investigation by professional personnel, who will be independent and will be free from the taint of "investigating themselves." It is imperative, therefore, that these minimum staff and budget recommendations which are being requested be granted by the 95th Congress. If in the final analysis we have been able to help restore the faith and confidence of the American people in their Government, this Congress will have justified the costs and will have endeared itself to the people whom we serve.

SUPPLEMENTARY VIEWS OF CONGRESSMAN
CHARLES THONE

I am in basic agreement with the Report of the Select Committee on Assassinations to the 94th Congress. I do, however, wish to make the following observations.

Unless this Select Committee maintains complete credibility with the American public, its efforts will be in vain. Anything that subtracts from the faith and confidence that the people of the United States have in this committee will greatly diminish the value of its final report.

Therefore, I have been deeply concerned by the tendency of a majority on the committee to conduct far too many meetings in executive session. I grant there will be some matters coming before the committee that should be heard in executive sessions. Examples of such matters are testimony that would endanger the national security and, in special investigative hearings, such testimony or evidence that would tend to defame, degrade, or incriminate an individual who might be innocent. By and large, however, we can only serve the public well through conducting our sessions after adequate notice and in public.

At the December 17, 1976, meeting of the committee, a motion which I introduced was adopted unanimously by those present. It specifically provides in the reconstruction resolution of this committee for the 95th Congress that the committee, at its first meeting in 1977, must adopt rules for its conduct and that those rules must be in accordance with House of Representatives rules.

Rule XI provides that every committee of the House shall adopt written rules governing its procedure, and Rule XI 2(g)(1) provides that "Each meeting for the transaction of business, including the markup of legislation, of each standing committee or subcommittee thereof shall be open to the public except when the committee or subcommittee, in open session and with a quorum present, determines by rollcall vote that all or part of the remainder of the meeting on that day shall be closed to the public." Other meeting rules cover proper notice, specified record keeping and some very limited exceptions to open sessions. We can and must follow both the letter and spirit of these rules.

Yes, by all means this Select Committee on Assassinations must operate scrupulously and diligently within the rules of the House. Furthermore, we must strive, within the rules, to be open and accessible to the public and their representatives, the news media. For this committee, credibility is everything. And credibility will best be served, as usual, by conducting public business in public.

CHARLES THONE.

ADDITIONAL VIEWS OF CONGRESSMAN CHRISTOPHER
J. DODD

"Independence, thoroughness, and openness" must be the guiding principles of these new investigations into the assassinations of President John F. Kennedy and the Reverend Martin Luther King, Jr. by our House Select Committee on Assassinations.

In endorsing this report, I would like to take this opportunity to elaborate on these themes, and to underscore their importance to the ultimate success or failure of our efforts. I also want to share my personal views on these inquiries, as the committee begins this ambitious undertaking.

As an early cosponsor of congressional resolutions calling for this Select Committee, I have long felt that there remain many unanswered questions surrounding these assassinations—especially questions about the roles of the Federal agencies charged with investigating these terrible crimes.

The specific questions highlighted in this report as to the conduct of the Central Intelligence Agency, and its apparent knowledge of some of Lee Harvey Oswald's activities in Mexico before the Kennedy assassination, are examples of just such continuing concerns.

Another example underscored in this document is the question of the Federal Bureau of Investigation's reported surveillance of Dr. King, and whether FBI agents were in Memphis and near the civil rights leader at the time of his death.

The House Judiciary Subcommittee on Civil Rights, on which I serve and which has oversight responsibility for the FBI, found it necessary last year to hold hearings about that agency's activities before and after President Kennedy's assassination. After taking part in those hearings, I can say our subcommittee raised more new questions about the FBI and the assassination than we received answers to old ones.

Since then, other pressing legislative responsibilities—such as FBI surveillance guidelines and bankruptcy law reforms—prevented our Judiciary Subcommittee from pursuing these new questions, and the unanswered old ones, as fully as would have been desired.

The allegations of possible conspiracies, and of the possible withholding of evidence, are more of the many additional questions about these assassinations which should be laid to rest once and for all, so that these tragic chapters in American history can at last be closed.

I think this new, Select Committee represents a unique opportunity for Congress and the American people to finally resolve the issues still surrounding these murders, and I would hope the committee will be able to provide the answers to all these continuing questions.

However, it must be pointed out that this committee could, after its lengthy, exhaustive inquiries, still reach the same conclusions about these assassinations that other investigating bodies have before us. Or this committee might arrive at far different conclusions.

The American people have a right to know the full stories behind these assassinations. They have a right to know the motives and reasons for them, how these deeds were accomplished, and who truly was responsible for them.

This Committee, then, has a great responsibility to fulfill, and the ways it accomplishes this task are of the utmost importance. It is here where "Independence, thoroughness, and openness" count the most.

"Independence"—As mentioned before in these views and in the body of this report, major criticisms of past investigations of these assassinations focus heavily on the activities of the Federal justice and intelligence agencies charged with conducting the initial criminal inquiries.

In light of the fact that these Federal agencies could be the subject of part of our investigation, it would be wholly inappropriate to employ their services as has been done in past assassination studies. Such reliance on these agencies would prejudice the necessary impartiality and credibility of our inquiries.

Therefore, it is crucial to the success of this committee that it retain an experienced, professional investigative and legal staff completely independent from these Federal Government agencies. This great need for an independent staff is the primary reason why the proposed committee budget totals what it does.

"Thoroughness"—I am pleased that the members of this committee, and its staff, are committed to pursuing every possible avenue of investigation and every conceivable theory and lead about these assassinations.

This determination to find definitive answers, if they exist, to all the questions surrounding the assassinations is significant, because the committee's work must withstand the tests of time which other investigations apparently have failed to pass. In 10, 20, 30, or 100 years after the end of our inquiries, the American people should not have to face the doubts about these crimes which exist today.

Our committee must go about its deliberations in the most considered and careful manner possible—eschewing making judgments and conclusions until all the evidence is gathered and evaluated. It is essential that the committee and staff approach these inquiries with completely open minds, so as to avoid possible charges from any quarter that we are being less than objective.

Central to the thoroughness of our investigations will be the necessity to obtain confidential, sensitive, or classified material from Federal agencies. In this regard, I believe the committee should insist on full and total disclosure of all relevant documents in raw, rather than edited or excised, form.

The committee should have the unlimited opportunity to make an independent analysis of these documents, and it should not accept any preselection or screening of information by any agency. Acceptance of edited or screened information could jeopardize the independence of the committee's investigations and could raise the possibilities of pertinent information being withheld by the agencies.

To obtain the necessary raw information and documents, the Select Committee should avoid the past experiences of other congressional bodies which made "treaties" with Federal agencies about access to information.

The requirements of a thorough, independent investigation must not be compromised away through "treaties," and the committee must be willing to employ all appropriate means, including contempt of Congress citations, to obtain needed information. The committee furthermore must be willing to vigorously pursue subpoenas and contempt citations to the fullest legal extent possible in its efforts to secure relevant information.

In insisting on total disclosure of relevant agency information relating to the assassinations, the committee must recognize a paramount responsibility to ensure the safekeeping and confidentiality of such materials through whatever elaborate security measures and personnel clearance procedures are necessary. The act of "leaking" any such materials should face the most severe penalties, also.

Lastly in the area of "thoroughness," I would caution the American people to also avoid reaching premature conclusions about the nature, progress and results of the committee's examinations.

It would be misleading for the public to view committee deliberations and hearings about specific allegations, observations, theories, et cetera regarding the assassinations as official endorsements of the validity of these pieces of information.

Until any interim or final committee reports set forth conclusive findings from the investigations, any deliberations and hearings, and their contents, should be viewed as part of the overall process by which we are attempting to determine the truthfulness or falsity of all this information.

"Openness"—Clearly, the question whether to hold meetings and hearings in public or in closed session is one of the most difficult with which the committee must deal. The obligation has, as an arm of a public institution, Congress, to do its business in public must be balanced by the need to protect the confidentiality of certain sensitive information.

I believe that a meeting or a hearing of our committee should be closed only when it has been demonstrated that an executive session is necessary to:

- (1) protect the constitutional rights and safety of witnesses;
- (2) avoid jeopardizing the ongoing investigations, such as by risking loss of potential evidence; and,
- (3) safeguard national defense information.

Any decision to close a meeting or hearing should be made by a rollcall, rather than a voice, vote.

During the course of the committee's investigations, as plateaus are reached where significant evidence has been verified, allowing various conclusions to be drawn, then it would seem proper for the committee to hold open sessions, or to issue interim reports, to keep the public informed of its work.

This committee has an obligation to conduct as much of its business as possible in open sessions, where the American people can follow our investigations and judge for themselves how well or poorly we are discharging our responsibilities. Such openness, I submit, is essential to establishing the credibility of our committee and of the results of its investigations.

The American people should have the opportunity to observe how the members of this committee question witnesses. The public should

be afforded as many insights as possible into the actual workings of the investigations, because such participation will mean that our final conclusions will be more credible to all Americans.

During floor debate on the House resolution establishing the committee, a major argument in its favor was that, unlike past investigations, we would allow the people to oversee our deliberations. Such openness, it was argued, would help to quell public mistrust of Congress and of our governing process, in general. This argument remains valid today.

Our committee might finally conclude that past investigations of the Kennedy and King assassinations were correct in their findings, thus rejecting the many alternative theories now circulated. Or we might show some of these theories to be correct.

What is as important here as any specific conclusion we might reach, is that we allow a reasonable, open process to work, and that we demonstrate to the people that we are giving each and every theory thorough scrutiny before accepting or rejecting it. In this way, no one in the future, will be able to challenge the committee's integrity and responsibility, as past investigations have been challenged.

To further demonstrate the committee's commitment to conducting an open inquiry, and to allow discussion in the near future of the best way to strike a balance between our public obligation and the need to maintain a certain level of confidentiality, I again would urge the committee to draft a comprehensive policy statement or set of rules dealing with these issues. Policy or committee rules regarding the handling of sensitive documents, and statements to the press by individual members, also should be proposed for discussion. Such rules or policies should be debated and voted on by the committee at an open session early next year.

In summary, I feel that the Select Committee has made a productive beginning, and by this report, has demonstrated that it should be reconstituted as quickly as possible in the 95th Congress to allow the investigations to proceed without a loss of continuity or momentum. I urge all my colleagues in Congress to support such a reestablishment of the committee.

Furthermore, I believe that only through independence, thoroughness, and openness will the committee earn and continue to receive the full support of the American people to pursue these deliberations along whatever paths the investigations might lead, including the firm steps needed to enforce subpoenas and contempt of Congress citations.

And it will be only by following these guiding principles that the committee, and its work, will be acceptable to the American people as providing proper answers to the disturbing questions which still surround the assassinations of President John F. Kennedy and The Reverend Martin Luther King, Jr.

At 5:16 p.m. on January 11, Assistant Attorney General Michael Uhlmann, Office of Legislative Affairs in the Department, telephonically advised me that he was concerned that representatives of captioned Committee were continuing to have access and were reviewing file materials in the FBI when the new Congress had not, as yet, reconstituted the Committee. Mr. Uhlmann said that he was concerned about the Privacy Act implications of granting access where the Committee has not been reauthorized which problems were brought to his attention by the FBI. He said that he would like to discontinue the access pending authorization of the Committee and sought my suggestion as to what should be done. I suggested that, in view of the significance of such an action, the decision should be made by the Attorney General and communicated by him to the Congress. Mr. Uhlmann said he agreed and requested assistance in the preparation of language that would be appropriate in such a letter for the Attorney General's signature.

Mr. Uhlmann said that it would be advisable for us to continue to grant access until the Attorney General's letter was, in fact, delivered. I told him that our Office of Congressional Affairs would be in touch with him on the morning of January 12 to assist him in the preparation of the necessary letter.

I have requested our Office of Congressional Affairs to undertake at once the preparation of appropriate language and to discuss this matter with Mr. Uhlmann on the morning of January 12.

RECOMMENDATION: For information.

This is to advise that a request to retain the services of former SA Robert P. Gumberling (retired) on an as needed basis based on his expertise of the John F. Kennedy assassination investigation has been approved.

Any request for the utilization of Mr. Gumberling's services will require prior Bureau approval for each instance. Mr. Gumberling's status will be that of a reemployed consultant and he will be compensated at the salary rate, exclusive of fringe, for the grade and step obtained at the time of his separation, less the daily rate of his retirement annuity. PURPOSE: To advise that on the evening of 1/11/77 at 5:25 p.m., the Office of Legislative Affairs advised SA Lawn, Congressional Inquiry Unit, of the decision of the Department of Justice that representatives of the House Select Committee On Assassinations immediately should be denied access to the files of the FBI, based upon Privacy Act considerations, until such time as the HSCA is recreated by the 95th Congress. This conversation was immediately confirmed through follow up telephonic contact with the Office of Congressional Affairs, Legal Counsel Division, and again with the Office of Legislative Affairs, Department of Justice.

Thereafter on Wednesday morning 1/12/77 at 9 a.m., two representatives of the HSCA, on arrival at FBIHQ, were advised of the decision of the Department of Justice temporarily to deny access to the HSCA because of Privacy Act considerations, until such time as the HSCA is reestablished by the 95th Congress. These representatives of HSCA were advised that a letter would be forthcoming from the Attorney General in this regard.

ations, until such time as the HSCA is recreated by the 95th Congress. This decision furnished by Mr. Callaghan was confirmed in follow up telephonic contact between SA Lawn and SA Danny O. Mr. Callaghan further advised that a letter to the Chairman of the House Select Committee On Assassinations would be prepared in this regard by the Department.

At 9 a.m. on Wednesday, 1/12/77, Mr. Ralph Locke and Mrs. Mereto Rosen, representatives of HSCA, arrived at FBIHQ and were advised that access to FBI files was being temporarily denied them based upon a decision by the Department of Justice, which decision was reached because of Privacy Act considerations. They were informed that this denial of access was temporary until such time as the HSCA was reestablished by the 95th Congress. Mr. Locke then contacted his office and advised that they should not send any additional personnel to FBIHQ to review files. Locke expressed his appreciation for past amenities and with his associate, Mrs. Rosen, was escorted from FBIHQ.

The purpose of this memorandum is to advise of a letter from Attorney General Levi to Congressman Henry B. Gonzalez (Texas) informing him of the Attorney General's decision to restrict the access to FBI materials by staff members of this former Committee.

DETAILS:

Enclosed is a letter dated January 12, 1976 (sic), to Congressman Henry B. Gonzalez from Attorney General Levi regarding captioned Committee. Pursuant to a request by Assistant Attorney General Michael M. Uhlmann, Office of Legislative Affairs, SA Danny O. Coulson, Office of Congressional Affairs, Legal Counsel Division, and Deputy Assistant Attorney General Larry Callaghan on 1/12/77, prepared a draft letter for the Attorney General's signature to Congressman Gonzalez. This letter advised of the Attorney General's concern in continuing to allow staff members of captioned Committee access to FBI material regarding the assassinations of President John F. Kennedy and Dr. Martin Luther King, Jr., inasmuch as this Committee has not been recreated by the 95th Congress. In his letter the Attorney General advised that the Bureau would continue processing material for the use of the Committee and access would be granted as soon as the 95th Congress reestablishes the Committee. The Attorney General pointed out to Congressman Gonzalez that much of the material in the files of the FBI pertaining to these investigations is covered by the Privacy Act, 5 U.S.C., Section 552(a).

Legal Counsel to The Associate Director Memo
RE: HOUSE SELECT COMMITTEE ON ASSASSINATIONS

Alan Parker, Chief Counsel, Subcommittee on Civil and Constitutional Rights of the House Judiciary Committee, advised SA Danny O. Coulson on 1/12/77, that the House of Representatives is currently considering several options regarding the reestablishment of this Committee. He advised that one option being considered is to recreate the Committee along certain guidelines that will outline certain specific purposes and techniques that the Committee must follow. A second option being considered is to have a standing committee of Congress review the matter to determine if a full investigation of these assassinations is actually warranted. A third option being considered is the passage of a bill in the House and Senate to establish a blue ribbon panel in the Executive Branch to look into the need for further examinations of these assassinations.

RECOMMENDATIONS:

(1) That the General Investigative Division continue processing of pertinent documents for this Committee until such time as the Committee is reestablished by the 95th Congress.

While Jack Kennedy was still living, a man from Texas, who was an air conditioning salesman, told me they planned to kill ~~the~~ President Kennedy. I took it for a facetious remark at the time. I saw him at Schwyler.

After the Warren Commission came out with their report, I wrote to Bobbie Kennedy of it. He wrote me a long letter, in which he said, we give up. As of now, I see there is a movement to look into it again.

Dear Dr. Rhoads:

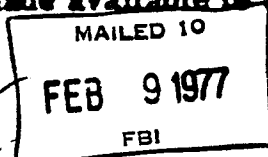

REC-39

EX-113

62-117270-150

This is in reply to the letter of Mr. James E. O'Neill, Acting Archivist of the United States, to me on January 25, 1977. In his letter Mr. O'Neill advised that he would be happy to clarify any possible misunderstanding on the part of the staff of the House Select Committee on Assassinations regarding the purpose of the Bureau's request to examine test bullets from the rifle of Lee Harvey Oswald. In a telephone conversation between Mr. O'Neill and my representative on January 27, 1977, Mr. O'Neill requested that Congressman Henry B. Gonzalez have a representative present during any meeting with FBI personnel to discuss our access to the test bullets. I do not feel that it is necessary for a representative of the FBI to participate in resolving the issues raised by Mr. O'Neill and these staff members. I would like to remind you that the FBI continues to have the responsibility for the investigation into the assassination of President John F. Kennedy. Further delay in furnishing us with test samples that were originally developed in our laboratory only serves to postpone the resolution of this question. When you have resolved the issues between Mr. O'Neill and Congressman Gonzalez, please advise me so that necessary arrangements may be made for our use of these test bullets for comparison purposes. I have previously advised you that the FBI has cooperated fully with Mr. Richard A. Sprague, Staff Director of the Committee, and we have furnished the Committee with the results of our investigation into the assassination of President Kennedy. I would like to reassure you that the results of examinations of evidence conducted in this matter will continue to be made available to the Committee.

Dr. James B. Rhoads

I look forward to an early resolution of this matter in order for the FBI to discharge its responsibilities in our investigation into the assassination of President John F. Kennedy.

Sincerely yours,

Clarence M. Kelley
Director

1 - Assistant Attorney General - Enclosure
Office of Legislative Affairs

Note: Pursuant to a letter from James E. O'Neill, Acting Archivist of the United States, to the Director dated January 25, 1977, SA Danny O. Coulson, Office of Congressional Affairs, Legal Counsel Division, telephonically contacted Mr. O'Neill to arrange for a meeting between O'Neill and Deputy Assistant Director Thomas F. Kelleher, Jr., of the Scientific and Technical Services Division, regarding the Bureau's request for access to the test bullets fired from the rifle of Lee Harvey Oswald. O'Neill advised that it would be necessary to notify Congressman Henry B. Gonzalez to designate a representative to attend this meeting and requested a letter from the Director advising of our desire to discuss this matter with him. It is the opinion of the Legal Counsel Division that the Bureau should not be a party to negotiations between O'Neill and representatives of Mr. Gonzalez dealing with issues that were raised by those parties. It is felt that the issues raised previously by O'Neill and staff members of the House Select Committee on Assassinations should be resolved by those individuals and that the Bureau should continue its request for access to the questioned test bullets.

TO : The Associate Director

DATE: 2/4/77

FROM : Legal Counsel

SUBJECT: HOUSE SELECT COMMITTEE ON ASSASSINATIONS

PURPOSE:

To advise that Associate Attorney General Michael Egan advised captioned Committee should be granted access to material in accordance with prior procedures.

DETAILS:

Captioned Committee was reconstituted on 2/2/77, having gone out of existence on 1/4/77. Based on former Attorney General Levi's decision, captioned Committee was denied access to FBI materials because of possible Privacy Act violations. In view of the reconstituting of the Committee, Raymond S. Calamaro, Office of Legislative Affairs, was contacted on 2/3/77 to determine whether the staff of captioned Committee should again be granted access to FBI material. Calamaro, after conferring with Associate Attorney General Egan, telephonically contacted SA Paul V. Daly of this Division on 2/4/77, and advised that the Committee should be granted access to FBI material in accordance with prior procedures.

General Investigative Division has been advised of this decision.

RECOMMENDATION:

HOUSE SELECT COMMITTEE ON ASSASSINATIONS (HSCA)

This is to confirm the conversation on February 10, 1977, between Special Agent Paul V. Daly of this Bureau and Raymond S. Calamaro of your Office.

Mr. Calamaro stated that in accordance with the wishes of Chairman Henry Gonzalez of the HSCA the FBI should not honor requests from the HSCA unless specifically authorized by Chairman Gonzalez.

Additionally, on February 11, 1977, Ralph Locke, staff member of the HSCA, and three other staff members appeared at FBI space to review material which the HSCA had previously been granted access pursuant to the approval of the Attorney General. In accordance with the instructions of Mr. Calamaro on February 11, 1977, the staff members were advised of the aforementioned decision by Chairman Gonzalez and it was explained that should Chairman Gonzalez authorize their access to FBI information that the FBI would comply. Mr. Locke stated he understood the FBI's position in this matter and stated that he was unaware of Chairman Gonzalez's decision.

NOTE: The above decision by Chairman Gonzalez was reached during a meeting between the Attorney General and the Chairman.

Legal Counsel to the Associate Director
RE: HOUSE SELECT COMMITTEE ON ASSASSINATIONS

At the request of Associate Director Held, SA Paul V. Daly of this Division telephonically recontacted Tannenbaum and advised him that the matter he was interested in was a pending investigative matter.

By way of background memorandum from J. S. Peelman to Mr. Gallagher dated 2/4/77, captioned "Assassination of President John F. Kennedy, 11/22/63," sets forth a summary of our investigation into an allegation that Oswald had written a letter to Hunt in November of 1963 [REDACTED] (b)(7)(D)

[REDACTED] Our investigation to date has failed to corroborate the specifics of the allegation [REDACTED]
[REDACTED]

Tannenbaum stated that because of the Committee's mandate as contained in the resolution constituting that Committee he felt that the Committee was entitled to the information despite the fact that it was a pending matter. He implied that it should be a joint inquiry between the Committee and the FBI to resolve the questions posed by the allegation. It was pointed out to Tannenbaum that Attorney General Order 116-56 precluded the furnishing of pending investigative material to the Congress and that any exception to that Order would have to be with the approval of the Department of Justice. He was advised by SA Daly that his request would be brought to the attention of the Department and that he would be advised of their decision in this regard.

Concerning the aforementioned Attorney General Order, the Department at the direction of former Attorney General Levi furnished the information surrounding the allegation in question to the Senate Select Committee on Intelligence (SCI). Upon receipt of that information, Senator Gary Hart, after a series of meetings with Departmental and FBI representatives, was furnished briefings and access to data as developed by the FBI's investigation concerning this matter. This was done with the understanding that the SCI would not conduct an active investigation concerning this matter pending the completion of our investigation. It can be observed that the furnishing of

CONTINUED - OVER

Legal Counsel to the Associate Director
RE: HOUSE SELECT COMMITTEE ON ASSASSINATIONS

pending investigative material to a Committee of Congress is undesirable as was exhibited by this instance since it placed the receiving Committee in a position to conduct the same investigation as we would and indeed in this instance, the SCI started to do so. It was only after the Department agreed to keep that Committee continually advised of the results that they agreed to not conduct the inquiry at this time.

Raymond S. Calamaro of the Office of Legislative Affairs was advised of Tannenbaum's request. He had previously been furnished the complete background surrounding this matter including the furnishing of information to the SCI concerning a pending investigative matter. Calamaro stated he would have to take this matter up with Attorney General Bell before a decision could be reached and advised he would attempt to recontact SA Daly by close of business on 2/7/77. Calamaro did not do so and Tannenbaum was telephonically advised on 2/7/77 that the Department had not made a decision concerning his request.

On 2/8/77, Calamaro advised SA Daly that the Attorney General had decided not to at this point agree to a briefing with captioned Committee but rather to take the matter up with Chairman Henry B. Gonzalez at their scheduled meeting on 2/10/77. Calamaro advised that the Attorney General was very concerned as to the precedent set concerning the furnishing of pending investigative material to Committees of Congress and would discuss the Attorney General Order 116-56 and this topic in his meeting with Chairman Gonzalez. Calamaro asked SA Daly if he would advise Tannenbaum of this decision and SA Daly did so on 2/8/77.

THE DUPLICATION OF SERIAL 122 APPEARS TO BE A CLERICAL SERIALIZATION ERROR.

DEFILE 62-3550, ASSASSINATION OF PRESIDENT JOHN F. KENNEDY, CONSISTING OF THREE VOLUMENS HAVING 420 SERIALS. HOWEVER, A REVIEW OF THIS FILE DISCLOSED THAT THERE ARE ONLY 320 SERIALS IN ACTUALITY. THERE APPEARS TO BE A SERIALIZING ERROR IN THAT, SERIAL 242 IS FOLLOWED BY SERIALS 343 THROUGH 420. AN INSPECTION, HOWEVER, OF SERIAL 242 AND 343 REVEALED THAT THE DETROIT BLOCK STAMP ON SERIAL 242 WAS DATED OCTOBER 15, 1964, WHILE SERIAL 343 HAD A DETROIT BLOCK STAMP DATE OF OCTOBER 17, 1964. IT IS THE ASSUMPTION OF DETROIT, THAT WHEN SERIAL 343 WAS SERIALIZED, THAT THE CLERK GAVE THIS SERIAL THE NUMBER OF 343, INSTEAD OF 243, AND THAT SUBSEQUENT SERIALS AFTERWARDS WERE THEN SERIALIZED CONSECUTIVELY. THIS REVIEW FURTHER DISCLOSED THAT SERIAL 345 WAS MISSING FROM THE FILE, AND COULD NOT BE ACCOUNTED FOR.

DEFILE 100-31965, LEE HARVEY OSWALD, CONSISTING OF TWO VOLUMES HAVING 225 SERIALS. A REVIEW OF THIS FILE DISCLOSED SERIAL

64 6, 8, 9, 11, 12, 13, 15, 16, 17, 18, 20, 38, 39, 40, 41, 42, 43, 44, 45, 47, 49, 50, 52, 53, 54, 60, 61, 62, 63, 64, 66, 67, 70, 71, 72, 73, 74, 75, 77, 81, 82, 83, 84, 85, 90, 91, 93, 94, 95, 96, 97, 99, 102, 103, 104, 105, 106, 107, 108, 109, 112, 114, 115,

155, WERE MISSING AND COULD NOT BE ACCOUNTED FOR. THIS REVIEW FURTHER DISCLOSED TWO SERIALS NUMBER 214, APPEAR IN THIS FILE, ONE BEING A DETROIT AIRTEL TO THE DIRECTOR BUFILE (105-82555), DATED DECEMBER 28, 1969, THE OTHER BEING A XEROXED COPY HAVING A DETROIT BLOCK STAMP, DATED NOVEMBER 25, 1964, OF AN ENVELOPE SENT TO LEE HARVEY OSWALD, COUNTY COURTHOUSE JAIL, DALLAS, TEXAS, FROM AN INDIVIDUAL LISTED AS A RESIDENT OF DETROIT.

DEFILE 105-11181, MARINA NIKOLAEVNA OSWALD, CONSISTING OF ONE VOLUME HAVING 23 SERIALS. A REVIEW OF THIS FILE DID NOT DISCLOSE ANY MISSING OR DESTROYED SERIALS.

HOUSE SELECT COMMITTEE ON ASSASSINATIONS (HSCA)

This is to advise in accordance with instructions received by Special Agent Paul V. Daly of this Bureau from Raymond S. Calamaro of your Office on February 11, 1977, that arrangements are being made for briefing Chairman Henry B. Gonzalez of the HSCA concerning the FBI's investigation relating to an alleged note written by Lee Harvey Oswald to Nelson Bunker Hunt.

A definite date for the briefing has not as yet been set; however, it is anticipated it will be on February 16 or 17, 1977.

NOTE: Calamaro telephonically advised SA Daly on 2/11/77 that Attorney General Bell in a meeting with Chairman Gonzalez on 2/10/77 stated that he would have the FBI brief Chairman Gonzalez concerning the aforementioned topic. This letter is to confirm the instructions of the Department. It is necessary to designate an individual to conduct the briefing. The Office of Congressional Affairs should be advised of the identity of the person who will conduct the briefing.

HOUSE SELECT COMMITTEE
ON ASSASSINATIONS,
ASSASSINATION OF PRESIDENT
JOHN F. KENNEDY,
NOVEMBER 22, 1963
DALLAS, TEXAS

On March 1, 1977, [REDACTED] was interviewed (b)(7)(c)
at Crestview, Florida, and furnished the following information:

Property Of FBI

This document contains neither
recommendations nor conclusions
of the FBI. It is the property of
the FBI and is loaned to your
agency; it and its contents are not
to be distributed outside your
agency.

ENCLOSURE 62-117290-150

After attempting to obtain a clarification from [REDACTED] as to his intentions in this matter, it was pointed out to him that there appeared to be a contradiction in the statements he had just made relating to his intentions to furnish information regarding the KENNEDY assassination as opposed to his stated condition that such information would only be furnished by him after the Federal Government had intervened on his behalf with State authorities for dismissal of State charges against him.

At this point in the interview, [REDACTED] advised that what he meant to state previously was that he would be willing to withhold the information he had concerning the KENNEDY assassination because of this embarrassment to the FBI if the FBI would arrange for the dismissal of his State conviction. He said that otherwise, he would provide the information he has concerning the KENNEDY assassination and other matters to the media and to the House Select Committee on Assassinations. (b)(7)(D)

At this point in the interview, [REDACTED], with his two attorneys still present, was specifically and unequivocally advised that the FBI wanted him to furnish any and all information he might have relating to the KENNEDY assassination or other matters to the House Select Committee on Assassinations, as he had stated he desired to do, and that the FBI would have no part in his withholding such information.

[REDACTED] was specifically asked if at this point he would now be willing to testify without conditions before the House Select Committee concerning information relating to the KENNEDY assassination and other matters mentioned during the course of this interview.

[REDACTED] advised that he would be willing to testify to this committee concerning these matters.

[REDACTED] was then specifically asked if he had any information of a specific nature that he desired to provide the FBI at this time relating to the KENNEDY assassination.

[REDACTED] advised that he did not wish to furnish any specific information concerning the assassination to the FBI at this time.

Following this remark, [REDACTED] stated that he had knowledge of a Cuban by the nickname of "BAMBI" who was currently in jail in Venezuela charged with being involved in the crash of a Cuban airliner. He said that this individual had at one time been located in the New York City area and had also participated in the 2506 Brigade which participated in the Bay of Pigs invasion. He said that he would be willing to provide additional information concerning this individual to the Congressional Committee.

[REDACTED] advised that he had no information concerning "anti-terrorist activities" in the Miami, Florida, area. (b)(7)(D)

At the conclusion of the interview with [REDACTED] he was informed that the FBI would notify appropriate authorities that he, [REDACTED] desired to testify before the House Select Committee concerning information he had relating to the KENNEDY assassination as well as other matters.

The interview with [REDACTED] began at approximately 1:50 PM and terminated at approximately 3:40 PM. Attorneys [REDACTED] and [REDACTED] were present during the entire interview. (b)(7)(C)

NOTE: [REDACTED] (b)(7)(C)

[REDACTED] requested, through his attorney, interview to furnish information concerning assassination of President John F. Kennedy. On 3/1/77, [REDACTED] was interviewed by Bureau Agents. [REDACTED] did not provide any specific information concerning assassination of President John F. Kennedy but repeatedly stated during interview he had information which would "embarrass" the FBI. He advised he would testify before the House Select Committee On Assassinations (HSCA) and would only furnish information to the FBI and HSCA under condition that his State conviction on bombing charges be dismissed. He related that if his conditions were not met, he would release his information to news media on a limited basis. [REDACTED] was advised FBI could not be a part in meeting his conditions. [REDACTED] declined to furnish any specific information except to repeat his demands that State conviction be dropped before he would provide information in his possession and to threaten release of information to news media if his conditions were not met. Copy of LHM furnished Florida State Attorney for his information. HSCA will be advised of [REDACTED] desire to testify before HSCA through Congressional Liaison with concurrence of Department.

Miami files do contain information that WILLIAM SOMERSETT telephonically contacted Miami Division on 11/10/63, and advised that a conversation between JOSEPH A. MILTEER and himself had been tape recorded by the Miami Police Department.

This information was furnished to the Bureau by Miami teletype dated 11/10/63, under the caption, "THREAT TO KILL PRESIDENT KENNEDY BY J. A. MILTEER", at Miami, Florida, on 11/9/63.

Miami records reflect that on November 11, 1963, Sergeant CHARLES SAPP, Miami Police Department, advised the Miami Division of the FBI that a conversation between WILLIAM SOMERSETT and JOSEPH A. MILTEER, had been tape recorded by his department.

Miami records show that on November 12, 1963, the Miami Police Department furnished a transcribed copy of the taped conversation between SOMERSETT and MILTEER to SA LEONARD C. PETERSON of the Miami Division.

Copy of this transcript was furnished to the Bureau by an airtel dated 11/13/63, under the "J. A. MILTEER, RACIAL MATTERS, OO: ATLANTA" caption.

Miami records show that WILLIAM SOMERSETT was a discontinued informant who had been turned over to the Miami Police Department and was not being contacted by the Miami Division of the FBI per Bureau instructions dated 11/13/61.

However, any information SOMERSETT volunteered to the Miami FBI was accepted and appropriately disseminated.

JFK, King: The Dade County links

Is it mere coincidence that a Miami police informer was able to predict with astonishing accuracy the assassinations of both John F. Kennedy and Martin Luther King? Apparently, the FBI thought so

Nov. 9, 1963 — Miami Police tape-record a conversation in which an extreme right-wing political organizer accurately predicts the assassination of President John F. Kennedy just as it was to happen 13 days later. The man said the President would be killed by shots fired "from an office building with a high-powered rifle."

Jan. 13, 1964 — The same man, using an alias, withdraws \$12,000 from a savings account at a now defunct bank in Provo, Utah. The man, who lived in Georgia, had opened the account the previous July.

Nov. 1, 1963 — A Cuban exile walks into the Parrot Jungle gift shop and tells a female employe he hates the President and he could "shoot Kennedy between the eyes." He has a "friend named Lee," he says, "who is also a sharp-shooter," and that Lee spoke Russian and German and was living in either Texas or Mexico. (Lee Harvey Oswald spoke Russian, lived in Texas, and earlier

Willie A. Somerset, informer

in the fall had been traveling in Mexico.)

These intriguing incidents suggest the surreal atmosphere permeating Miami in 1963. Not only were many newly arrived Cuban refugees making raids on their homeland in attempts to overthrow the regime of Fidel Castro, but America's home-

grown right-wing fanatics were conducting a last-gasp effort to head off the drive for equal rights by blacks. For both, the prospects seemed bleak, and for both, hatred focused on John Fitzgerald Kennedy.

To Cubans, Kennedy was the ultimate betrayer. He had backed out of supportive air strikes when a Cuban exile brigade landed at the Bay of Pigs, and he had knuckled under to Nikita Khrushchev in 1962 when he pledged not to invade Cuba in return for removal of Soviet missiles from the island. Kennedy had committed himself and, as long as he lived, a return to Cuba would be impossible.

On the right-wing fringe, Kennedy was hated for other reasons, mainly his stand on integration. He was feared also as a leader who was setting the United States up for some nebulous takeover conspiracy by the United Nations and the despised Jews, extremist documents show.

Miami Magazine's inquiry into the assassination began with the Miami Police tape-recording. Scat-

Story behind the story

Miami Magazine writer Dan Christensen was watching the CBS television report analyzing the assassinations last April when he heard Dan Rather's fleeting mention of a Miami police tape-recording forecasting the death of John F. Kennedy. Since that moment, Christensen has spent hundreds of hours exploring leads that document the desire of extremists in Miami to kill Kennedy. With the assistance of Circuit Judge Seymour Gelber, he gained access to a wealth of primary materials (including a copy of the tape-recording) and, almost by accident, uncovered a rather astonishing link between threats against Kennedy and the death of Dr. Martin Luther King Jr. almost five years later. In the first segment of his fascinating two-part story, Christensen looks at the "Miami connection" in the Kennedy case. Next month, he will reveal previously unpublished material in which the police informant who taped the threat on Kennedy predicted the death of King only hours before it actually occurred in Memphis, Tenn.

tered references have been made to the recording since it was uncovered in 1967, most notably by assassination researcher Harold Weisberg who published the transcript in his 1970 book "Frame-Up." Investigation of this incident led to discovery of the Parrot Jungle threat.

Circuit Judge Seymour Gelber, then an assistant to State Attorney Richard Gerstein, provided nearly all the initial information about the tape-recording. Not only did he save records and memoranda from the investigation, he kept a diary. The diary was invaluable in our research. Gerstein too has been totally cooperative.

Their investigation, which culminated in the tape-recording of Nov. 9, 1963, began in February 1962 after a series of local bombings, including an attack upon the home of Miami Herald editor Don Shoemaker. A few days after that bombing, Willie Somerset, a union organizer with extensive right-wing political ties (he was a Klansman), showed up at the Herald building to offer his services as an informer. Quickly, he began working for the Miami police and the Federal Bureau of Investigation. The police were never advised of his ties to the FBI. (Actually, he had worked for the FBI, off and on, for about a decade, it is now known). Over the next several months, Somerset imparted enough information to state investigators to enable them to arrest and convict several of the bombers.

After the bombing investigation, Somerset remained on the payrolls of both the city and the FBI, revealing

extremist activities. In April 1963 he traveled to New Orleans for a meeting of the Congress of Freedom party. The COF, a confederation of right-wing political groups, still exists, acting, its leader Mary Cain of Summit, Miss., says, "to get patriot organizations together to discuss the issues." It was in New Orleans that Somerset hooked up with an old friend, Joseph A. Milteer, now deceased, the man who later made the tape-recorded threats against JFK.

Willie Augustus Somerset, at age 61 in 1963, was a mountainous figure who was beginning to feel the agony of afflictions that eventually would kill him. Dubbed agent '88' by Miami police, it was said he reminded one of an Oldsmobile 88. Gerstein described him as "a real Sidney Greenstreet type."

Somerset had lived in Miami for about four years by 1963, sharing a room in a semi-flophouse with his wife Peggy. He managed his union affairs out of the old Dolphin Hotel, headquarters for his pretentiously titled National Federation of Labor. He died May 7, 1970, in Goldsboro, N.C., just a few miles from where he had been born.

In an interesting sidelight to Somerset's death, his closest friend in Miami, George Brackett, received a mysterious call at 3 am from a man who claimed to be at Washington's Walter Reed Hospital. The man, who wouldn't identify himself, told Brackett of Willie's death and said he was calling because Brackett's name was on an emergency card in Somerset's wallet.

atives say Somerset died in North Carolina.

Through the years Somerset had been associated with right-wing politics, but he disliked groups pressing for violence. Why he became an informer is uncertain. Money? Honor? Patriotism? It could just have been his job.

Joseph A. Milteer, a wealthy rabble-rousing racist from Quitman, Ga., devoted his life to right-wing causes, belonging to at least four ultra-conservative organizations: the National State's Rights Party, The White Citizen's Council, The Dixie Klan, and the Constitution Party. He rarely stayed at home, choosing instead to traverse the country attending meetings and calling on other true believers. At least once in 1963, he visited Dallas.

When Milteer was at home, he churned out reams of what he and fellow Georgians called "yellow sheets" in which he blasted Kennedy, Jews, Communists, the UN, local politicians and the federal government. He also sold tape-recorded speeches of notorious patriotic zealots.

When he wasn't busy with politics, Milteer tried his hand as a mail-order salesman for various novelty items. And he bootlegged wine from a still in a shed in his backyard.

Milteer died Feb. 28, 1974, two days after his 72nd birthday — reportedly from burns inflicted when a gas heater in his home exploded. Several days later, a small cache of arms and ammunition was uncovered in his car.

Because of mysterious circumstances shrouding his death, I went to Quitman to explore Milteer's life in detail. Since he had no known relatives, his estate has remained in probate, his dilapidated Victorian home unexplored for two and half years.

Milteer lived like a packrat. Besides saving junk mail and trivial belongings of his dead parents, he kept carbon copies of letters he sent during his prolific career. Some were cryptic. Most were mild. All belied the deadliness with which he had spoken in Miami.

Since Milteer's death, the house has been ransacked several times. What was taken is unknown. A neighbor told probate Judge James R. Knight that she saw men in a truck with Texas license plates carting boxes of Milteer's belongings away.

The most fascinating evidence found at Milteer's home was in a

Using an alias, Joseph A. Milteer deposited \$12,000 in a now-defunct Provo, Utah bank in mid-1963. In January, 1964, the Georgia racist withdrew it all at one time

22 bankbook tucked away amid piles of letters in his closet. The savings account, No. 115376 from the now-defunct Utah Savings and Loan Association of Provo, Utah, was made out to one Samuel Steven Story and Mrs. C. C. Cofield. The address given was 212 South Troupe St, Valdosta, Ga., Mrs. Cofield's home. (Cofield had been Milteer's common-law wife for many years and lived with him until her death in 1971). When the account was opened on July 31, 1963, an initial deposit of \$5,000 was made. There followed but two others, one of \$5,000 and another of \$2,000 on Aug. 20 and Sept. 24, respectively. On Jan. 31, 1964, (52 days after the assassination,) all \$12,000 was withdrawn abruptly and the account was closed.

There is no doubt that Story was an alias for Milteer. A letter to the bank was found, typed on Milteer's "yellow sheets" with Story's signature which matched Milteer's; along with it was another letter to the same bank, dated the same day, with Milteer's signature. Apparently he had an account under his own name as well. There is no evidence to indicate Milteer ever used an alias except during that brief, crucial period.

It is significant that with exception of a series of invitations to notables (George Wallace and Klan leader Robert Shelton) to attend a Constitution Party meeting in mid-October, 1963, no letters found dealing with 1963 were found, despite detailed correspondence for the years before and after.

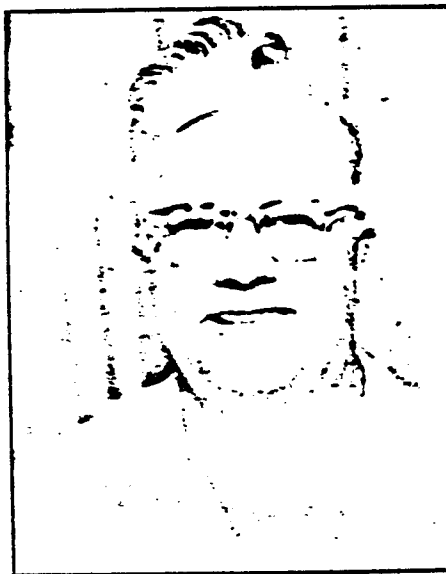

Unearthed amid the rubble of his decaying house was part of a diary, ostensibly by him, that briefly recounts events from July 8, 1963 through October 1, 1963. It mentions the trip to Dallas and a meeting with arch-conservative commentator Dan Smoot.

Unanswered questions about Milteer's death abound. Apparently, he was fatally burned Feb. 9, 1974 when a Coleman stove he was using for heat in his antiquated bathroom exploded. He died two weeks later.

According to the death certificate,

Milteer died of "severe third degree burns on both lower extremities." Marion Maxwell the local mortician, says, however, the burns he saw on Milteer's body weren't severe enough to have caused death. In fact, he said they were already partially healed. No autopsy was ever performed.

Milteer himself mentions receiving burns similar to those that allegedly caused his death in an unfinished letter dated Jan. 27, 1964: "I had an accident wherein I knocked over a sauce pan of hot

Joseph A. Milteer, extremist

water on the floor into which I fell and the hot water burned the small of my back."

Milteer had attended the April 1963 meeting in New Orleans as a representative of the Dixie Klan, a notoriously violent faction of the KKK based in Chattanooga, Tenn. and advocated a coordinated assassination program that would eliminate a long list of prominent government officials and businessmen. He felt that the "patriot" organizations should act swiftly because Kennedy was on the verge of turning the U.S. government over to the United Nations.

Somersett, in recounting the meeting, said that the visible

leaders didn't discuss violence but he said, "Not only Milteer, but others said they would start as soon as it was deemed necessary to prevent the UN from taking over the U.S. . . . They felt that the President of the U.S. or the Congress was handing over the United States to the UN, that these people were the conspirators, and (that) they should be killed immediately. I am satisfied Milteer is one of the high command in the policy group."

Earlier Somersett had said of Milteer: "He is one of the most violent-minded men in the country."

Several times during his debriefing, Somersett referred to "the national hidden hand of this organization." He theorized that it included Milteer, several admirals and ex-generals and assorted rightwing big shots.

As he gave the testimony about New Orleans, Somersett was earning respect and credibility with Miami authorities. The FBI, in its documents about the incidents, called Somersett "a source who has furnished reliable information in the past." Gelber characterized his informant in even more respectful terms: "Somersett frequently uses the expression 'the most violent man I know' in describing a particular person (Milteer) . . . I am beginning to suspect he is intuitively separating the talkers from the doers. Whereas we can only guess, Somersett obviously senses who among them spells danger."

Somersett smelled danger at the COF meeting. Toward the end of the questioning about his New Orleans trip, he said, "If the Congress of the U.S. doesn't cut the UN out, if it continues that way for twelve months, there has got to be some violence. You could tell if you had been there and stood around and seen the people, the expression on their faces, heard the way they talked. Those people are people of means, financially, and educationally. They are not there just for an ice cream party. This can't continue on, with the people financing these things, something must happen. I will bet my

head on a chopping block there will be some people killed by this time next year and it will be in high places."

Somersett encountered Milteer again in early October at a meeting in Vero Beach. At that meeting, Milteer again proposed violence and announced that "the National States Rights Party is going to move in Miami fast."

At Vero Beach, Milteer promoted an impending convention of the Constitution Party the following week in Indianapolis. As a member of that group's board of directors, Milteer helped formulate "plans to put an end to the Kennedy, King (Martin Luther), Khrushchev dictatorship over our nation."

Gelber's diary reveals that "before they parted, Milteer confided to Somersett he was certain that, Dixie Klan Imperial Wizard Jack Brown ... either placed the bomb, or engineered the act, which caused the death of four children in the Birmingham church bombing." (The case remains unsolved today.)

In Indianapolis, Milteer persisted in calling for violent action. Jack Brown, the man Milteer had blamed for the Birmingham bombing, was there. According to Somersett and another informant, Stanley Pospisil, Brown implicated himself in the Birmingham bombing, and was "virtually bragging about his role there." Brown, according to Harold Weisberg, was a gas station operator extremely active in the Klan. "He was reported to be a 'contact man' for the United White Party; to have been an NSRP presidential elector; to have died of a heart attack in 1965."

After the Indianapolis meeting, Gelber suggested Milteer be tape-recorded during his upcoming visit to Miami.

Milteer arrived in town the weekend of Nov. 9 and scheduled breakfast with Somersett at his apartment. Detective Everett Kay, Somersett's police contact, set up a tape-recorder in a broom closet off the kitchen early, then left. Somersett was to plug the recorder in when Milteer knocked on the door.

The well laid plans of the Miami PD almost went awry when Milteer showed up unexpectedly and caught Somersett outside the apartment. Willie kept his cool, however, and plugged the tape-recorder in as he looked at the nearby refrigerator, saying, "This damn box gets all frosted up if I let it run overnight. I

and Milteer began their notorious talk.

As Somersett led his duped friend through a series of loaded questions, startling revelations emerged. Not only did Milteer implicate Brown in the church bombing again, he also told how Brown had tried to kill Martin Luther King. "He followed him for miles and miles, and couldn't get close enough to hit him."

Then he dropped his tape-recorded bombshell.

Somersett: ... I think Kennedy is coming here on the 18th ... to make some kind of speech ... I imagine it will be on TV.

Milteer: You can bet your bottom dollar he is going to have a lot to say about the Cubans. There are so many of them here.

Somersett: Yeah, well, he will have a thousand bodyguards. Don't worry about that.

Milteer: The more bodyguards he has, the easier it is to get him.

Somersett: What?

Milteer: The more bodyguards he has the more easier it is to get him.

Somersett: Well, how in the hell do you figure would be the best way to get him?

Milteer: From an office building

around who look just like him?
you know about that?

Somerset: No, I never heard he had anybody.

Milteer: He has about fifteen. Whenever he goes anyplace, he knows he is a marked man.

Somerset: You think he knows he is a marked man?

Milteer: Sure he does.

Somerset: They are really going to try to kill him?

Milteer: Oh, yeah, it is in the working. Brown himself, Brown is just as likely to get him as anybody in the world. He hasn't said so, but he tried to get Martin Luther King.

After a few more minutes of conversation, Somerset again spoke of assassination.

24 Somerset: ... Hitting this Kennedy is going to be a hard proposition, I tell you. I believe you may have figured out a way to get him, the office building and all that. I don't know how the Secret Service agents cover all them office buildings everywhere he is going. Do you know whether they do that or not?

Milteer: Well, if they have any suspicion they do that, of course. But without suspicion, chances are that they wouldn't. You take there in Washington. This is the wrong time of the year, but in pleasant weather, he comes out on the veranda and somebody could be in a hotel room across the way and pick him off just like that.

Somerset: Is that right?

Milteer: Sure, disassemble a gun. You don't have to take a gun up there, you can take it up in pieces. All those guns come knock down. You can take them apart.

Before the end of the tape, the conversation returns to Kennedy.

Milteer: Well, we are going to have to get nasty...

Somerset: Yeah, get nasty.

Milteer: We have got to be ready, we have got to be sitting on go, too.

Somerset: Yeah, that is right.

Milteer: There ain't any count-down to it, we have just got to be sitting on go. Countdown, they can move in on you, and on go they can't. Countdown is all right for a slow prepared operation. But in an emergency operation, you have got to be sitting on go.

Somerset: Boy, if that Kennedy gets shot, we have got to know where we are at. Because you know that will be a real shake...

Milteer: They wouldn't leave any stone unturned there. No way. They will pick up somebody within hours afterwards, if anything like that

would happen, just to throw the public off.

Somerset: Oh, somebody is going to have to go to jail, if he gets killed.

Milteer: Just like Bruno Hauptmann in the Lindbergh case, you know.

The entire tape-recording lasts roughly a half-hour and much of it is either garbled or irrelevant. Each voice is distinctly unique. Somerset spoke his words quickly, infusing each syllable with a thick Southern accent. Milteer's high pitched, effeminate voice dilutes the deadliness of his words.

Kennedy came to Miami Nov. 18, 1963 for the Inter-American Press Association convention at the Americana. The Secret Service, alerted about the tape by Miami authorities (and certainly by the FBI who received the information directly from Somerset), abandoned a planned motorcade. Instead, the President helicoptered to Miami Beach.

In his diary, Gelber says a police detective assigned to the case assured him the Secret Service knew where Brown and Milteer were. Bob Newbrand, a local Secret Service spokesman, says that he doesn't understand Gelber's statement: "I know for sure we didn't put him (Milteer) under surveillance. We were never that much involved with that. If anybody made a threat we wouldn't put him under surveillance, we'd lock him up!" (What really happened?) The contradictions of Newbrand's statement and Gelber's diary are staggering. If Milteer and Brown weren't under observation, why weren't they? Was this simply considered a frivolous threat? Miami PD took it seriously.

Milteer and Somerset were to meet once more. On Nov. 23, the day after the assassination, Somerset traveled to Jacksonville where he rendezvoused with Milteer before making a quick trip to Columbia, S.C. for a session with KKK members. When he returned to Miami, he reported to the police what he had learned: "During the journey to S.C. he (Milteer) told me that he was connected with an international underground. He said there would be a propaganda campaign put on how to prove to the Christian people of the world that the Jews, the Zionist Jews, had murdered Kennedy.

"He was very happy over it and shook hands with me. He said: 'Well, I told you so. It happened like I told you, didn't it? It happened

from a window with a high-powered rifle.' I said, 'That's right. I don't know whether you were guessing or not, but you hit it on the head pretty good.' He said, 'Well, that is the way it was supposed to be done, and that is the way it was done.'

"From the impression he gave me, and what he told me, the Oswald group was pro-Castro. This group was infiltrated by the patriot underground who arranged from there to have the execution carried out and drop the responsibility right into the laps of the Communists. I don't think there was any agreement with this little flim-flam organization that Oswald belonged to... I don't believe Milteer did it, but it might be a possibility that he knows who engineered it. The impression I get from him, I think the thing was set up to kill Mr. Kennedy in the South, in some southern state... Milteer is too much enthused about it, before hand and after, not to know something about it."

Later, Miami authorities tried to get Milteer and Brown to come to Miami where they again could make tape-recordings. On Dec. 4, Somerset got a shock when he called Milteer and discovered the FBI had questioned Milteer and Brown as part of a mass roundup of extremists. From Gelber's diary: "Somerset is extremely concerned about this turn of events. Milteer did not accuse him of being an FBI informer, but inasmuch as the questioning appeared to be based on the statements made to Somerset, suspicion would inevitably rest on him... There is no chance of getting Milteer and Brown to Miami now and there is a possibility they will show considerable caution in future conversations in Somerset's presence... I wonder why the FBI picked these people up after the President's assassination rather than before the act? All this manages to do is jeopardize the safety of our undercover agent. Based on the Milteer tape, I had anticipated such government action prior to the President's visit to Miami... I did not expect it as an afterthought... There is nothing of substantial value to be gained by this dramatic move except to scare hell out of Milteer, Brown and a few others... It ruins our investigation and further weakens the effectiveness of the undercover agent, not only for us, but also for the FBI."

Declassified FBI documents, obtained by Harold Weisberg under

In 1967, a "super-secret investigation" of a threat against Kennedy turned up interesting information which an FBI probe apparently had failed to note

the Freedom of Information Act, prove the Bureau was doing just what Gelber's diary suggests. Without naming him, they identify Somerset as the informant.

Perhaps the most fascinating document the FBI released deals with its interview of Joseph Milteer by agents from the Atlanta office. Milteer, in that report, "emphatically denies ever making threats to assassinate President Kennedy or participating in any such assassination." He said he didn't know Lee Oswald or Jack Ruby.

A 1968 Miami police memo on Somerset relates how he traveled to New Orleans and spoke with some of then-District Attorney Jim Garrison's agents. Garrison was conducting his JFK assassination probe and requested Somerset's help. Somerset told his story and mentioned a letter he had received from Milteer, dated Nov. 18, 1963 and postmarked Valdosta, Ga. Garrison's men wanted the letter, but the memo never indicated whether Somerset gave it to them. He never revealed its contents, but Detective Kay confirms the existence of the letter. Neither he nor anyone else knows where it is today.

Other unusual disappearances of information have hampered our investigation. The state attorney's office, which keeps all its records of old cases on file in a North Miami warehouse, says the records on this case, and all others pertaining to the JFK assassination are missing, despite a thorough search. No one can account for their absence.

The Miami police intelligence unit, now called the Special Investigations Section, says there are no files on the assassination. Kay, however, says he looked at such files only six months ago, before his retirement. We have no reason to doubt his word. Do the files exist or don't they? In a quote that sounds as if it could have come from "Catch 22," former special section chief Major Herbert Breslow said: "If I found out where it (the file) was, I wouldn't tell you anyway. I'd just say nothing. You must believe me when I tell you we don't have any file, even though I wouldn't tell you if I did." The FBI

added a strict "no comment" on all questions.

The Parrot Jungle incident involved different characters. Initial information in this case came from former Dade Circuit Judge Alfonso Sepe, whom I contacted about the Milteer tape.

During our discussion, Sepe revealed a "super-secret investigation" he had directed as assistant state attorney in 1967. He had initiated it because of exciting information he received from a friend.

What he discovered was disturbing. In sworn testimony taken by Sepe, Mrs. Lillian Spingler, an employee of the Parrot Jungle gift shop in 1963, told how a Cuban man had entered the shop in late autumn and "initiated a conversation with her in which he stated that he could write with both hands simultaneously and that he was a sharpshooter. This Cuban male allegedly told Mrs. Spingler that he had a friend named Lee who could speak Russian and German and was living in Texas or Mexico, and that Lee was also a sharpshooter. Mrs. Spingler told some friends, but the conversation she had with the Cuban male was passed off until the night of President Kennedy's assassination (22 days later) when Mrs. Spingler was riding in a car with her husband, a close friend and a relative from New Jersey, on their way back from Key West to Miami. Mrs. Spingler said that before she heard the name of the President's assassin, she remarked that she knew who the assassin was. Because she had told several friends, the incident was reported to the FBI.

"I interrogated Mrs. (Ruth) Bastholm, Mr. (William) VanderWyden (Mrs. Spingler's boss at Parrot Jungle), and Mrs. (Aliese) Trigg. Mrs. Trigg remembered learning of Spingler's conversation from Mrs. Spingler prior to the assassination, and corroborated to some degree Mrs. Spingler's version."

He also said he hated the President and "could shoot Kennedy between the eyes."

Sepe said the incident was relayed to the FBI in late December 1963 when Mrs. Spingler called

them. After a quick investigation, FBI agent in charge, James O'Connor told her to "just drop it and not mention it." Mrs. Spingler is still taking O'Connor's advice and has refused to comment, saying only, "They told me not to talk about it. Goodbye." The FBI would say nothing.

The investigation the FBI conducted bears examining. Several months after the threat relayed by Mrs. Spingler, the man who made the threat was identified when he returned to the Parrot Jungle and was spotted. Alertly, Parrot Jungle employees wrote down the license number of his car. They informed the FBI.

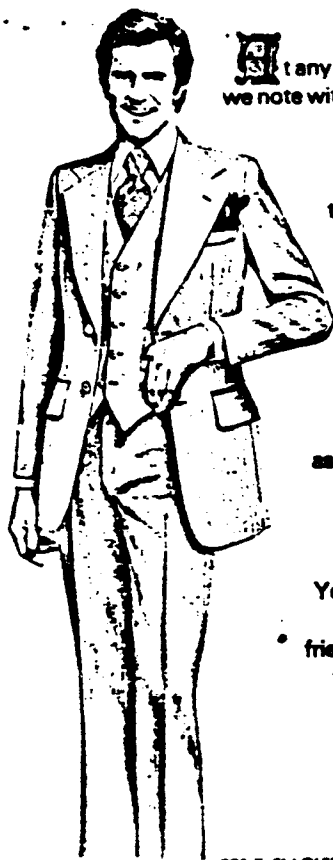

Several weeks passed before Special Agent O'Connor called Mrs. Spingler to tell her that he had in custody Jorge Soto Martinez. O'Connor told her that Martinez, at the time of the threat, had been employed as a Fontainebleau Hotel bellhop.

Martinez didn't deny having a conversation with Mrs. Spingler. He did deny making threats against the President or saying he knew Lee Oswald.

From Sepe's report: "Agent O'Connor asked Mrs. Spingler if she wanted to come to the FBI office and identify the man. Agent O'Connor and Mrs. Spingler both state that Mrs. Spingler refused to go to the FBI office to identify Martinez because she was afraid of personal harm." Still, O'Connor was satisfied that Mr. Martinez was not involved in an attempt to assassinate President Kennedy and did not know Oswald. So the FBI closed its investigation.

In 1967, Sepe threw some light on the FBI's earlier report. He called O'Connor and received the opinion that Martinez had nothing to do with the assassination. O'Connor offered the theory that Mrs. Spingler had "exaggerated the conversation she had with Martinez and that in all probability (had) misunderstood Martinez when he said that he would like to kill Castro." O'Connor also obligingly pointed out that because of Martinez' heavy accent, Mrs. Spingler thought Martinez said "Lee," when he had said "he."

"Lee" could certainly be mistaken for "he," but "Kennedy" doesn't rhyme with "Castro," even when spoken with an accent. Or by an FBI man.

In her statement to Sepe, Mrs. Spingler reasserted her belief that she had heard Martinez correctly. "I know — was sure he said Lee because I associated General Lee with it . . . That's my way of remembering, like 'He's a sharpshooter, General Lee,' you know."

Mrs. Spingler told Sepe she had never been contacted by anyone representing the Warren Commission. "Mr. Conley (sic) told me to forget it all and I figured, well, I told what I knew to the FBI. If they want to further investigate it, then do it. I was just following his instructions."

Curiously, the FBI never even had her identify the man she saw. She was shown some pictures of possible suspects, but never one she could identify. Sepe asked her if she was certain the FBI had picked up the man she had talked to.

"I really don't know for sure," she replied. "It didn't even dawn on me until now that you are questioning me. I just had the license number and I never met him again or saw his picture."

Sepe probed, trying to learn how the FBI had identified the man they had picked up. He asked Mrs. Spingler why she hadn't gone to the FBI office and identified him through a one-way mirror. She answered that the agent-in-charge had never suggested it.

Mrs. Spingler finally identified Martinez as the man she had talked to, in 1967, when Sepe located Martinez and obtained a photo.

Martinez was totally cooperative during Sepe's investigation, even submitting to a lie detector examination. During the test, he denied all Mrs. Spingler's allegations. Warren Holmes, nationally recognized polygraph expert, determined that Martinez probably was telling the truth "with the exception that in a temperamental outburst to Mrs. Spingler, (he) might have said some unkind things about President Kennedy which he had originally denied to (Sepe). Specifically, he showed deception in his denial to the question: "Did you tell the woman at the Parrot Jungle that you were going to Washington and shoot the President between the eyes?" He later admitted to Holmes, following the examination, that he recalled making some stupid statement like that

... He stated he had a habit of shooting his mouth off, but vehemently denied mentioning the name of Lee."

Sepe still thinks Mrs. Spingler was truthful in her statements concerning Martinez.

If the FBI had chosen to check into Martinez' life more thoroughly, his alleged remarks might have been taken more seriously.

Martinez had gotten his job at the Fontainebleau because of a plug given him by a Mike McLaney. McLaney had been Martinez' employer in Havana. He had hired Martinez to clean out slot machines at the casino he operated at the National Hotel. When Castro banned gambling, both McLaney and Martinez fled to Miami. McLaney lived in a houseboat docked across Collins Avenue from the Fontainebleau and prevailed on them to help get Martinez a job. Both McLaney and Ken Humphreys, Martinez' boss at the Fontainebleau, confirmed McLaney's role in the hiring.

Told of the allegations against Martinez, McLaney said that he knew nothing about any assassination plot and offered his impression of Martinez. "George (Jorge) wouldn't harm Mickey Mouse. He has the courage of a little less than a mouse. It's startling to me to hear this." He said he doesn't know where Martinez is now. I made repeated efforts to locate Martinez to no avail.

Do the tangled facts that surround both the Milteer and Martinez incidents mean anything? Perhaps not, but the fact that they were never sufficiently explained is unsettling.

There are numerous implications that have been raised by this investigation. Ponder this list of questions that still need answers.

- Why were Milteer and Brown picked up after Kennedy's assassination and not before?
- If, as Gelber says, Milteer and Brown were under surveillance during the President's Nov. 18 trip to Miami, were they also being watched on Nov. 22? If they were, why doesn't the FBI say so?

- Why did the FBI round up the two extremists for questioning on Nov. 27, ruining a Miami police plan to spy on them?

- Why did the FBI take Milteer's denial that he threatened the President when they had him on tape saying the opposite?

- Why did it also take him at his word when he denied knowledge of the Birmingham bombing? →

- Why didn't they investigate the threats he made in New Orleans and Indianapolis?
- What was the significance of Milteer's Utah bank account?
- Why did he use an alias?
- Why are there still unanswered questions about his death?
- Why does the FBI continue to withhold evidence concerning the tape?
- Why did the Warren Commission report fail to mention this Miami connection?
- Why did the FBI tell Mrs. Spangler to forget about the Parrot Jungle incident and not to mention it to anyone?
- Why do Warren Commission files fail to make mention of it?

Sepe thinks the Martinez incident is important. "It is far more significant in hindsight than it was at the time," he believes. "So many facts have surfaced, and so much intrigue has been suggested, that it gives rise to challenges to the authenticity and thoroughness of the Warren Commission investigation. I believe a new investigation is fully warranted, and all records should be unsealed and everybody who has any relevant information should be questioned exhaustively."

Judge Gelber thinks the information about this case bears further examination by the federal government. "I think an oversight committee should be established which would re-evaluate all the new evidence that has come to light recently. If for no other reason than to satisfy the general public. This data about Milteer is raw intelligence, and should be treated as such, but it is important. It cannot be ignored. This information has never had any priority consideration. The authorities didn't consider it serious enough when it was first available. I think that when Oswald was arrested, activity in other areas diminished, particularly in this one."

State Attorney Gerstein was more subdued in his comments about the Milteer incident but said, "The overwhelming majority of the people of the United States do not believe that Oswald acted alone and are not satisfied with the conclusions of the Warren Commission. As to whether or not it will be fruitful (to reopen the case) or not, I leave to someone else's judgment."

Next month: Miami Magazine's inquiry into apparent Dade County links to the assassinations of John F. Kennedy and Dr. Martin Luther King Jr. leads to more reasons to believe that King's killer wasn't alone.

The purpose of this memorandum is to advise of instructions from Robert L. Keuch, Deputy Assistant Attorney General, Criminal Division, Department of Justice, concerning request from captioned Committee.

DETAILS:

By memorandum dated March 11, 1977, captioned as above, and memorandum from J. S. Peelman to Mr. Moore, dated March 15, 1977, you were advised of receipt of a request from captioned Committee dated March 9, 1977, and the problems presented by responding to that request. Because of these problems we have been instructed to comply in two areas requested by the Committee. On March 21, 1977, Robert L. Keuch, who has been appointed Special Counsel by the Attorney General to handle all liaison for the Department with captioned Committee, asked that we prepare for Committee review information in our files concerning Santos Trafficante for the years 1959 through 1964. Excision should be made in accordance with standards being used for captioned Committee.

The instructions of Mr. Keuch were discussed with Assistant to the Director James B. Adams, and he stated we should comply with that request. It would appear since the matter in question pertains to the investigative activities of the Special Investigative Division that Division should process the material with the assistance of the General Investigative Division, which has the overall responsibility for responding to captioned Committee.

The purpose of this memorandum is to advise of meeting with Staff Director of captioned Committee, Richard Sprague.

DETAILS:

At the request of Deputy Assistant Attorney General Robert Keuch, SA Paul V. Daly of this Division, accompanied Mr. Keuch to a meeting with Mr. Richard Sprague on 3/21/77. The subject of the meeting was to inform Sprague that Mr. Keuch was named by the Attorney General to handle liaison with captioned Committee and to raise in a general fashion some problems being encountered in responding to Committee request.

Keuch informed Sprague that it is his understanding that Chairman Louis Stokes of captioned Committee, in his discussion with the Attorney General had indicated that there was no concern by the Committee as to the FBI conducting investigations and examinations of evidence in the assassination matters. Sprague requested that the Committee, however, be advised of such examinations or investigations. Consistent with this position, Keuch asked Sprague to make arrangements for the FBI to conduct the firearms examinations of the bullet in its possession which must be compared with a sample bullet currently in the Archives. This examination has been

thwarted by agreement with the Archivist. Sprague stated that the FBI cannot have access to the sample in question without some agreement with the Committee.

[REDACTED] O.S.

Sprague stated that Stokes' statement was not entirely accurate and emphasized the need to guarantee the integrity of the evidence. He stated that he had no question that the FBI would in any way mishandle the evidence but was concerned that outside critics would make that allegation and Sprague would be faced with continually refuting it.

[REDACTED] O.S.

Keuch also informed Sprague that it was the Department's position that Justice Department personnel would be made available for interview only pursuant to a written request over the Chairman's signature which would state the topic of the interview and also a Departmental representative would be present during the interview. The representative present during the interview would be there not to represent the interviewee in a legal capacity but rather to advise the Agent or Department employee in what areas he should respond to questions and what areas he may not. Keuch also asked Sprague whether he was agreeable to the procedures which the Department had furnished the Committee for review on 3/18/77. Attached is a copy of these procedures, these are procedures which we are operating under at the present time in responding to captioned Committee and deals only with access to information in FBI space. There are no provisions for delivery. Delivery will be contingent on the Committee adopting rules to protect information it receives.

Concerning the procedures, Sprague stated that he could not agree to them, that it was his position that the Committee receive all information relevant to its inquiries without excision and would not agree to anything less. He also volunteered that anything the Committee might receive which was relevant, regardless of classification, would be disclosed by the Committee in a report or some other fashion. He also stated that he did not accept the procedures which

Legal Counsel to the Associate Director
RE: HOUSE SELECT COMMITTEE ON ASSASSINATIONS (HSCA)

restricted access to sensitive material to the Chairman or members of the Committee excluding staff. The end result of Sprague's discussion concerning procedures was that the Committee was considering sending its draft of what the procedures should be.

As to the other questions raised by Mr. Keuch, no agreement was reached with Sprague.

Keuch advised the FBI should continue to process information in the same fashion as it has in the past for Committee access and should not allow interviews to take place in the absence of a written request from the Chairman of the Committee.

HOUSE SELECT COMMITTEE
ON ASSASSINATIONS

On March 31, 1977, complainant, a male, who was most adamant in not furnishing his identity, stating that if he did so, it would probably be "suicide," related the following:

Complainant advised that during 1973, month unrecalled, he hitchhiked a ride from a truck driver from San Francisco, California, to Portland, Oregon. This ride took approximately fourteen hours and during this period complainant said he became very friendly with the truck driver. Complainant refused to furnish any information which would identify the truck driver, stating that it was "unfair to him."

Complainant advised that during this ride the truck driver related the following to him:

On the day of the assassination of President John F. Kennedy in Dallas, Texas, the truck driver was in Dallas where he was staying at one of the major hotels. He looked out the window of his room and saw a man whom he identified as Eugene Box and who was known to him as a CIA agent. The truck driver indicated that he was in the military service in Vietnam and it was during this period that he became acquainted with Box and was aware of his association with the CIA. The truck driver left his room and went to the entrance of the hotel to meet this CIA agent. When he approached the CIA agent, this individual at first denied knowing the truck driver, but later admitted meeting him in Vietnam. Thereafter, the truck driver and the CIA agent went to the room of the truck driver. After

they had been in the room for a very short period, two males, either Puerto Rican or Cuban, came to the door and forcibly entered the room. These individuals obviously knew the CIA agent by the name of Eugene Box. Thereafter, the truck driver was locked in a closet by the two Cubans or Puerto Ricans and Box, and was let out a short while later, and at gun point marched to the elevator down to the lobby and out to a parked automobile. During the course of this, the CIA agent informed the truck driver that "It was too bad you recognized me." The truck driver was then placed in the car with the two Cubans or Puerto Ricans, with the CIA agent driving. While driving in a rural area of Dallas, the truck driver managed to take the gun which was held on him from one of the Cubans or Puerto Ricans and pointed it at the head of the CIA agent, ordering him to stop the automobile. When the automobile was halted, the truck driver ordered the two Cubans or Puerto Ricans to get out of the car and had the CIA agent continue to drive. Thereafter, the truck driver ordered the CIA agent to drive for approximately ten minutes, when he ordered the CIA agent to stop the automobile and also get out.

Complainant advised that the truck driver informed him that the trip from San Francisco to Portland that date was the last trip that he was going to make and that he planned to go off to the mountains in the southern area of Oregon and become a "hermit." The complainant also said that the truck driver told him that the CIA agent and the two Cubans or Puerto Ricans were directly connected with the assassination of President Kennedy. When complainant was questioned as to what information the truck driver furnished him which would substantiate this, the complainant said the truck driver "just knew."

Peelman to Mr. Moore Memorandum
Re: HOUSE SELECT COMMITTEE ON ASSASSINATIONS

A review of the HSCA request reveals the following:

1. Some of the material specifically requested in this request is already available for review and is located in the Murkin files and Lee Harvey Oswald files which have been excised for review by representatives of the HSCA. To date representatives of HSCA have reviewed less than 20 percent of the material currently available for access.

2. HSCA is now requesting undeleted and complete files/reports and not material excised for review. Additionally, the Committee is requesting access to the personnel files of two former Special Agents. No Committee previously has been given unexcised material for review where excisions have been necessary, or given access to complete personnel files.

3. Three of the individuals about whom "all information available" has been requested are/were FBI informants. Informant files previously have not been made available to a congressional committee unless certain established criteria were met.

4. Of the other individuals about whom HSCA has requested all information in FBIHQ files and in field office files, a review of indices reveals that these names appear in either the Murkin file or in the Oswald file currently available. However, the current HSCA request includes all references under any variations of the names furnished, but does not furnish further identifying data. Without further identifying data available, indices searches were made under "exact name only", and the search slips were returned with more than one hundred pages of references in FBIHQ files alone.

5. Some of the material requested cannot be searched or retrieved through indices because of the general nature of the request. For example: a)

SUBJECT: HOUSE SELECT COMMITTEE ON ASSASSINATIONS (HSCA)

PURPOSE:

To advise of request from the HSCA and the instructions of Michael Kelly, Counselor to the Attorney General (AG).

DETAILS:

Attached letter of 3/9/77, from the new Chairman of the HSCA, Louis Stokes, addressed to the AG, requested voluminous material in connection with that Committee's investigations into the shooting deaths of President John F. Kennedy and Dr. Martin Luther King, Jr.

At his request, SA Paul V. Daly of this Division met with Kelly to discuss the attached request which had not previously been furnished to the Bureau. A review of that request disclosed that a high percentage of the information is in the materials already offered for access to the HSCA. The HSCA has not recently had access to this material because of the instructions of the AG based on a request of the prior Chairman, Henry Gonzalez. Kelly advised that if the material sought in the attached letter is in the material which is ready for Committee access then the Committee must do their own research to locate that material.

[Redacted] the AG at a meeting scheduled for 3/11/77 intends to advise Chairman Stokes that they can have access to that material.

RE: HOUSE SELECT COMMITTEE ON ASSASSINATIONS (HSCA)

As to the other materials sought in the attached request, Kelly asked that the FBI make a determination as to the problems presented by those requests. Preliminarily, Kelly may be advised orally to determine what position the Department will take concerning this request.

[REDACTED] was previously the topic of a discussion between the AG and former Chairman Gonzalez. Kelly is aware that the clearance procedures have to be worked out between the Department and the Committee. An agreement has been drafted concerning the FBI's conducting background investigations which must be signed by the AG and Chairman Stokes. This has not been signed as yet.

RECOMMENDATION:

That the General Investigative Division review attached to determine what problems are presented by the request that Kelly can be orally advised of.

REPORT OF THE SELECT COMMITTEE ON
ASSASSINATIONS, U.S. HOUSE OF REPRESENTATIVES,
95TH CONGRESS

MARCH 28, 1977.—Committed to the Committee of the Whole House on the
State of the Union and ordered to be printed

Mr. STOKES, from the Select Committee on Assassinations,
submitted the following

REPORT

I. INTRODUCTION.

The Select Committee on Assassinations was recreated on February 2, 1977, with the mandate to conduct a "full and complete investigation and study of the circumstances surrounding the assassination and death of President John F. Kennedy and the assassination and death of Martin Luther King, Junior."

Despite the passage of 13 and 8 years since "final" conclusions were reached with regard to the murders of President John F. Kennedy and Dr. Martin Luther King, Jr., respectively, the American people do not believe that the truth concerning these assassinations has been disclosed and they continue to question the adequacy and integrity of the original investigations. The Select Committee on Assassinations, in its report to the 94th Congress, stated:

The passage of time has not healed the national trauma caused by these assassinations. In the ensuing years, old doubts have remained and new disturbing questions have been raised as additional evidence has come to light. . . . As a result, there has been a growing sense of national concern about the adequacy and integrity of the original investigations. The history of these assassinations has demonstrated that the passage of more time will only increase that concern and only a thorough and definitive inquiry at this time will resolve the growing doubts.

The Committee has attempted to undertake a painstaking, methodical investigation into the assassinations to resolve these doubts.

For technical and administrative reasons the Committee had some difficulties in the course of the investigation. For example, the Committee did not have access to certain files on the assassinations for approximately two months; telephone service was disconnected for the same period, preventing the staff from maintaining contact with witnesses and potential witnesses; and other problems which severely restricted the Committee in its investigative efforts.

Under the Chairmanship of Representative Louis Stokes the problems have been resolved and the investigations are now continuing in a thorough manner.

In spite of the difficulties and the short time the Committee has had to operate, substantial progress has been made and new and promising leads and avenues of investigation have been uncovered. New witnesses have provided information and persons have come forward who have not been interviewed before. While the Committee believes that the new leads must be vigorously pursued, we emphasize the fact that it is impossible to predict whether the information will be proved reliable and capable of verification. The investigations are in their infancy, and, therefore, the Committee cannot submit verified conclusions with respect to the assassinations before all the evidence is gathered, tested, and corroborated and the inquiry completed.

(1)

While the Committee is pursuing new information it has also undertaken to initiate an exhaustive investigation of the assassinations, including a thorough review of prior investigative efforts. Only a thorough and complete investigation can establish the truth and prove or disprove the conclusions of prior investigations. No relevant aspect of the assassinations can be ignored.

On March 7, 1977, the Committee adopted its rules of procedure, which established the framework in which the investigations will proceed. The rules, along with the enabling Resolution, provide the Committee with the necessary tools to conduct an effective inquiry and insure that the investigations will be conducted in a credible manner, with due regard for the constitutional rights of prospective witnesses.

It is axiomatic that the success of the investigations is dependent on the Committee's receiving adequate funding. The Committee is committed to conducting efficient investigations. Considerations of cost and relative necessity will be vital ingredients in all investigative decisions. We believe that thorough and complete investigations can be economically achieved.

Now that the Committee has adopted rules of procedure and has proposed a budget, we are ready to continue our important task. The Committee will not and cannot promise quick conclusions—that is an important advantage we have over the prior investigations:

With the passage of time since the original investigations, there is no longer the pressure to arrive at quick conclusions. The Select Committee, with the advantage of hindsight, with independent investigators, and without artificial deadlines, will conduct the full, dispassionate, and comprehensive investigation that is necessary. (Select Committee Report to the 94th Congress, page 4.)

II. THE CONDUCT OF COMMITTEE BUSINESS

A. INITIAL ACTIONS—THE 94TH CONGRESS

The task of investigating these two murders, especially as it relates to identifying potentially necessary legislative action by the Congress, was commenced under a Resolution of the House of Representatives adopted September 17, 1976. Pursuant to the mandate contained in this Resolution, the Committee commenced its activities under the leadership of Chairman Thomas N. Downing. The Committee divided itself into two subcommittees dealing with each of the investigations. Congressman Walter E. Fauntroy was designated Chairman of the King subcommittee and Congressman Richardson Preyer was designated Chairman of the Kennedy unit. Thereafter, the Committee immediately addressed itself to the task of assembling staff, planning the course of the investigations and assigning administrative functions.

It was decided that to conduct the type of full and thorough investigations required by the House, it was necessary to employ an outstanding professional staff of criminal investigators, which should be independent and objective and, therefore, not allied with any of the executive agencies previously involved in the investigation of these crimes. Prior to the end of the 94th Congress, the Committee had obtained the services of experienced professionals and support staff which had already embarked enthusiastically and energetically on the investigations. Rather than rectify all of the administrative and investigative accomplishments of the Committee under the 94th Congress, we call the attention of the Members of the House to the report filed on December 31, 1976.

B. THE 95TH CONGRESS

It was hoped that the Committee would be immediately reconstituted so that no delay would impede the progress of the investigation. Unfortunately, this was not to be the case, and action was not taken until the adoption of H. Res. 222 on February 2, 1977. Upon adoption of this resolution, Henry B. Gonzalez was appointed Chairman of this Committee. Thereafter, on March 8, 1977, Congressman Louis Stokes was appointed Chairman by the Speaker of the House of Representatives and the Committee was reorganized, and continued to pursue the investigations as required by the House of Representatives in the new Resolution.

One of the first actions was the adoption of rules of procedure. This item was a major requirement of the House, and it is the Committee's belief that these rules are outstanding in their recognition of the requirements of due process, orderly investigations, and emphasis on strict constraints on staff activities and may become a model for investigative committees in the future.

A task force of the Committee was appointed to consider the budgetary and staff requirements for the ensuing year. In addition,

the Committee reaffirmed the decision to divide into two subcommittees so as to continue the investigations of the assassinations of President Kennedy and Dr. King, Jr., simultaneously. Mr. Fauntroy remains as Chairman of the King subcommittee, and Mr. Preyer, Chairman of the Kennedy unit.

A meeting was immediately arranged with Attorney General Griffin B. Bell, attended by Chairmen Stokes, Preyer and Fauntroy, along with Chief Counsel Sprague. The meeting was fruitful. Attorney General Bell assured the cooperation and assistance of the Department of Justice. Access to FBI materials on both assassinations was resumed.

Numerous subpoenas were authorized and issued in both cases and investigators and attorneys were dispatched to various areas of the United States to collect evidence and interview potential witnesses.

On March 11, 1977, physical evidence accumulated in the investigation of the murder of Dr. King, Jr., was transported from Shelby County, Tennessee, and introduced into evidence before the Committee. This is a substantial step in the investigation, for the evidence had never before left the custody of the authorities in Tennessee. This now affords the Committee and its staff the opportunity to proceed with the examination of the evidence by its investigators along with its experts and consultants, including ballistics testing of the rifle allegedly used to murder Dr. King.

On March 16, 1977, a witness was called who allegedly could have shed light on the possible involvement of organized crime and Cuban forces in the Kennedy assassination. The witness refused to testify, claiming his privileges under the First, Fourth, Fifth and Fourteenth Amendments of the United States Constitution. The staff continues to explore the leads developed in this area, and the witness remains under the continuing subpoena of this Committee.

Through most of the month of March, formal sessions of the Committee dealing with the investigations were held in closed executive session. These afforded the staff the opportunity to acquaint the Committee with the exact status of each of the investigations. Many of the general areas of discussion are reported hereafter, but care has been taken not to identify specifically any of the sources or leads because of their sensitive nature.

C. RULES OF PROCEDURE

As indicated, the first order of business for the Select Committee, as mandated by the House, was the consideration and adoption of rules of procedure. The Committee promulgated these rules on March 7, 1977, and published them in the *Congressional Record* of March 16, 1977, at H 2221. They contain a stringent set of safeguards designed to protect the civil and constitutional rights of potential witnesses. The American Civil Liberties Union, in a March 17 letter to Congressman James J. Delaney, Chairman of the House Committee on Rules, stated that it "strongly supports a continuation of the assassinations inquiry" in light of these new rules of procedure.

Formal safeguards to protect civil rights prevail both in field investigations and in the formal sessions before the Committee. Manifesting the concern the Committee has for the rights of all prospective

witnesses, the rules include provisions permitting witnesses to be accompanied by an attorney; that if a witness is financially or otherwise unable to secure an attorney, the Committee will secure voluntary, independent counsel for the witness; and that the attorney for a witness may submit written questions to the Committee to be asked of his client.

Moreover, the rules provide strict investigative guidelines mandating that no witness shall be recorded without his prior knowledge and consent; that there will be no electronic surveillance or wiretapping of any person; that no witness shall be subjected to polygraph or voice-stress-analysis examination without specific written authorization of the witness and the affirmative vote of a majority of the Committee or Subcommittee; that the results of such tests, or the failure or agreement to take such tests, shall not be used as the basis of a finding of fact or used in any report or at a public hearing; that in all field interrogations of prospective witnesses, Committee counsel and investigators shall first identify themselves as representatives of the Select Committee on Assassinations, present official credentials, and advise each prospective witness of the nature of the investigation being conducted; and finally, that the use of any investigative technique must be specifically authorized by the full Committee.

In addition, the Committee has adopted rules to insure that classified and sensitive materials will be properly safeguarded and which prohibit the staff from discussing Committee business outside of the Committee unless specifically authorized by the Chairman or Subcommittee Chairman.

D. STAFF AND BUDGET

The Committee has completed an extensive evaluation of its financial needs and staff requirements for the balance of 1977. The Committee has had discussions at length in several executive sessions with respect to the course of the investigation and the precise areas of investigation that must be explored. Armed with this knowledge, the Committee has been able to determine with some degree of specificity the manpower needs of the investigation. It has also explored the investigative steps which the Committee will be taking and has been able to forecast with relative accuracy the expenses that will be incurred.

A task force appointed to evaluate budgetary requirements, under the leadership of Mr. Preyer, has devoted considerable time and attention to the matter.

We believe that our proposed budget for 1977 will insure that the Committee will be able to conduct a full and complete, and yet economical, investigation. We submit for the consideration of the Members of the House the following summary of our proposed budget for 1977 in the amount of \$2,796,650, which includes the funds already expended through March 31, 1977, plus a comparison with the original budget adopted by the Committee in December 1976.

EXPLANATORY NOTES

- (1) Travel was reduced \$297,400 by reducing the cost of domestic trips by \$100 and foreign trips by \$800. These reductions were made possible by better travel pattern information and the adoption by the Committee of paying half-day per diem where appropriate.
- (2) Consultant services (i.e., medical, ballistic, fingerprinting, handwriting and forensic experts) were reduced to \$46,250 by reducing the estimated use by 25 percent and the cost of trips by \$100.
- (3) Witnesses' expenses were reduced \$33,900 by reducing estimated use by 25 percent, the cost of trips by \$100, and the cost of witnesses' security by 50 percent.

(4) Stationery and supplies were reduced \$32,000 based on our prior experience.

(5) Telephone and telegraph were reduced \$245,000. Local service at \$50,000 to be absorbed by Committee on House Administration. Long-distance telephone calls were reduced \$195,000. Current experience shows an average cost of \$2.50 per call compared with \$5.00 in original budget.

(6) Equipment—Purchase has been reduced by \$23,750. Of this amount, \$5,750 was purchased in December, 1976, against 94th Congress funds and \$18,000 for polygraphs, stress evaluators and mini-recorders, were eliminated from the budget.

(7) Equipment—Lease has been reduced by \$112,000. Computer services expenses of \$100,000 are to be absorbed by the Committee on House Administration and one Xerox copier at \$12,000 has been eliminated from the budget.

(8) Reproductions, printing and graphics were reduced by \$7,000 based on better budget information.

(9) Books and periodicals were reduced \$3,000 due to purchases in December, 1976, against 94th Congress funds.

III. DEVELOPMENT OF THE INVESTIGATION INTO THE ASSASSINATION OF PRESIDENT JOHN F. KENNEDY

Although the Committee is initiating methodical investigations to establish the basic facts surrounding the assassination of President Kennedy, it is, in addition, pursuing new leads which have come to the Committee's attention. Some of this information, if corroborated and proved to be true, would indicate connections between Lee Harvey Oswald and the CIA and FBI. Furthermore, other sources of information allege that Oswald and Jack Ruby knew each other prior to the assassination and that Jack Ruby was associated with organized crime figures who participated in CIA-sponsored plots against Fidel Castro. Much of the new evidence is of a highly sensitive nature and cannot be publicly disclosed at this time; however, what follows are representative examples which illustrate the leads the Committee is currently pursuing.

The Select Committee is actively pursuing several new leads which indicate that Lee Harvey Oswald was associated with CIA-supported anti-Castro groups and which suggest that his reported pro-Castro activities and possibly his alleged trip to Mexico City may have been deliberately designed to mask those associations.

In 1974, a letter surfaced that purportedly was written by Lee Harvey Oswald on November 8, 1963, and addressed to a Mr. Hunt, requesting that "we discuss the matter fully before any steps are taken by me or anyone else". The Committee is attempting to identify the handwriting in the letter and to determine just who "Mr. Hunt" is.

The Warren Commission had concluded that Jack Ruby never knew Oswald and had never seen him before November 22, 1963. The Committee staff has spoken with a witness who has never been previously interviewed and who stated that in November of 1963, prior to the assassination of President Kennedy, the witness was finally introduced to Lee Harvey Oswald by Jack Ruby.

The Committee has received uncorroborated information that in 1959 Ruby traveled to Cuba and visited Santos Trafficante in jail. Trafficante was associated with John Roselli and Sam Giancana, both of whom visited him in jail in 1959. According to a witness, Ruby and Roselli had meetings in Miami several months prior to the assassination. During this period Trafficante was quoted by an active Cuban exile in Miami as saying that Kennedy was going to be "hit". Trafficante is, at present, alleged to be a major organized crime figure from Tampa, Florida, and was reportedly the organized crime coordinator of the CIA-sponsored efforts to assassinate Fidel Castro. On March 16, 1977, Trafficante appeared before the Select Committee on Assassinations pursuant to a subpoena. Invoking his constitutional privileges, he refused to answer questions relating to his involvement with the CIA, his participation in anti-Castro assassination plots, knowledge he had prior to November 22, 1963, that President Kennedy was going

to be assassinated, and his association with Robert Maheu, who testified before the Senate Select Committee on Intelligence to his own participation in anti-Castro assassination attempts.

On January 27, 1964, members of the Warren Commission met in Executive Session to discuss evidence which had surfaced indicating that Lee Harvey Oswald was an undercover FBI informant at the time of the assassination. Specifically, the evidence indicated that Oswald was employed by the FBI from September of 1962 up until the assassination at a salary of \$200 a month. His FBI number was allegedly either 172 or 179. The evidence came from two independent sources, but the Commission did not investigate the matter and simply accepted a statement by J. Edgar Hoover that Oswald was not an informant for the FBI.

Recently, an FBI informant advised the Committee that he had seen an FBI agent and Lee Harvey Oswald meeting together on numerous occasions in various New Orleans bars. The informant states that he had previously denied seeing Oswald and the agent together because he was threatened by the agent. The agent has denied the informant's charge.

A witness who was an FBI security code clerk in the New Orleans field office from 1961-1966 alleges that the FBI sent a teletype to all of its offices five days before the assassination, warning of a reported conspiracy to assassinate President Kennedy on his proposed trip to Dallas on November 22-23. The witness further states that the teletype disclosed that a militant revolutionary group was to be involved in the assassination. The FBI has denied sending such a teletype.

The Committee has information which, if corroborated, establishes links between Lee Harvey Oswald and the CIA. Documents in the possession of the FBI, some of which are in the public domain, indicate that the Bureau destroyed relevant evidence and proffered misleading statements to the Warren Commission. Our analysis of the investigative procedures of Federal agencies is a potential subject of legislative action by our Committee and the Congress.

IV. DEVELOPMENT OF THE INVESTIGATION INTO THE ASSASSINATION OF DR. MARTIN LUTHER KING, JR.

The investigation into the assassination of Dr. Martin Luther King, Jr., is proceeding along two lines of inquiry. The Committee is first investigating new and previously unpursued leads into the assassination of Dr. King. Second, the Committee is investigating a number of questions not answered by a review of available documents or by previous investigations by federal, state and local agencies the assassination.

One of the most important current developments in the King investigation is the willingness of James Earl Ray, who pleaded guilty to the murder of Dr. Martin Luther King, Jr., to talk to the Committee. In a February 24, 1977, letter to the Committee's Chief Counsel, he said that the rejection by one of his attorneys of "any dialogue with the Committee . . . is not necessarily my position." He asked the Committee to direct any inquiries about such a "dialogue" to Jack Kershaw, of Nashville, Tennessee, his present attorney. The Committee contacted Mr. Kershaw and made arrangements with Mr. Kershaw to interview Ray at Brushy Mountain State Penitentiary in Tennessee on March 22, 1977. That interview was conducted. Another such interview has been arranged.

In addition, Ray has waived his attorney-client privilege with respect to Percy Foreman, the attorney who represented him when he pleaded guilty. The Committee intends to interview Mr. Foreman.

A second focus for the King investigation involves the conducting of ballistic and forensic tests. Certain items of physical evidence, to which the Committee has only recently gained access, require laboratory testing. These include the rifle with which Ray allegedly shot King. An FBI ballistic expert testified at Ray's guilty plea hearing

that he was unable to establish conclusively that the fatal bullet was fired from the rifle allegedly purchased by Ray. Another expert, by contrast, believes that the bullet possessed sufficient characteristics to permit a definitive conclusion that the bullet had or had not been fired from that rifle to the exclusion of all other rifles. The Committee intends to prove or disprove these theories by commissioning several experts to test-fire the rifle at the earliest feasible opportunity.

In addition, the only physical evidence that the rifle allegedly used to kill Dr. King was fired from the bathroom window in Bessie Brewer's rooming house is a window sill with a dent in it. The prosecution alleged that the dent was consistent with microscopic marks found on the rifle barrel. The Committee intends to determine through forensic examination whether the dent can be connected with the rifle.

A third important focus for the investigation is the information the Committee has received from several witnesses about conspiracies against Dr. King's life. While some of these witnesses have previously spoken to law enforcement agencies, others have not. Moreover, the information furnished by some witnesses to pre-assassination plots

has the potential to corroborate the information received by the Committee from other witnesses.

One such conspiracy allegation arises from a report by a now-deceased undercover informant of a southern police department. Immediately prior to Dr. King's death, he told his superiors that he had recently overheard a conversation between members of two organizations in which it was said that when Dr. King returned to Memphis they would be forced to kill him. The Committee is intensively investigating this and other conspiracy-related leads.

Two other significant areas for the King investigation are James Earl Ray's travels and his access to funds. Ray was at large for over a year after his escape on April 23, 1967, until his capture on June 8, 1968. During this time, he traveled across the United States, lived in more than a dozen cities and traveled in four foreign countries. No satisfactory explanation has ever been offered for Ray's odyssey to these various locations including his alleged six-day, four thousand mile round-trip journey from Los Angeles to New Orleans in December of 1967. Where he got the money for his travels is unclear, as the only money he is known to have earned was \$684.34 from a dishwashing job at the Indian Trail Restaurant in Winnetka, Illinois, during the first eight weeks after his escape. Yet he spent over \$5,500, by the Justice Department Task Force's estimate, excluding money he spent in Europe and money for daily expenses such as food, gasoline, etc. A conservative estimate of his total expenses would be at least \$7,000. Ray himself estimates that he spent at least \$9,500 during this period.

A number of people who dealt with Ray during his travels remarked that he often paid for items with new \$20 bills. The most notable of his purchases was a white Mustang in Birmingham in August, 1967, for which he allegedly handed the owner \$2,000 in cash, most of it in \$20 bills.

The Justice Department Task Force acknowledged that "the sources for Ray's funds still remain a mystery" and implied that the FBI should have pursued this line of the investigation more thoroughly (Task Force Report, pp. 100-101). The Committee intends to investigate the sources of Ray's funds.

The King investigation has also uncovered evidence that suggests that, between April, 1967, and June, 1968, Ray received assistance from a person or persons presently unknown. A primary example of this possible assistance is Ray's use of false identities and a false passport during this period.

Ray used the aliases of Eric Galt, Ramon George Sneyd, Paul Bridgman and John Willard. These aliases correspond to the names of real men, all of whom lived close to one another in suburban Toronto. In addition, three out of the four bear physical resemblances to Ray, and one of them (Galt) even had scars in the same location as did Ray—the forehead and right palm. Yet none of the four allegedly knew each other or Ray.

Ray explains that he obtained the names of Bridgman and Sneyd by checking newspaper accounts of births for 1932 and that he saw the name Galt on a road sign west of Toronto. In view of the physical similarities and the fact that all four men lived in the Toronto area, the Committee intends to investigate whether Ray received any help in obtaining these aliases.

While in Toronto after Dr. King's murder, Ray applied for Canadian birth certificates under the names of Paul Bridgman and Ramon George Sneyd. He in fact obtained a passport in the name of Ramon George Sneyd. The Committee intends to investigate the procedures used by Ray in securing this document and to determine whether he could have done so without the assistance of some presently unidentified person or persons.

A second area of possible assistance to Ray is his escape from the Missouri State Penitentiary on April 23, 1967. He allegedly concealed himself in a large bread box which was carried onto a truck from the prison bakery and driven out of the prison. The Committee intends to investigate whether anyone aided Ray in his escape and whether this assistance was connected to the assassination of Dr. King.

It should be noted that fellow Missouri inmates related that Ray allegedly said while in prison that he would kill Dr. King "if the price was right" and that Ray intended to find a "Businessmen's Association" which allegedly had offered \$100,000 for Dr. King's murder. Whether Ray ever made contact with such a group, either during or after his imprisonment in Missouri, is a question which has never been resolved. The Committee intends to resolve it.

The Committee must investigate how Ray, who allegedly had made unsuccessful escape attempts in the past, was able to escape, remain at large for over a year and travel throughout the United States and four foreign countries. The Committee also will investigate what official efforts were made to apprehend Ray from the time he escaped until he was identified as Dr. King's assassin a year later, and whether any official agencies deviated from their normal practices for pursuing a fugitive.

The Committee's investigation has uncovered other areas of possible assistance to Ray as well. According to bank records, Ray's safety deposit box in Birmingham was closed by someone living in Baton Rouge, Louisiana. At the time of the closing, however, Ray was allegedly in Los Angeles. When Ray purchased a white 1966 Mustang in August of 1967, he received two sets of keys with it. Ray later allegedly lost one set, and required a locksmith to make a new set. Whether another person retained the original second set of keys, and thereby had access to Ray's Mustang, remains a mystery. Ray has stated that at the same time he lost his car keys, he lost his Alabama driver's license as well. He has further claimed that he then obtained a duplicate license from Alabama. Since Ray was in California at the time, the method by which he obtained the duplicate license is also a mystery. The Committee will investigate each of these areas to determine whether Ray in fact received assistance and, if so, whether that assistance was related to Dr. King's assassination.

The Committee is also examining information which may indicate that Dr. King's assassin, whoever he was, received assistance just before and immediately after the murder. The day before Dr. King's death, the Memphis police department established a surveillance post in a firehouse overlooking the Lorraine Motel. That same day, April 3, 1968, two black firemen were transferred from that station to other posts. The following day, the day of the assassination, a black policeman was relieved of his assignment at the surveillance post. The Committee has begun to investigate these incidents, and has already conducted intensive interviews with the three men involved and with Memphis police and fire officials. The investigation continues to

determine whether these transfers were connected with the assassination of Dr. King.

In addition, on April 4, 1968, less than an hour after Dr. King was shot, the Memphis police radio broadcasted an account of a high-speed auto chase, involving a white Mustang, through the northern portion of Memphis. At the same time, Ray was allegedly making his escape in a white Mustang through the southern part of the city. The chase broadcast was apparently a hoax, but the results of the investigations if any, into the possible relationship between the broadcast and Ray's escape have never been made public. The Committee intends to investigate that possible relationship.

The Committee is also committed to answering the questions left unanswered by the report of the Justice Department Task Force. As noted above, the Task Force acknowledged that "the sources for Ray's funds still remain a mystery" and suggested that the FBI should have investigated this matter more thoroughly (Task Force Report pp. 100-101). The Committee intends to investigate the sources of Ray's funds and resolve this "mystery."

The Task Force's report on the FBI's investigation of Dr. King's death also states that James Earl Ray was "aided in his fugitive status by at least one family member" (Task Force Report p. 101). The report further states that "the FBI abandoned a significant opportunity to obtain answers from family members concerning some of the important questions about James Earl Ray which still remain" (Task Force Report p. 106). The Committee intends to take advantage of that "significant opportunity." In this regard, two writers/researchers, working independently, have each concluded that "Raoul," Ray's alleged mysterious criminal associate in Montreal, Nuevo Laredo, New Orleans, Birmingham and Memphis, is in fact James Earl Ray's brother, Jerry Ray. The Committee intends to investigate whether this conclusion about the identity of "Raoul" is justified.

When it analyzes Ray's alleged racial motive for the assassination of Dr. King, the Task Force's report relies heavily on statements by Ray's former prison cellmates and acquaintances that he hated blacks generally, Dr. King in particular, and intended to collect a bounty for killing Dr. King. The report, however, fails to note that almost every one of these statements points at the same time to the existence of a conspiracy.

Moreover, the Task Force's report concedes that not every allegation of conspiracy was pursued to the ultimate degree. It also admits that the FBI judgments in failing to pursue leads were affected by its conviction, reached fifteen days after Dr. King's death that Ray was the assassin (Task Force Report p. 63).

Finally, while responding to inquiries on the King assassination the Attorney General of the United States recently said:

There are some questions that are unanswered . . . :

and

. . . but you could still wonder you know, if there were—if there happened to be a conspiracy. ("Face the Nation," February 13, 1977)

The Committee fully intends to investigate every allegation of conspiracy to determine whether, as Attorney General Bell said "there happened to be a conspiracy."

determine whether these transfers were connected with the assassination of Dr. King.

In addition, on April 4, 1968, less than an hour after Dr. King was shot, the Memphis police radio broadcasted an account of a high-speed auto chase, involving a white Mustang, through the northern portion of Memphis. At the same time, Ray was allegedly making his escape in a white Mustang through the southern part of the city. The Committee intends to investigate that possible relationship.

As noted above, the Task Force acknowledged that "the sources for Ray's funds still remain a mystery" and suggested that the FBI should have investigated this matter more thoroughly (Task Force Report pp. 100-101). The Committee intends to investigate the sources of Ray's funds and resolve this "mystery."

The Task Force's report on the FBI's investigation of Dr. King's death also states that James Earl Ray was "aided in his fugitive status by at least one family member" (Task Force Report p. 101). The report further states that "the FBI abandoned a significant opportunity to obtain answers from family members concerning some of the important questions about James Earl Ray which still remain" (Task Force Report p. 106). The Committee fully intends to investigate every allegation of conspiracy to determine whether, as Attorney General Bell said, "there happened to be a conspiracy."

V. CONCLUSION

Since Congressman Stokes assumed the Chair on March 8, 1977, the investigations have moved forward. The Committee is in possession of new information in both investigations. The Committee has made contact with new witnesses in both investigations and with persons possessing information who were never interviewed nor testified previously.

This information and the authenticity of these new witnesses must be substantiated at the same time the staff moves forward with the basic investigations of these two murders. Using this two-pronged approach, the Committee intends to conclude a thorough, professional investigation of the assassinations by establishing the facts to prove or disprove, once and for all, the disparate theories that have arisen since the two murders took place in Dallas and Memphis.

At the conclusion of the investigation, if appropriate, the Committee will make legislative recommendations to the House of Representatives.

PURPOSE: To recommend forwarding of attached memorandum to the Attorney General.

SYNOPSIS: Since the assassinations of President John F. Kennedy and Martin Luther King, Jr., the FBI has been investigating various new allegations and rumors concerning the assassinations. Results of these investigations have been made available to the HSCA. During HSCA review and investigation of these assassinations, it has been found in several instances that the HSCA is conducting independent and parallel investigation and has obtained evidence which it refuses to make available to the Department or the FBI. Prior memoranda to the Attorney General requesting the assistance of the Department has brought neither response nor resolution to these requests. To avoid duplication of investigative effort, it is recommended the attached memorandum be forwarded to the Attorney General advising him that, unless advised to the contrary, the FBI will refer all allegations relating to these investigations to the Department for consideration prior to the FBI conducting any active investigation.

RECOMMENDATION: That attached memorandum be forwarded to the Attorney General.

Memorandum to Mr. Feh1

Re: HOUSE SELECT COMMITTEE ON ASSASSINATIONS (HSCA)

DETAILS: Since the assassinations of President John F. Kennedy and Martin Luther King, Jr., the Bureau has been investigating and reporting various new allegations and rumors concerning the assassination. The Bureau is currently making its investigative results of both these assassinations available to the HSCA through an agreement between the Department and the HSCA. During the HSCA review and investigations into these assassinations, additional allegations have been received. The Bureau has continued to attempt to investigate all of these additional allegations; however, has found in several instances the HSCA is conducting independent and parallel investigation. The HSCA has also obtained certain evidence which it has refused to make available to either the Department or the Bureau.

By memorandum dated March 11, 1977, we requested the assistance of the Department in obtaining the test bullets in the John F. Kennedy assassination investigation for comparison purposes which National Archives had denied the FBI at the request of the HSCA. This matter remains unresolved.

[REDACTED] O.S.

In order to avoid duplication of investigative effort, the Bureau proposes to refer all allegations relating to these investigations to Mr. Robert L. Keuch in the Department for departmental consideration as to whether any investigation is required of the FBI, prior to the FBI conducting active investigation. Additionally the Department is being requested to delineate the continuing jurisdiction of this Bureau in both the John F. Kennedy and Martin Luther King assassination investigations. It is recommended the attached memorandum be forwarded to the Attorney General advising him of the Bureau's proposal.

The purpose of this memorandum is to advise of the current situation regarding the test bullets fired from the rifle of Lee Harvey Oswald.

DETAILS:

By way of background information, Agents of the Dallas Office on December 1, 1976, interviewed Richard Harold Lester. At that time Lester advised that for a number of years he had conducted searches near the assassination scene of President John F. Kennedy. Utilizing a metal detector, Lester located what he believed to be fragments of a 6.5 cal. projectile. Lester turned this over to our Agents for comparison with known samples fired from Oswald's rifle. Representatives of the Scientific and Technical Services Division made a preliminary examination of this bullet and determined that it would be necessary to obtain a test sample fired from Oswald's rifle that is currently in the possession of the Archivist in order to determine if Lester's projectile is identical. A request was made of the Archivist to examine this bullet and the Bureau was advised that we would be allowed access to the bullet for examination purposes. The Bureau was subsequently advised by James E. O'Neill, Acting Archivist, that he had entered into an agreement with Mr. Richard Sprague, Chief Counsel, House Select Committee on Assassinations. By this agreement no one would be allowed to examine any physical material relative to the Kennedy assassination in the possession of the Archivist without Mr. Sprague's consent.

Legal Counsel to The Associate Director
Re: HOUSE SELECT COMMITTEE ON ASSASSINATION

The Bureau has corresponded with the Archivist regarding this matter and attempts have been made to secure the test bullet in order that an examination can be made pursuant to our investigative responsibilities. Efforts to obtain this bullet have been negative to date.

By memorandum dated March 11, 1977¹⁹⁷, and captioned as above, we advised the Attorney General of this situation and asked him for a resolution of the matter.

By teletype dated March 22, 1977¹⁹⁷, the Dallas Office advised that Mr. Lester telephonically requested on March 21, 1977, that his bullet be returned as soon as possible. Mr. Lester feels that the examination should have been completed and he wants to be advised of the status of his property.

These developments regarding the questioned bullet submitted by Mr. Lester, and the test bullet developed by Bureau examiners now in the possession of the Archivist, would appear to bring the Bureau to the point of exercising one of three options regarding this matter. These options are as follows: (1) Return the bullet to Richard Harold Lester inasmuch as efforts to obtain samples to compare to his bullet have been unsuccessful. If this bullet is returned to Mr. Lester it can be assumed that the House Select Committee on Assassinations will then subpoena the bullet from the possession of Mr. Lester and have it examined by an outside agency. It would not be desirable to have an outside agency examine evidence that is relative to an official FBI investigation. It should be noted that Mr. Lester has indicated to our Agents in Dallas that he desires that the FBI examine this bullet to the exclusion of all others; (2) The Bureau could resist the efforts of Mr. Lester for the return of the bullet on the grounds that it is evidence in an official investigation being conducted by the FBI, and we could encourage the Department of Justice to resist any attempts by the House Select Committee on Assassinations to obtain Lester's bullet from our custody. This course of action would in all probability precipitate a confrontation with the Committee over an item (Lester's bullet) that in all probability has little if any bearing upon this investigation; and (3) That a member of the staff of the House Select Committee on Assassinations be allowed to accompany a representative of the Scientific and Technical Services Division in the examination of Mr. Lester's

bullet, with the understanding that his presence at the examination is merely to inform the Committee of the procedures used in the obtaining, handling and examination of evidence regarding the assassination of President John F. Kennedy, and in no way is it to be construed as a supervisory or advisory position. The Department and the Committee should be clearly advised as to the nature and the circumstances surrounding the presence of a staff member at the examination. We would not want to establish a precedent whereby the Committee could request to be present during any stage or aspect of our continuing investigation into this matter.

These options were discussed with Robert L. Keuch, Deputy Assistant Attorney General, Criminal Division, who has been appointed by Attorney General Bell to be Special Counsel for the Department in matters regarding this Committee. Mr. Keuch has advised that he favors the third option mentioned above.

RECOMMENDATION:

That the Scientific and Technical Services Division and the General Investigative Division furnish their recommendations regarding the options available in this matter.

Addendum to memorandum Legal Counsel to The Associate Director
RE: HOUSE SELECT COMMITTEE ON ASSASSINATIONS
3/24/77

ADDENDUM ASSISTANT DIRECTOR J. COCHRAN:JC:bms, 3/24/77:

There can be no doubt that the presence of a committee representative will be construed by many as indicative of a lack of trustworthiness on our part in providing an unbiased examination or in guaranteeing the integrity of the test bullets obtained from Archives. The committee representative takes on a "bodyguard" image and our integrity is impugned.

No amount of instruction to the Department will wipe out the precedent we set if we allow this monitoring of an objective scientific examination. It should be noted that none of the scientific examinations conducted in this investigation have to date been at issue. The real issues raised have been as a result of attempts to apply the technical findings in an effort to determine the events. In short, interpretation has been the issue.

R THIS It is conceivable that the precedent set for such a monitor could well be seized upon by defense attorneys and the like in future cases in which Laboratory examinations are conducted. It is felt that if the committee does not have sufficient confidence and trust in the integrity of the FBI's Laboratory, and the Department concurs, that it should be told to seek support in the examination of evidentiary materials from some other source. We certainly have no objections to anyone re-examining evidence once we have had the opportunity to conduct such examinations initially. It should be noted the bullets in question in the Archives are test bullets which this Laboratory fired through the suspect weapon at the time of the initial examinations. We have not asked for, nor do we need the weapon in question.

RECOMMENDATION:

That with prior departmental approval, we advise the House Select Committee on Assassinations that we cannot accede to their request to monitor examinations this Laboratory conducts because of the dangerous precedents it sets.

ADDENDUM CRIMINAL INVESTIGATIVE DIVISION JSP:bam 3/24/77

The Legal Counsel memorandum 3/24/77 does not specifically address itself to Director's letter to the Attorney General 3/11/77, which, in essence, lays ^{out} our continuing problem concerning the obtaining of the test bullets from Archives and the request of the Department for a resolution of this situation. It is felt that prior to making any decision as to what possible options are available, we should first have a response from the Department as to what, if any, action the Department will take concerning the Archivist's failure to allow us access to the Kennedy evidence. Should the Department elect not to push this issue with the Archivist, then option #3 appears to be the only logical approach we can take. Although it appears if we take this option, we are establishing a precedent for future joint investigative activity between the House Committee and the FBI.

RECOMMENDATIONS:

1. That Legal Counsel specifically query the Department as to whether it plans any action in regard to the situation with the Archivist which would be in effect a response to the Bureau's letter to the Attorney General 3/11/77.

2. That if the Department's response is that no action is anticipated to obtain the evidence from the Archivist, then it is recommended that option #3 be explored as to whether the House Select Committee on Assassinations would be agreeable.

Reference is made to my letter dated March 11, 1977, with enclosure, under the caption "Assassination of President John F. Kennedy, November 22, 1963, Dallas, Texas," in which the assistance of the Department of Justice was requested in obtaining the test bullets from the National Archives for comparison purposes.

In refusing to make available the information received by the HSCA pertaining to this allegation, as has been requested by the Criminal Division, Department of Justice, the HSCA has again attempted to affirm its "primary investigative responsibility in these assassinations."

The Attorney General

However, while the FBI continues to cooperate fully with the HSCA, both of these matters, as set out in the referenced letters, remain unresolved, continue to impinge upon our investigative responsibilities, and in essence, raise the question of this Bureau's continuing criminal jurisdiction in these investigations.

As you are aware, in November, 1963, the FBI initiated an immediate investigation into the assassination of President John F. Kennedy based upon a request from President Lyndon B. Johnson to former Director John Edgar Hoover. Prior to the assassination, no Federal statute existed concerning the killing of, or assault on the President. Mr. Hoover, in testimony before the President's Commission on the Assassination of President Kennedy (Warren Commission) stated that President Johnson communicated with him within 24 hours of the assassination and requested the FBI to investigate. (Hearings before the President's Commission on the Assassination of President Kennedy, Volume 5, Page 98.)

Although the Bureau's investigative responsibilities concerning the assassination of President Kennedy would have logically ended with the termination of the Warren Commission, Director Hoover, in his testimony before the Commission, agreed with a statement by a Commission Member, Representative Gerald R. Ford, that the responsibility to conduct the investigation is not an authority with a terminal point, but an authority that goes on indefinitely. (Hearings before the President's Commission on the Assassination of President Kennedy, Volume 5, Page 100.) The FBI has continued to investigate and report to the Department any new allegations or information received concerning the assassination.

Since the time of the Kennedy and King assassinations, the FBI has continued to investigate various allegations concerning these assassinations and has furnished the results to the Department. No viable information has been developed to negate the original findings of the FBI or the subsequent conclusions of the Warren Commission or the CFE.

During the HSCA review and investigation into these assassinations, additional allegations regarding these assassinations have been received. The FBI has continued to attempt to investigate all of these additional allegations; however, the FBI has found in several instances that the HSCA conducted independent and parallel investigations, the results of which are not available to the FBI.

The Attorney General

While this Bureau remains unaware that the FBI's criminal jurisdiction pertaining to these two investigations has been abrogated, the position taken by the Department of Justice, in not obtaining authority for the FBI either to gain access to the test bullets in the John F. Kennedy assassination investigation [REDACTED]

[REDACTED] appears to support the position of the HSCA that "primary investigative responsibility" rests with that Committee. OS

Therefore, in order to avoid duplication of investigative effort and the attendant problems between the FBI and the HSCA that could arise in the future, and until the jurisdiction of this Bureau in these investigations is delineated by the Department, unless you advise to the contrary, the FBI will refer all allegations relating to these investigations to Mr. Robert L. Keuch, Special Counsel to The Attorney General, for departmental consideration as to whether any investigation is required of the FBI, or whether the Department desires to furnish these allegations directly to the HSCA. HOUSE SELECT COMMITTEE ON ASSASSINATIONS
INVESTIGATION INTO ASSASSINATION OF
PRESIDENT JOHN F. KENNEDY

On April 1, 1977, [REDACTED]

[REDACTED] advised that he has read various articles in the press concerning the suicide of George de Mohrenschildt in Palm Beach, Florida, and his possible future appearance before the Committee.

[REDACTED] advised that he first met de Mohrenschildt some time prior to the assassination of President Kennedy,

[REDACTED] De Mohrenschildt was employed as an independent contractor by the Haitian government to do a complete geological survey of Haiti. [REDACTED]

[REDACTED] described George de Mohrenschildt as "odd" in his behavior and extremely generous with his time. [REDACTED]

After the assassination of President Kennedy, George de Mohrenschildt and his wife Jan told of their association with Lee Harvey and Marina Oswald prior to the assassination. Both the de Mohrenschildts spoke Russian and became acquainted with the Oswalds as both lived in the same neighborhood in Dallas, Texas. Shortly after a shot was fired at General Walker, and while visiting the Oswalds in their new apartment, Jan de Mohrenschildt found a rifle in a closet and jokingly asked Oswald if it was used in the Walker incident. According to George de Mohrenschildt, Lee Harvey Oswald's reaction was so severe that he (de Mohrenschildt) should have followed his instincts and reported same. [REDACTED]

[REDACTED] described the de Mohrenschildts' coterie of friends in Haiti as "kooky" and "different."

The purpose of this memorandum is to advise of a meeting with representatives of the Legal Counsel Division, General Investigative Division, and Mr. Stephen Fallis, Deputy Chief Counsel of captioned Committee.

DETAILS:

On April 14, 1977, SA John C. Lawn, General Investigative Division, and SA Danny O. Coulson, Legal Counsel Division, met with Stephen Fallis, Deputy Chief Counsel, captioned Committee, to discuss with him certain difficulties that the FBI has in responding to requests of this Committee. Mr. Fallis was advised that the Bureau cannot furnish personnel files of present or former employees but will upon request give consideration to furnishing information from these files that is germane to the investigative responsibilities of the Committee. Mr. Fallis was also advised that items that have been requested by the Committee that are currently located in files already made available to the Committee will not be furnished in a separate form.

During the course of the conversation, Mr. Fallis advised that it is his contention that the Bureau should keep the Committee advised on a day-to-day basis of the investigations being conducted by the FBI concerning the assassination of President John F. Kennedy and Dr. Martin Luther King, Jr. He was advised that this was not our policy but that we had agreed to make available to the Committee the current volumes in both of these cases. He was further advised that the FBI is still charged with the responsibility of investigating both of these matters, and it is not our policy to keep them advised on a day-to-day basis of the developments in these cases.

Re: HOUSE SELECT COMMITTEE ON ASSASSINATIONS

Mr. Fallis stated that Chairman Stokes feels it is necessary to have this information on a day-to-day basis in order for them to properly coordinate their investigative responsibilities. He stated that the House Select Committee on Assassinations has a primary responsibility for investigating these two murders. Mr. Fallis was advised that it would continue to be our policy to furnish information to the Committee by allowing access to the current volumes of both of these cases and that we do not feel obligated in any way to keep them apprized of our current investigative activities.

PURPOSE: To advise that the Archivist of the United States has again corresponded with this Bureau and has set down conditions under which certain test bullets may be borrowed for FBI Laboratory testing, which conditions are not acceptable to the FBI.

SYNOPSIS: In December, 1976, the FBI requested that the Archivist make available to the FBI two test bullets fired from Oswald's rifle. After initially approving this request, the Archivist then denied the request based upon an agreement between the Archivist and the HSCA. By letters dated 3/11/77 and 4/28/77, the Department was requested to resolve this matter and to delineate the jurisdiction of this Bureau. Letter from the Archivist is being acknowledged and the Department is being advised of the receipt of this letter and that the conditions set out are unacceptable and that the Bureau foresees no alternative but to return the bullet fragment found in Dallas to the finder as he has requested. *210* *217*

Reference is made to my most recent letter dated April 28, 1977, captioned as above, which reiterated this Bureau's inability to obtain certain test bullets from the National Archives for ballistics comparison. The Archivist of the United States has denied this access to the FBI at the request of HSCA.

Enclosed is a copy of the most recent letter of Dr. James B. Rhoads, Archivist of the United States, dated May 4, 1977, with enclosures, which sets out the conditions under which this Bureau may gain access to the test bullets, originally turned over to the Archives by the FBI in 1964.

Also enclosed is a copy of this Bureau's acknowledgement of that letter dated May 10, 1977.

The FBI cannot agree to this compromise which directly impugnes the integrity of this Bureau and attacks the validity and trustworthiness of our Laboratory examination, nor can this Bureau comprehend how such encroachment by the HSCA on an investigative matter within the criminal jurisdiction of the FBI is a proper legislative function.

7 MAY 12 1977

Since the impasse between the HSCA, the Archivist, and the FBI has continued to remain unresolved for the past 5 months, the FBI foresees no other alternative in this matter but to return the bullet fragment to the finder in Dallas as he has requested.

May 5, 1977

ASSASSINATION OF PRESIDENT
JOHN F. KENNEDY; 11/22/63
DALLAS, TEXAS

The following information was developed by
the Tampa Division of the Federal Bureau of Investigation.

On April 2, 1977, [REDACTED]

[REDACTED] telephonically advised as
follows:

In November, 1963, [REDACTED] was employed [REDACTED]
[REDACTED] Sears Roebuck and Company, Northside
Shopping Center, 79th Street and 27th Avenue, Miami, Florida.
On the day of President Kennedy's assassination, or perhaps
the day after, a gentleman purchased tires from him who
stated that he was from Texas. This man, who spoke with
a Texas drawl, shocked [REDACTED] and other employees at
the store by his violent verbal attack against the deceased
President. He stated that he was glad that it had happened
and that there were plenty of people in Texas who felt the
same way. (b)(7)(C) (b)(7)(D)

[REDACTED] has been following newspaper accounts
concerning congressional hearings into the assassination of
President Kennedy and the alleged involvement of Texas
businessmen. It was this reference to Texas that triggered
his memory and enabled him to recall this incident. [REDACTED]
[REDACTED] was sure that Sears Roebuck and Company would have
retained their record of the sale and could search receipts
for that date to identify an individual from Texas who
purchased tires at that store on the date of the President's
assassination or one or two days after that. He was positive
that he had made the sale and the sales slip would have his
sales number, [REDACTED] written on the ticket.

ASSASSINATION OF PRESIDENT JOHN F. KENNEDY

The following investigation was conducted by the Miami Division of the Federal Bureau of Investigation.

On April 13, 1977, and April 29, 1977, [REDACTED] Sears and Roebuck Automotive Service Center, Northside, 7900 N. W. 27th Avenue, Miami, Florida, was contacted regarding any details in that company's files concerning information furnished on April 2, 1977, to the Tampa Division of the FBI by [REDACTED]

[REDACTED] is follows:

[REDACTED] said he had information concerning an individual from Texas who purchased tires at the aforementioned store on the date of the President's assassination or one or two days after. This individual while at the store had made a violent verbal attack against the deceased President. (b)(7)(C)
(b)(7)(D)

[REDACTED] advised that Sears and Roebuck, Northside Automotive Center, maintains records for only two years after a sale. He further stated that there were no other records available which would help to identify this individual inasmuch as the purchase occurred almost 14 years ago.

The purpose of this memorandum is to advise of request by Robert Keuch, Special Counsel to the Attorney General.

DETAILS:

Robert Keuch telephonically contacted SA Paul V. Daly, Office of Congressional Affairs, on May 11, 1977, and advised he was in receipt of a Bureau memorandum pertaining to captioned Committee concerning the FBI's attempt to obtain the sample slugs in the possession of National Archives and Record Service (NARS). Keuch was concerned that the memorandum stated the Bureau had no choice but to return the slugs in its possession to the contributor since satisfactory arrangements could not be reached with NARS for the FBI to obtain the sample slugs in their possession. Keuch asked whether the slugs had been returned to the contributor and he was informed they had not. He further requested that no effort be made to return the slugs in question until subsequent to his meeting with Chairman Louis Stokes of captioned Committee concerning this matter.

He advised that the Attorney General supported the FBI's position and that we could not consent to staff members of captioned Committee being present during our firearms examination and would relay this to Chairman Stokes.

7 MAY 31 1977

SA John C. Lawn of the Special Investigative Division was advised of this decision.

Re: HOUSE SELECT COMMITTEE ON ASSASSINATIONS

On 5/25/77, Mr. Keuch telephonically advised that HSCA is prepared to subpoena this fragment from the contributor, (Richard Harold Lester, 1440 Hansboro, Dallas, Texas), and requested his name and address be furnished to HSCA.

The metal fragment will be retained by FBIHQ as requested by the Department until its return is sought by the contributor.

The Dallas Office will be advised by separate communication of the contemplated action by HSCA since the contributor had presented this fragment to FBI Dallas for examination by the FBI alone.

Office of Congressional Affairs has been advised of the action contemplated by HSCA and of the request of the Department that HSCA be advised of the identity of the contributor.

This is to confirm a conversation between Deputy Assistant Attorney General Robert L. Keuch of the Criminal Division and Special Agent John C. Lawn of this Bureau on May 25, 1977. Mr. Keuch instructed Mr. Lawn to provide the HSCA with the name and address of Mr. Richard Harold Lester of Dallas, Texas, as the Committee was prepared to subpoena a metal fragment from him. Mr. Keuch also requested that the FBI retain the fragment until Mr. Lester is in receipt of the anticipated subpoena from the Committee and he requests its return.

As you have previously been advised, Mr. Lester claims he located a bullet fragment near the assassination site of President John F. Kennedy. He turned it over to the FBI for comparison by the FBI to test bullets obtained from the Oswald rifle.

On June 3, 1977, Special Agent Danny O. Coulson of the Legal Liaison and Congressional Affairs Unit advised Mr. Stephen J. Fallis, Staff Counsel to the HSCA, of Mr. Lester's address. Mr. Fallis advised that a subpoena will be issued by the Committee to Mr. Lester for the bullet fragment.

Re Bureau telephone call to Miami, 5/25/77, requesting information as to whether or not Miami file concerning WILLIAM SOMERSETT, former [REDACTED] indicates he has been publicly identified as a Bureau informant. (b)(2), (b)(7)(D)

Enclosed for Bureau is a xerox copy of a memorandum to the SAC, 6/15/76, from Supervisor LEONARD C. PETERSON, containing information pertinent to this matter. *u*

Additionally, review of Miami file regarding SOMERSETT reveals the following:

SOMERSETT's services as an informant were discontinued in 1961 at Bureau direction due to continuing evidence of indiscretion and use of poor judgment, as well as indications he was under suspicion as an informant by various state and union officials. Following his discontinuance, SOMERSETT was used as an informant by the Miami Police Department for several years, during which time he maintained periodic contact by telephone with SA LEONARD C. PETERSON of this office, furnishing unsolicited information concerning local activities of interest to the Bureau. His contacts with this office were in no way encouraged. *EX-114 REC-26 62-117290-732*

According to SA PETERSON, who was also in regular contact with the Miami Police Department during this time, the local police were well aware of SOMERSETT's former association with the Bureau as an informant, obviously due to his having revealed his past activities on behalf of the Bureau. The

local officers alluded to SOMERSETT's past role as an FBI informant as a matter of established fact and under the circumstances SA PETERSON saw no reason to deny it although the direct question was never raised.

As the Bureau is aware, in 1964 SOMERSETT related in great detail to former Florida Governor LEROY COLLINS his past activities as an FBI informant from 1947 to 1961, as well as his continuing voluntary contacts with the Miami Office. Additionally, he revealed his status as a source for the Miami Police Department and the Florida State Attorney's Office.

While SOMERSETT's identity as a former informant has not been publicly disclosed by the Bureau, it would appear from the above that SOMERSETT himself has revealed his past relationship to the extent that it is widely known, particularly in official circles, and Bureau should no longer attempt to conceal his past Bureau association.

This is to record that on 6/14/76, DON CHRISTIANSON, reportedly a writer for the "Miami Magazine", telephonically contacted the writer to inquire about a tape recording made by the Miami Police Department. He stated that he had been in contact with the Miami Police Department and had heard this recording between WILLIAM SOMERSETT, which he identified as a former police informant and a former informant for the FBI, and J. A. MILTEER from the State of Georgia. He reported that MILTEER made the statement to SOMERSETT a week or 10 days prior to the assassination of President KENNEDY in Dallas, Texas, in which MILTEER related plans to assassinate the President, which plans were similar to those actually utilized in the assassination of President KENNEDY. CHRISTIANSON wanted to confirm that SOMERSETT was an informant for the FBI and additional information regarding MILTEER. He was advised that this office could make no comment regarding his inquiry and that any such information would have to come from the Bureau in Washington.

It is noted that previous inquiry has been made regarding this matter by CBS News and other news media and the Bureau is aware of the situation.

This matter is set forth for information purposes only.

This is to advise you of the attached HSCA letter dated June 7, 1977, which was received at FBI Headquarters on June 17, 1977. This is also to ask that you advise this Bureau of your decision with regard to the request it contains.

The letter, signed by Congressman Richardson Preyer, Chairman, Subcommittee on the Assassination of President John F. Kennedy, requests [REDACTED]

HSCA

As you have been previously advised, the metal fragment was turned over to the FBI, December 1, 1976, by a Dallas, Texas, resident who stipulated that he wanted only the FBI to conduct appropriate examinations of it. The contributor claimed to have found the fragment during 1974 at President Kennedy's assassination site. Thereafter, the FBI requested National Archives and Records Service (NARS) to loan the test bullets obtained from the Lee Harvey Oswald assassination rifle in order that the FBI might compare the fragment to those test bullets. NARS refused this loan by letter dated January 4, 1977, stating it was doing so at the request of HSCA's "Chief Counsel and Director of the Committee Staff." My letters of March 11, April 28, and May 10, 1977, provided you details of the impasse and corollary matters arising therefrom.

Deputy Assistant Attorney General Robert L.

Keuch has been orally advised that on June 13th, [REDACTED] JUL 21 1977

to receipt of Congressman Preyer's request, the contrib-
utor contacted a representative of our Dallas Office and
requested the fragment be returned to him in order that
he might have it examined privately.

On 6/13/77, Dallas Division advised by teletype that the contributor of the fragment, Richard Harold Lester, Dallas, Texas, requested the fragment be returned to him so that he might have it privately examined. On 6/20/77, the Legal Liaison and Congressional Affairs Unit, LCD, advised that it had conferred with Deputy Assistant Attorney General Robert L. Keuch, Criminal Division, USDJ, concerning Lester's request and Mr. Keuch advised that he would discuss the matter with Congressman Preyer on 6/21/77, and anticipated that he would advise the Congressman that the Department felt it should keep faith with the contributor and return the fragment to him, whereupon the Committee would be free to subpoena the fragment from Lester.

DETAILS:

On 7/12/77, a meeting was held with Chairman Louis
Stokes of captioned Committee; Carl W. Hurst, Jr., Section

Coulson, Legal Counsel Division. At that meeting, a letter
was delivered to Chairman Stokes from the Director dated

the FBI had no further information concerning the background
investigations of [REDACTED] and [REDACTED] that would assist
him in making a determination regarding their suitability for
clearances. PRIVACY

Chairman Stokes advised that he was of the opinion
that in his letter of 6/8/77, to the Director, he had requested
additional investigation regarding these four individuals. He
also advised that he had discussed clearance procedures for
them with the CIA, and they had assisted him in drafting this
inquiry to Director Kelley.

Legal Counsel to Assistant Director, Special Investigative Division
Re: Special Inquiry Investigations for the Select Committee
on Assassinations, U. S. House of Representatives

It should be noted that Chairman Stokes' letter does not ask for additional investigation but asked for additional investigative details. This was interpreted to mean that he was requesting whether there was information that would offset the derogatory information furnished by the summaries. Chairman Stokes advised that he would recontact the CIA and advise them that there was nothing developed by the FBI in conducting these background investigations to further offset the derogatory information developed. Chairman Stokes further advised that he may in the future contact the FBI to request specific additional inquiries regarding some of these individuals depending on the results of his conversation with CIA.

Memorandum to the Associate Director

DETAILS: On 7/25/77, Mr. Marion Johnson, NARS, telephonically contacted SA Danny O. Coulson, Legal Counsel Division (LCD), and advised that the House Select Committee on Assassinations (HSCA) had requested access to [REDACTED]

HSCA

Mr. Johnson was reminded that no access could be granted to this material without the express consent of the FBI. Mr. Johnson was advised that a representative of the CIU would be in contact with him regarding this matter.

A representative of the CIU, SID, visited NARS on 7/26/77, and determined that the material in question involved FBI documents which NARS had divided into "restricted" and "classified" categories. This material is contained in three cardboard boxes, approximately 12" X 12" X 15".

On 7/26/77, Marion Johnson, NARS, advised that he was amenable to a procedure whereby an FBI representative would pick up the "restricted" and "classified" material on 7/29/77 and process it at FBI Headquarters for eventual access by the captioned committee.

On 7/28/77, Robert L. Keuch, Deputy Assistant Attorney General, Criminal Division, U. S. Department of Justice, was advised of the FBI's intention to review the "classified" and "restricted" material in the possession of NARS and to make proper excisions, deletions, and possibly to restrict access to certain "classified" material. Mr. Keuch advised that he was in agreement with the Bureau's intention regarding this matter.

It is anticipated that NARS will eventually receive its original material back, plus a Xerox copy of documents bearing required excisions and/or deletions for access by the committee.

It is felt that a review of the "classified" material should be made by the INTD so as to preclude the possible disclosure of certain classified information, while the "restricted" information should be processed by the CIU.

When "classified" documents requiring continued protection are identified by the INTD, a representative of the LCD will so advise NARS and instruct that it refer all requests for access to such documents directly to the FBI whereupon such requesters will be advised to submit any requests through the Department of Justice.

HOUSE SELECT COMMITTEE ON
ASSASSINATIONS (HSCA)

In accordance with Attorney General Order 116-56, this advises that on July 29, 1977, retired Special Agent Alvin Staffeld, Jr., was interviewed by Chief Counsel Robert Blakey, HSCA.

Chief Counsel Blakey indicated that he was desirous of interviewing Staffeld because of his familiarity with the relationships between Organized Crime figures and intelligence data that the Bureau amassed on them during the periods pertinent to the assassinations of President John F. Kennedy and Senator Robert F. Kennedy.

The following is a summary of Staffeld's account of the interview with Chief Counsel Robert Blakey, HSCA, on July 29, 1977.

Robert Blakey indicated to Staffeld, at the outset of the interview, that as a result of Judith Exner's story and her relationship with Chicago's underworld figure Sam Giancana and the Central Intelligence Agency (CIA), that the HSCA is consistently confronted with allegations of a conspiracy between the CIA and the underworld against the Kennedys. Blakey is, therefore, seeking from any source possible information which may bear either positively or negatively on this allegation. In this regard, Blakey was desirous of determining if Staffeld had any recollection of information on this matter. Blakey was assured by Staffeld that he did not. Blakey then indicated that he desired to discuss ways in which he and the HSCA staff might undertake a review of

certain records maintained by the Bureau regarding intelligence data for underworld figures. It was pointed out to Blakey

that a majority of the records were no longer available and those that were available were most often a summary of what was thought to be pertinent. Blakey then indicated that the Committee was quite adamant and felt that they had this source of information which must be reviewed and Blakey therefore turned over in his mind the possibility of getting material on just ten underworld figures including such individuals as Sam Giancana and John Roselli. Blakey indicated that this request for information would be confined to airtels or other communications relating to the intelligence data obtained only during the month of November, 1963, which is the month in which John F. Kennedy was assassinated.

It was indicated by Staffeld that he did not know if these communications were available and he could not speculate as to the degree of difficulty in granting delivery to the HSCA even if they were available. Staffeld indicated to Blakey that this would have to be a matter of discussion with current Bureau officials and that he, as a retired officer, was not in a position to respond to any request or give them guidance in this regard.

Blakey was also desirous of knowing if the Bureau had any series of memoranda with regard to the involvement of Judith Campbell with John Roselli and Sam Giancana and their relationship with the CIA. Staffeld indicated to Blakey that he did recall Thomas McAndrews, retired Special Agent now deceased, had testified before the Church Committee on this subject, so it appeared to Staffeld that the Bureau must have had some information. Blakey indicated that he was unaware of McAndrews' testimony for the Church Committee and was going to pursue it.

After approximately two hours, Blakey terminated the interview with the indication that he did not know whether he would again have a need for talking with Staffeld. Staffeld indicated to Blakey that his best source for material in this matter would be through the present staff in the Bureau as he was no longer in a position to know what was available.

The Deputy Attorney General

It is noted that to date, no written or oral request for any of the above data has been received by this Bureau from the HSCA.

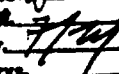

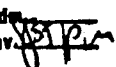

1 - Mr. Robert L. Keuch
Special Counsel to the Attorney General

NOTE: Retired Special Agent, Alvin A. Staffeld, Jr., appearance was requested by Robert Blakey, currently the Chief Counsel for the HSCA. Staffeld was interviewed by Blakey and staff member Cliff Fenton for a period of two hours on July 29, 1977.

Blakey's interview with Staffeld emanates from the fact that he was assigned to FBIHQ during the pertinent periods of the John F. Kennedy and Robert F. Kennedy assassinations serving primarily in the Special Investigative Division, Organized Crime Section.

Blakey indicated that he was interested in discussing ways in which the HSCA staff might have access to all logs maintained by the Bureau regarding our technical coverage for all Organized Crime figures. Blakey's interest in this area relates to allegations received by the HSCA regarding a conspiracy between the Underworld and the CIA against the Kennedys. Staffeld responded by advising Blakey to direct his request to current Bureau officials familiar with this area. To date, no written or oral request has been received at FBIHQ for access to any records, logs or memorandums regarding technical coverage of Organized Crime figures who were prominent during the periods of the Kennedy assassinations.

This matter has been coordinated with the Legal Liaison and Congressional Affairs Unit, Legal Counsel Division. Staffeld was released from his confidentiality agreement with the Bureau and a Bureau official was not present during the interview. A copy of Staffeld's account of his meeting with Blakey is attached.

Alvin A. Staffeld was interviewed on the afternoon of 7/29/77 by Bob Blakey and Cliff Fenton of the Assassinations Committee. Blakey indicated at the outset that this was more of less a skull session since he was desirous of talking with some Bureau personnel who was eminently familiar with the relationships between various organized crime representatives and the intelligence that the Bureau amassed on them during the periods pertinent to the assassinations of President Kennedy and AG Kennedy. His recollection was that Tom McAndrews and I had that type of familiarization which he needed. He was unaware of the fact that Tom McAndrews had passed away.

Blakey has said that as a result of the Judith Exner's story and her relationship with Chicago's Underworld figure Sam Giancana and the CIA, that they are consistently confronted with allegations of a conspiracy between the CIA and the Underworld against the Kennedys. He is, therefore, seeking from any source possible information which may bear either positively or negatively on this allegation. In this regard, he was desirous of determining if I had any recollection of information on this matter, and I assured him that I did not. He then desired to discuss ways in which he and his staff might undertake a review of all logs maintained on our technical coverage for all Underworld figures. I pointed out to him that first of all I was certain that a majority of those logs were no longer available, and for those that were

62-117290-247

available, this would be a monumental task that would accomplish little or nothing since the logs were most often a summary of what was thought to be pertinent and that airtels reflecting the material in the logs were even a further editing of the original material received on the technical surveillance. Blakey then indicated that the Committee was quite adamant and felt that they had this source which must be reviewed and he therefore turned over in his mind the possibility of getting material emanating from our technical sources on just ten Underworld figures (probably the most probable ones such as Giancana, Rosseli, and DeCavalcante) for the purpose of finding even a self-serving statement on the part of one or more hoodlums uncovered during which the hoods could have speculated to the extent of wondering who conducted the assassinations or even making some expression of what a foolish thing to do. This request would be confined to airtels or communications relating to the coverage only during the month of November, 1963, which, of course, is the month in which Jack Kennedy was assassinated.

Here again I indicated that I did not know if these communications were any more available and I could not speculate as to the degree of difficulty in taking them out if they were available. I indicated further that this, of course, would have to be a matter of discussion with the Bureau's staff and that I was, as a retired officer, not in

a position to respond to any request or give them guidance in this regard.

They were also desirous of knowing if we had any series of memorandums with regard to the involvement of Judith Campbell with Rosseli and Giancana and their relationship with the CIA. Here again I indicated that I would hesitate to say but that I did recall Thomas McAndrews had testified before the Church Committee on this subject matter so it would be apparent that the Bureau must have had some source of information. Mr. Blakey was unaware of McAndrews' testimony for the Church Committee and was going to pursue it.

After approximately two hours, Blakey terminated the interview with an indication that he did not know whether he would again have a need for talking with me. I indicated that his best source for material in this matter would be through the present staff in the Bureau as I was no longer in a position to know what was available.

HOUSE SELECT COMMITTEE ON ASSASSINATIONS
U. S. HOUSE OF REPRESENTATIVES (HSCA)

Reference is made to a letter dated March 9, 1977,
to the Attorney General from U. S. Congressman Louis Stokes,
Chairman, HSCA. This letter requested access to certain
material in possession of the FBI.

By letter and memorandum dated May 11, 1977, we
responded to a portion of this request and advised that
information concerning Willie Augustus Somersett (true name
William Augustus Sommersett), was being processed.

On June 24, 1977, Mr Robert L. Keuch, Special
Counsel to the Attorney General, advised that, through
consultation with Robert J. Lehner, Deputy Chief Counsel,
HSCA, it was agreed that HSCA access to information on
Sommersett would be limited to the period 1959 to present.

Enclosed are two copies of a memorandum advising
that information concerning Sommersett has been processed
in accordance with the above limitation, and is available at
FBI Headquarters for HSCA review. It is requested you furnish
a copy of the enclosed memorandum to the HSCA to serve as
notification that this portion of their request is completed.

HOUSE SELECT COMMITTEE ON ASSASSINATIONS
UNITED STATES HOUSE OF REPRESENTATIVES (HSCA)

RE: MARCH 9, 1977, REQUEST OF HSCA FOR INFORMATION IN POSSESSION OF THE FBI PERTAINING TO WILLIE AUGUSTUS SOMERSETT

Reference is made to a letter dated March 9, 1977, to the Attorney General from U. S. Congressman Louis Stokes, Chairman, HSCA. This letter requested access to certain material in possession of the FBI.

As result of a meeting on April 14, 1977, between Steven J. Pallis and representatives of the Department of Justice and FBI, it was agreed that the FBI, in partial response to the March 9, 1977, request of HSCA, prepare for HSCA access all information retrievable in FBI Headquarters files concerning Willie Augustus Somerset (true name William Augustus Sommersett), [REDACTED] and W. Guy Banister. FBI memorandum dated May 11, 1977, O.S. advised that pertinent material regarding [REDACTED] and Banister was available for HSCA review and that information concerning Sommersett was being processed.

On June 24, 1977, Mr. Robert L. Keuch, Special Counsel to the Attorney General, advised that, through consultation with Robert J. Lehner, Deputy Chief Counsel, HSCA, it was agreed that HSCA access to information on Sommersett would be limited to the period 1959 to present.

Based upon a review of FBI Headquarters indices, information regarding Sommersett has been processed in accordance with the above limitation, and is available for HSCA review at FBI Headquarters. References to Sommersett in the FBI's investigations into the assassinations of Martin Luther King, Jr. (44-38861), and John F. Kennedy (62-109060), have already been available for HSCA review.

HOUSE SELECT COMMITTEE ON ASSASSINATIONS
UNITED STATES HOUSE OF REPRESENTATIVES (HSCA)

NOTE: Sommersett was a Bureau informant from 1949-1961, reporting on criminal and racial activities. He was discontinued at the Bureau's direction due to evidence of indiscretion and poor judgment, and that he was under suspicion as an informant by various state and union officials. Following his discontinuance, Sommersett was used as an informant by the Miami Police Department for several years during which time he maintained periodic contact with the Miami Office, furnishing unsolicited information of interest to the Bureau. Sommersett is deceased.

 O.S.
Sommersett, as a Miami police informant, figured into the Kennedy case when the police recorded a conversation between Sommersett and J. A. Milteer wherein Milteer discussed killing Kennedy. This conversation took place prior to the assassination.

The informant file of Sommersett consists of five volumes, but with the 1959 cutoff date, HSCA access will involve only about 1 1/2 volumes. Except for normal excisions such as third and foreign agency material and identity of informants other than Sommersett, only Sommersett's symbol number will be excised from HSCA's access.

Articles appearing in the Fall 1976 issue of "The Miami Magazine" disclosed Sommersett worked as an informant of the FBI for about a decade. These articles advised that sources of information regarding Sommersett's relationship with the Bureau were Miami police officials and Sommersett's brother, Rufus. Sommersett was also identified as a Bureau informant in a "Washington Post" article by Jack Anderson on 1/19/77. Sommersett was known as a Bureau informant to the Florida State Attorneys Office and in 1964 Sommersett related in great detail his activities as an FBI informant to former Florida Governor Leroy Collins, who at that time was associated with the Community Relations Service, Department of Commerce.

It has not been our policy to permit HSCA access to informant files. However, in the case of Sommersett this can be done without establishing an undesirable precedent because, as illustrated above, he has been publicly identified

HOUSE SELECT COMMITTEE ON ASSASSINATIONS
UNITED STATES HOUSE OF REPRESENTATIVES (HSCA)

as an FBI informant. By airtel dated 5/31/77, the Miami Office agreed that Sommersett's identity could be disclosed to the HSCA because Sommersett himself has widely revealed his past relationship with the Bureau.

This matter has been coordinated with Martin P. Hale of the Criminal Informant Unit, Criminal Investigative Division.

PURPOSE: To advise that the chairman, Select Committee on Assassinations, United States House of Representatives, has requested additional supporting data in order to render a judgment, with regard to four individuals on which summary memoranda were previously furnished him. He apparently desires detailed favorable interviews which are generally summarized in the material prepared by us in special inquiry investigations.

RECOMMENDATIONS:

1. That Representative Stokes be contacted and diplomatically advised that all unfavorable information developed regarding the individuals in question has previously been furnished to him. That he also be advised that the number of individuals who furnished favorable comments concerning these individuals and a pertinent summary of those comments were also furnished to him.

2. That Representative Stokes be advised that we respectfully decline to write separate summary memoranda containing the detailed results of the favorable interviews, noting our procedures are the same for all summaries and that setting out favorable interviews in detail will not offset the derogatory information. This regard questions were raised on all four persons as to their suitability to handle classified information.

Memorandum to Mr. Adams

Re: Special Inquiry investigations for the
Select Committee on Assassinations
United States House of Representatives

2542
DETAILS: On June 14, 1977, a letter dated June 8, 1977 was received from Louis Stokes, Chairman, Select Committee on Assassinations, United States House of Representatives (copy attached) requesting additional supporting data concerning four individuals who were previously investigated for employment with his committee. In his letter Representative Stokes advised that information contained in the summary memoranda furnished him concerning [REDACTED] and [REDACTED] contain noteworthy comments by certain acquaintances. He indicated desires to review as much additional supporting data as might be readily available in order to render a balanced judgment and feels it is important to determine whether there is offsetting information to place the cases in a better perspective from a security standpoint.

PRIVACY
ACT -
3RD PART
INFO

The summary memoranda furnished Representative Stokes on the aforementioned individuals each contain interviews with individuals furnishing unfavorable information including interviews of individuals questioning their reliability regarding classified material. The interviews with all the individuals who furnished unfavorable information of any type was set out in detail. Also set forth in each case was a paragraph setting forth a number of individuals who furnished favorable comments and a summary of these comments. It is specifically noted that in the case of [REDACTED] several favorable interviews were also set forth in detail.

PRIVACY
ACT -
3RD PART
INFO

It is noted that it is current practice not to set forth interviews in detail in summary memoranda unless they contain unfavorable information or explain or dispute unfavorable information furnished by others. Otherwise the results of favorable interviews are set forth in a separate paragraph identifying the number of individuals interviewed and a summary of the comments concerning the individual involved.

The four aforementioned investigations were thorough and complete with all questionable information set out in detail. It is therefore felt that the furnishing of additional summary memoranda setting out results of favorable interviews previously conducted as "offsetting information" would serve no useful purpose in connection with a determination of the aforementioned individuals suitability.

F. C. Fehl to Mr. Adams memorandum, 6/15/77
Re: Special Inquiry Investigation for the
Select Committee on Assassinations,

ADDENDUM OF LEGAL COUNSEL DIVISION

6/16/77

DOC: *adw*

It is the opinion of Legal Counsel that a letter should be directed to Chairman Louis Stokes setting forth the observations of the Special Investigative Division regarding his request for additional investigative details on the four persons mentioned in his letter of 6/8/77. Inasmuch as a request was made in writing to the Director, it is felt that it would be more proper to respond to him in writing and advise him that additional summary memoranda would furnish no details that could offset the derogatory information contained in the original summaries. It is further suggested that the letter setting forth the Bureau's views in this regard should be hand delivered to the Chairman by a representative of the Legal Liaison and Congressional Affairs Unit, Legal Counsel Division. - *also spec. inv. div.*

Dear Mr. Chairman:

Reference is made to your letter dated June 8, 1977, in which you requested additional investigative details regarding the summary memoranda previously furnished you concerning [redacted]

and [redacted]. You indicated the summary memoranda contain noteworthy comments by certain acquaintances of the aforementioned individuals and that you feel it important to determine whether there is any offsetting information to place the respective matters in a better perspective from a security standpoint.

As a matter of policy it is our current practice not to set forth interviews in detail in summary memoranda unless they contain unfavorable information or when available they explain or otherwise dispute unfavorable information furnished by others. Otherwise the results of the favorable interviews are summarized and a statement made as to the number of individuals furnishing favorable information. It is noted that concerning [redacted] there were twenty-three favorable interviews; concerning [redacted] thirty-six favorable interviews; concerning [redacted] twenty-five favorable interviews, and concerning [redacted] thirty-five favorable interviews. It is specifically noted in the matter of [redacted] favorable interviews were set forth in detail which specifically tended to offset some of the comments made by others.

While I appreciate your concern in this matter, I feel that the preparation of supplemental summary memoranda setting forth the results of favorable interviews in detail will not serve the purpose outlined by your letter. I have instructed that FBI personnel meet with you to answer any questions you may have in this regard.

PURPOSE:

To advise of the status of negotiations regarding a bullet fragment submitted to the FBI by Richard Harold Lester in the matter of the assassination of President John F. Kennedy.

DETAILS:

On 7/14/77, Mr. Robert L. Keuch, Deputy Assistant Attorney General, Criminal Division, advised SA Danny O. Coulson, Legal Counsel Division, that he had discussed the matter of the examination of the bullet fragment recovered by Richard Harold Lester with Mr. George R. Blakey, Staff Director of captioned Committee. Mr. Blakey advised that he felt that the FBI should conduct the examination of the bullet and make the comparison with the known sample from the rifle of Lee Harvey Oswald. He requested the examination be conducted in the presence of a representative of the Archives of the United States in order to insure chain of custody of the test sample. He further requested that the examination be conducted by an FBI examiner who was not involved in the examination of the original John F. Kennedy material following the assassination. Mr. Blakey also requested that Inspector William Lee Reed of the Director's Office supervise this examination. Mr. Blakey explained that since he knows Mr. Reed personally, he can assure his staff that a personal acquaintance of his will be involved in this examination and assure them that the examination is done properly.

LABORATORY DIVISION ADDENDUM

[Signature] FDS:bsm 7/18/77

Mr. Robert A. Frazier, the Firearms Examiner, who conducted the original examinations in the President Kennedy assassination has since retired. In view of this fact, a different examiner would be assigned to any new examinations.

However, the Laboratory Division objects to Mr. Blakey's request that the firearms examiner be supervised to assure that the examination is done properly. To accept this condition would impugn the integrity of this Bureau and question the validity and trustworthiness of our Laboratory examination.

ADDENDUM SPECIAL INVESTIGATIVE DIVISION (SID) JCL:sas 7/19/77

The SID concurs with the objections set forth by the Laboratory Division.

The critical issue continues to be whether the FBI should acquiesce to the conditions set down by the HSCA, which conditions question the integrity of the FBI in general and the competence and professionalism of personnel of the Laboratory Division in particular.

The criminal jurisdiction of the Bureau in this matter is neither negotiable nor arbitrable and we should not, therefore, compromise our position in fulfilling these investigative responsibilities.

HOUSE SELECT COMMITTEE ON ASSASSINATIONS
U. S. HOUSE OF REPRESENTATIVES (HSCA)

Enclosed are the original and two copies of a memorandum responding in full to an HSCA request by letter of August 22, 1977, signed by Congressman Louis Stokes, Chairman, and received by the FBI on September 8, 1977.

HSCA

With regard to the "skull fragment," a Committee representative subsequently advised that, in addition to Admiral Burkley, President Kennedy's personal physician, a William Harper and Dr. Jack C. Harper, were involved in the acquisition or possession of the fragment. Based on these names, a search of FBI Headquarters files has disclosed pertinent documents which had already been prepared and were available for the Committee's access. These identified documents remain available.

REC-76

62-117290-268

With regard to the other matters, the Committee's attention is once again invited to the fact that the FBI has no retrieval capability that enables it to extract complete, specific topical information from the entire John F. Kennedy investigative file. However, this file has been available for the Committee's access should it choose to review it for the information it seeks. It is pointed out that Committee inquiry through the National Archives and Records Service and autopsies, physicians may be appropriate based on recollection of file content.

 With regard to the "skull fragment," a Committee
 representative subsequently advised that a William Harper
 and Dr. Jack C. Harper were involved in the acquisition or
 possession of the fragment. Utilizing the names of Admiral
 Burkley and the Harpers, a search of FBI Headquarters files
 disclosed pertinent documents which had already been prepared
 and were available for the Committee's access. These
 identified documents remain available and reflect that the
 FBI delivered the fragment to Admiral Burkley on November 27,
 1963.

HOUSE SELECT COMMITTEE ON ASSASSINATIONS

With regard to the other matters, as previously pointed out on December 13, 1976, the FBI has no retrieval capability that enables it to extract complete, specific topical information from the entire John F. Kennedy assassination file. However, this file has been prepared for some time and remains available for the Committee's access in order that it might research specific topics.

The recollection of FBI personnel conducting past reviews of the file, in connection with preparing it for the Committee's access, indicate that all extant evidence, with the exception of the rifle, revolver and holster, was probably turned over to the National Archives and Records Service and that questions concerning President Kennedy's personal remains can, perhaps, best be answered by the physicians involved in the autopsy.

MEMORANDUM OF UNDERSTANDING
BETWEEN THE ATTORNEY GENERAL AND
THE SELECT COMMITTEE ON ASSASSINATIONS

I. Preparation of Materials

A. General Rules:

(1) The Department of Justice (DoJ) and all divisions thereof, including the Federal Bureau of Investigation (FBI), will cooperate fully in the investigations conducted by the Select Committee on Assassinations (Committee) by authorizing and providing access, as requested, to information within the releasing authority of the DoJ that bears upon the study and investigations authorized by H. Res. 222. The terms of this Memorandum shall govern access to all information within the releasing authority of the DoJ held by any federal agency or department. The DoJ will inform the Committee of any requested information held by the DoJ not within the releasing authority of the DoJ, and of the proper authority to contact to obtain access to the information. Requested material will be made available by the DoJ as expeditiously and completely as feasible, and partial access shall be provided while the balance of such materials are being prepared.

(2) No document or portion of a document in the possession of the DoJ (or any of its divisions) shall be withheld without written notice to the Committee of the action and the reason for it. In making any excisions or other alterations of requested materials, the DoJ shall be bound by 18 U.S.C. Section 1505 and all other applicable statutes.

B. Specific Rules:

(1) The Committee and DoJ will periodically agree upon a list of identities that will not be excised from materials turned over to the Committee.

(2) Foreign Intelligence Operations and Sources; Informants. Subject to the list of identities that will not be deleted, where (1) requested classified materials identify peculiarly sensitive on-going foreign intelligence operations or peculiarly sensitive foreign intelligence sources, or (2) requested materials reveal the identity of FBI sources who are "live" informants or potential informants as defined in the FBI Manual of Instructions, the DoJ will appropriately sanitize, including excising, if necessary, information identifying such operations, sources or informants. When

ENCLOSURE

an excision is made, the DoJ will substitute a description of the nature of the intelligence operation, method (including the functional intelligence discipline that was the source of the intelligence), source or informant excised. The Chief Counsel of the Committee and the designated representative of the Attorney General shall meet monthly to examine a random sample of the ~~complete~~ and ~~unclassified~~ materials selected by the Chief Counsel for the purpose of verifying the appropriateness of the sanitizing done by the DoJ, and any materials on which they disagree shall be referred to the Committee Chairman, Ranking Minority Member and the Attorney General for resolution.

(3) Matters in Litigation and Pending Prosecution; Sources: Subject to the list of identities that will not be deleted, where requested materials would (1) reveal matters in current litigation, or in which criminal prosecution is pending, or (2) identify as FBI "sources" persons who have provided or continue to provide information to the FBI and as to whose identity the FBI has undertaken an obligation of confidentiality, the DoJ will appropriately sanitize, including excising, if necessary, such information. Upon written request by the Chief Counsel of the Committee to the Attorney General's designee, the complete and unsanitized materials shall be made available at suitable offices in the Hoover Building to the Chief Counsel and staff members designated in writing by the Committee Chairman to receive such access.

II. Request Procedure

A. The Attorney General shall designate a Special Counsel to be responsible for dealing with the Committee. Committee requests for information shall only be conveyed to the DoJ through the Special Counsel. Absent extraordinary circumstances, appointments with DoJ employees and former employees will be arranged through the Special Counsel.

B. All Committee requests for information shall be in writing. In the interest of timely response, the Special Counsel will accept preliminary telephone or other oral requests, but no information will be made available until a request is received in writing from the Chief Counsel or one of the Deputy Chief Counsels.

III. Staff Clearance

Prior to access by Committee personnel to any material covered by the terms of this agreement, such Committee personnel will be granted security clearance after consultation with the CIA. Committee personnel requiring access to such material will be required to execute, in advance, the attached Select Committee on Assassinations Nondisclosure Agreement.

IV. Examination of Material

Material to which access has been granted by the DoJ will be reviewed in suitable private offices in the Hoover Building set aside for this purpose, or in a designated area within the Committee's offices.

V. Transcripts of Statements Under Oath

A steno-typist from either the Committee or the DoJ will make a verbatim record of all statements of current DoJ personnel taken under oath. One copy of the record will be made available to the Committee and the other to the DoJ in accordance with the Rules of the Committee.

VI. Storage of Materials

A. Committee procedures for control and storage of any documents or materials provided by the DoJ which require protection will follow security standards and procedures established in consultation with, and approved by, the DoJ and the CIA.

B. Upon the termination of the Committee, all materials provided by the DoJ and examined by the Committee will be kept and preserved within a segregated and secure area within the DoJ at least 30 years unless the Attorney General and the House of Representatives agree to a shorter period of time. All persons having access to such materials must sign an access sheet indicating the date, the name of the person receiving access, the specific documents or materials to which access was granted, and the person who authorized the access.

VII. Disclosure of Information

A. With respect to information supplied by the DoJ which (1) identifies "live" or potential informants (as referred to in Paragraph I.B.(2) of this Memorandum), or confidential FBI sources as "sources" (as referred to in Paragraph I.B.(3) of this Memorandum), or (2) reveals matters in current litigation or in which criminal prosecution is pending, the Committee and its staff shall not disclose such information unless the Committee, after consultation with the Attorney General or his designee, determines that the contemplated use is necessary to fulfill its legislative mandate.

B. (1) With respect to classified information designated for protection from unauthorized disclosure by the Attorney General that identifies peculiarly sensitive on-going foreign intelligence operations or peculiarly sensitive foreign intelligence sources, the Committee Chairman shall notify the Attorney General in writing of the Committee's desire to disclose such information in any manner,

including under the Select Committee on Assassinations Nondisclosure Agreement. If within five days the Chairman does not receive a letter from the Attorney General objecting to the proposed disclosure and stating the reasons for it, the Committee may disclose the information.

(2) If the Attorney General notifies the Committee within five days that he objects to the proposed disclosure of such classified information, and states the reasons for the objection, the Chairman of the Committee and the Attorney General, or their designated representatives, shall meet to attempt to resolve any differences over the information to be disclosed. If the Chairman of the Committee considers that the negotiations have reached an impasse, he will give the Attorney General written notice to that effect, and the Committee will take no steps until at least 14 days thereafter to disclose the information in dispute.

(3) Any differences left unresolved by negotiation may become the subject of litigation. In any such action, each party will be free to assert all its constitutional, statutory, or other legal rights, and the parties hereby agree to be bound by the final outcome of any such action. If such an action is commenced by the Executive Branch but is disposed of without a judicial decision on the merits of the disclosure issue, the Committee agrees that it will not on that basis, or on the basis of its 14-day notice letter, disclose the information in dispute. This Memorandum, however, is without prejudice to any of the Committee's other rights, privileges and responsibilities concerning the production by legal compulsion and disclosure of information, and the Attorney General's rights, privileges and responsibilities concerning the protection from disclosure of the information.

I, _____, in consideration for being employed by or engaged by contract or otherwise to perform services for or at the request of the House Select Committee on Assassinations, or any Member thereof, do hereby make the representations and accept the obligations set forth below as conditions precedent for my employment or engagement, or for my continuing employment or engagement, with the Select Committee, the United States House of Representatives, or the United States Congress.

1. I have read the Rules of the Select Committee, and I hereby agree to be bound by them and by the Rules of the House of Representatives.

I further agree not to divulge, publish or reveal by words, conduct or otherwise, any other information which is received by the Select Committee or which comes into my possession by virtue of my position with the Select Committee, for the duration of the Select Committee's existence.

3. I hereby agree that any material that is based upon or may include information that I hereby pledge not to disclose, and that is contemplated for publication by me will, prior to discussing it with or showing it to any publishers, editors or literary agents, be submitted to the Select Committee to determine whether said material contains any information that I hereby pledge not to disclose. The Chairman of the Select Committee shall consult with the Director of Central Intelligence for the purpose of the Chairman's determination as to whether or not the material contains information that I pledge not to disclose. I further agree to take no steps toward publication until authorized in writing by the Select Committee, or after its termination, by such manner as the House of Representatives

may determine, or in the absence of a determination by the House, in such manner as the Agency or Department from which the information originated may determine.

4. I hereby agree to familiarize myself with the Select Committee's security procedures, and provide at all times the required degree of protection against unauthorized disclosure for all information and materials that come into my possession by virtue of my position with the Select Committee.

5. I hereby agree to immediately notify the Select Committee of any attempt by any person not a member of the Select Committee staff to solicit information from me that I pledge not to disclose.

6. I hereby agree to immediately notify the Select Committee if I am called upon to testify or provide information to the proper authorities that I pledge not to disclose. I will request that my obligation to respond is established by the Select Committee, or after its termination, by such manner as the House of Representatives may determine, before I do so.

7. I hereby agree to surrender to the Select Committee upon demand by the Chairman or upon my separation from the Select Committee staff, any material, including any classified information or information pertaining to intelligence sources or methods as designated by the Director of Central Intelligence, which comes into my possession by virtue of my position with the Select Committee. I hereby acknowledge that all documents acquired by me in the course of my employment are and remain the property of the United States.

8. I understand that any violation of the Select Committee Rules, security procedures or this agreement shall constitute grounds for dismissal from my current employment.

9. I hereby assign to the United States Government all rights, title and interest in any and all royalties, remunerations and emoluments that have resulted or may result from any divulgence, publication or revelation in violation of this agreement.

10. I understand and agree that the United States Government may choose to apply, prior to any unauthorized disclosure by me, for a court order prohibiting disclosure. Nothing in this agreement constitutes a waiver on my part of any defenses I may otherwise have in any civil or criminal proceedings.

11. I have read the provisions of the Espionage Laws, Sections 793, 794 and 798, Title 18, United States Code, and of Section 783, Title 50, United States Code, and I am aware that unauthorized disclosure of certain classified information may subject me to prosecution. I have read Section 1001, Title 18, United States Code, and I am aware that the making of a false statement herein is punishable as a felony. I have also read Executive Order 11652, and the implementing National Security Council directive of May 17, 1972, relating to the protection of classified information.

12. Unless released in writing from this agreement or any portion thereof by the Select Committee, I recognize that all the conditions and obligations imposed on me by this agreement apply during my Committee employment or engagement and continue to apply after the relationship is terminated.

13. No consultant shall indicate, divulge or acknowledge, without written permission of the Select Committee, the fact that the Select Committee has engaged him or her by contract as a consultant until after the Select Committee has terminated.

14. In addition to any rights for criminal prosecution or for injunctive relief the United States Government may have for violation of this agreement, the United States Government may file a civil suit in an appropriate court for damages as a consequence of a breach of this agreement. The costs of any civil suit brought by the United States for breach of this agreement, including court costs, investigative expenses, and reasonable attorney fees, shall be borne by any defendant who loses such suit. In any civil suit for damages successfully brought by the United States Government for breach of this agreement, actual damages may be recovered, or, in the event that such actual damages may be impossible to calculate, liquidated damages in an amount of \$5,000 shall be awarded as a reasonable estimate for damages to the credibility and effectiveness of the investigation.

15. I hereby agree that in any suit by the United States Government for injunctive or monetary relief pursuant to the terms of this agreement, personal jurisdiction shall obtain and venue shall lie in the United States District Court for the District of Columbia, or in any other appropriate United States District Court in which the United States may elect to bring suit. I further agree that the law of the District of Columbia shall govern the interpretation and construction of this agreement.

16. Each provision of this agreement is severable. If a court should find any part of this agreement to be unenforceable, all other provisions of this agreement shall remain in full force and effect.

I make this agreement without any mental reservation or purpose of evasion, and I agree that it may be used by the Select Committee in carrying out its duty to protect the security of information provided to it.

DATE: 9-16-77

FROM : Legal Counsel

SUBJECT: HOUSE SELECT COMMITTEE ON ASSASSINATIONS

PURPOSE:

To advise of the status of a proposed memorandum of understanding between the captioned Committee and the Department of Justice.

DETAILS:

You were previously advised by an informative note dated 9/1/77, that Robert Blakey, Chief Counsel, captioned Committee had transmitted to Robert Keuch, Criminal Division, a draft of a proposed memorandum of understanding between captioned Committee and the Department. The Special Investigative, Criminal Investigative, and Intelligence Divisions all furnished comments to the Legal Counsel Division regarding this draft memorandum of understanding.

On 9/8/77, Assistant to the Director, Deputy Associate Director - Investigations James B. Adams, SA Paul V. Daly, and SA Danny O. Coulson of the Legal Counsel Division met with Mr. Keuch to advise him of the FBI's objections to the draft memorandum. As a result of this meeting Mr. Keuch has made changes in the draft memorandum (copy attached) which reflect the FBI's objections. He has also had preliminary discussions with Mr. Blakey of the Committee regarding this draft. As of 9/14/77, this draft memorandum had not been signed by the Attorney General or Chairman Louis Stokes of the Committee. It is anticipated that the Committee will object to this draft inasmuch as it does not allow them access to the identities of FBI informants. Mr. Keuch has been advised that the FBI's policy of not disclosing the identities of our informants is of paramount importance to the operations of the FBI and is one that could only be altered by a decision of the Director.

MEMORANDUM OF UNDERSTANDING
BETWEEN THE ATTORNEY GENERAL AND
THE SELECT COMMITTEE ON ASSASSINATIONS

(Draft 9/15/77)

I. Preparation of Materials

A. General Rules:

(1) The Department of Justice (DOJ) and all divisions thereof, including the Federal Bureau of Investigation (FBI), will cooperate fully in the investigations conducted by the Select Committee on Assassinations (Committee) by authorizing and providing access, either by providing copies of materials when appropriate, or making information available for review, as requested, to information within the releasing authority of the DOJ that bears upon the study and investigations authorized by H. Res. 222. The terms of this Memorandum shall govern access to all information within the releasing authority of the DOJ held by any federal agency or department. The DOJ will inform the Committee of any requested information held by the DOJ not within the releasing authority of the DOJ, and of the proper authority to contact to obtain access to the information. Requested material will be made available by the DOJ as expeditiously and completely as feasible, and partial access shall be provided while the balance of such materials are being prepared.

(2) No document or portion of a document in the possession of the DOJ (or any of its divisions) shall be withheld without appropriate notice to the Committee of the action and whenever possible the reason for it.

B. Specific Rules:

(1) The Committee and DOJ will periodically agree upon a list of identities that will not be excised from materials turned over to the Committee.

(2) Foreign Intelligence Operations and Sources and Other Sources of Comparable Sensitivity; Informants: Subject to the list of identities that will not be deleted, where (1) requested classified materials identify peculiarly sensitive on-going foreign intelligence operations or peculiarly sensitive foreign intelligence sources or other sources of comparable sensitivity, or (2) requested materials reveal the identity of FBI sources who are or were informants or potential informants as defined in the FBI Manual of Instructions, the DOJ will appropriately sanitize, including excising, if necessary, information identifying such operations, sources or informants.

When an excision is made, the DOJ will substitute a description of the nature of the intelligence operation, method (including the functional intelligence discipline that was the source of the intelligence), source or informant excised wherever possible without compromising sources or methods. The Chief Counsel of the Committee and the designated representative of the Attorney General shall meet monthly to discuss a random sample of the materials selected by the Chief Counsel for the purpose of verifying the appropriateness of the sanitizing done by the DOJ, and any materials on which they disagree shall be referred to the Committee Chairman, Ranking Minority Member and if necessary the Attorney General for resolution.

(3) Matters in Litigation and Pending Prosecution; Sources: Subject to the list of identities that will not be deleted, where requested materials would (1) reveal matters in current litigation, or in which criminal prosecution is pending, or (2) identify as FBI "sources" persons who have provided or continue to provide information to the FBI and as to whose identity the FBI has undertaken an obligation of confidentiality, the DOJ will appropriately sanitize, including excising, if necessary, such information. Upon written request by the Chairman of the Committee to the Attorney General's designee, the complete and unsanitized materials shall be made available at suitable offices in the Hoover Building to the Chairman, Ranking Minority Member and Chief Counsel and, when agreed to by the Attorney General or his designee, staff members designated in writing by the Committee Chairman to receive such access.

II. Request Procedure

A. The Attorney General shall designate a Special Counsel to be responsible for dealing with the Committee. Committee requests for information shall only be conveyed to the DOJ through the Special Counsel. Absent extraordinary circumstances, appointments with DOJ employees and former employees will be arranged through the Special Counsel.

B. All Committee requests for information shall be in writing. In the interest of timely response, the Special Counsel will accept preliminary telephone or other oral requests from specific and agreed upon staff members, but no information will be made available until a request is received in writing from the Committee Chairman.

III. Staff Clearance

Prior to access by Committee personnel to any material covered by the terms of this agreement, such Committee personnel will be granted security clearance after consultation with the CIA. Committee personnel requiring access to such material will be required to execute, in advance, the attached Select Committee on Assassinations Nondisclosure Agreement.

IV. Examination of Material

Materials to which access has been granted by the DOJ will be reviewed in suitable private offices in the Hoover Building set aside for this purpose, or upon agreement in a designated area within the Committee's offices.

V. Transcripts of Statements Under Oath

A steno-typist from either the Committee or the DOJ will make a verbatim record of all statements of current DOJ personnel taken under oath. One copy of the record will be made available to the Committee and the other to the DOJ in accordance with the Rules of the Committee and pursuant to this Memorandum.

VI. Storage of Materials

Committee procedures for control and storage of any documents or materials provided by the DOJ which require protection will follow security standards and procedures established in consultation with, and approved by, the DOJ and the CIA.

VII. Disclosure of Information

A. With respect to information supplied by the DOJ which (1) identifies informants or potential informants (as referred to in Paragraph 1.B.(2) of this Memorandum), or confidential FBI sources as "sources" (as referred to in Paragraph 1.B.(3) of this Memorandum), or (2) reveals matters in current litigation or in which criminal prosecution is pending, or (3) is classified information designated for protection from unauthorized disclosure by the Attorney General or an other properly designated official that identifies peculiarly sensitive ongoing foreign intelligence operations or peculiarly sensitive foreign intelligence sources, the Committee Chairman shall notify the Attorney General or his

designee in writing of the Committee's desire to disclose such information in any manner, including under the Select Committee on Assassinations' Nondisclosure Agreement. If within five days from receipt of such notice the Chairman does not receive written notice from the Attorney General or his designee objecting to the proposed disclosure and stating the reasons for it, the Committee may disclose the information.

B. If the Attorney General or his designee notifies the Committee within five days that he objects to the proposed disclosure of such information, and states the reasons for the objection, the Chairman of the Committee and the Attorney General, or their designated representatives, shall meet to attempt to resolve any differences over the information to be disclosed. If the Chairman of the Committee considers that the negotiations have reached an impasse, he will give the Attorney General written notice to that effect, and the Committee will take no steps until at least 14 days thereafter to disclose the information in dispute.

C. Any differences left unresolved by negotiation may become the subject of litigation. In any such action, each party will be free to assert all its constitutional, statutory, or other legal rights, and the parties hereby agree to be bound by the final outcome of any such action. If such an action is commenced by the Executive Branch but is disposed of without a judicial decision on the merits of the disclosure issue, the Committee agrees that it will not on that basis, or on the basis of its 14-day notice letter, disclose the information in dispute. This Memorandum, however, is without prejudice to any of the Committee's other rights, privileges and responsibilities concerning the production by legal compulsion and disclosure of information, and the Attorney General's rights, privileges and responsibilities concerning the protection from disclosure of the information.

The purpose of this memorandum is to advise of the status of a bullet fragment submitted to the FBI by Richard Harold Lester.

DETAILS:

On September 19, 1977, Robert Keuch, Deputy Assistant Attorney General, Criminal Division, advised SA Danny O. Coulson, Legal Counsel Division, that a representative of captioned Committee has arranged with Richard Harold Lester to receive a service of a subpoena between 9:00 a.m. and 11:00 a.m. on Wednesday, September 21, 1977. Mr. Lester is expecting the FBI to return the bullet fragment contemporaneous with the receipt of the subpoena. Due to the unusual work schedule of Lester, it is imperative that this bullet fragment reach the Dallas Office in time for its return to Lester between 9:00 a.m. and 11:00 a.m. on September 21, 1977. Mr. Keuch has advised that due to time limitations the bullet should be in the Dallas Office by Wednesday morning and requested that proper arrangements be made to insure it arrives on time.

RECOMMENDATION:

That the Special Investigative Division make proper arrangements to deliver the bullet fragment to the Dallas Office to insure that it arrives there on the morning of September 21, 1977.

209. Disposal of Sensitive Waste Material

All waste material such as duplicates, notes, drafts, cassettes, carbons, carbon paper, typewriter ribbons, etc., which contain or reveal the contents of sensitive material, shall be deposited in the receptacles designated for such purpose in each Committee office.

At the end of the official work day, a security officer shall remove such waste material from the designated receptacles, and deposit it in "burn bags" located in the Security Office. Cassettes which contain sensitive material shall be erased and degaussed before reuse.

210. Material Generated from Sensitive Material

Material generated in the Committee offices which contains or reveals the contents of sensitive material shall be treated in the same manner as sensitive material, except as to:

(b) Registration: Material thus generated shall be delivered at the end of the official work day to the Chief of Research or his designee, who shall maintain a record of the date of receipt, name of the person generating the material, a brief description thereof, and the safe in which the material is to be stored.

(c) Access: Material thus generated shall only be accessible to all persons authorized to examine the sensitive material contained therein.

Part 3. GENERAL SECURITY PROCEDURES

301. Security Clearance

I have read Section 1001, Title 18, United States Code, and I am aware that the making of a false statement herein is punishable as a felony. I have also read Executive Order 11652, and the implementing National Security Council directive of May 17, 1972, relating to the protection of classified information.

12. Unless released in writing from this agreement or any portion thereof by the Select Committee, I recognize that all the conditions and obligations imposed on me by this agreement apply during my Committee employment or engagement and continue to apply after the relationship is terminated.

13. No consultant shall indicate, divulge or acknowledge, without written permission of the Select Committee, the fact that the Select Committee has engaged him or her by contract as a consultant until after the Select Committee has terminated.

The costs of any civil suit brought by the United States for breach of this agreement, including court costs, investigative expenses, and reasonable attorney fees, shall be borne by any defendant who loses such suit. In any civil suit for damages successfully brought by the United States Government for breach of this agreement, actual damages may be recovered, or, in the event that such actual damages may be impossible to calculate, liquidated damages in an amount of \$5,000 shall be awarded as a reasonable estimate for damages to the credibility and effectiveness of the investigation.

15. PURPOSE: To furnish the views of the Document Classification Office, Records Management Division, regarding the propriety of FBI reviewing the security procedures for the House Select Committee on Assassinations.

DETAILS: Memorandum from Legal Counsel to the Associate Director, 8/4/77, furnished a copy of detailed security procedures formulated by the Select Committee on Assassinations of the United States House of Representatives and requested the Document Classification Office, Records Management Division, consider the propriety of reviewing these procedures and furnishing comments to L. Robert Blakely, Chief Counsel for captioned Committee.

The Document Classification Office has reviewed the procedures established by the House Committee and believes they are extremely comprehensive, but complex to the degree that their implementation and enforcement may be difficult. Because the protection of official, sensitive and national security information relies primarily on adequate selection of personnel handling such material, the discipline afforded to such individuals and the leadership of those with the responsibility of overseeing the protection, it is not believed it would be proper or practical for the FBI to comment regarding the House Committee procedures.

However, the Document Classification Office believes it should be pointed out to the Chief Counsel of the House Select Committee that one apparent weakness in the procedures appears to be the responsibility and procedure for the actual physical destruction of official sensitive and classified material.

HSCA

The September 13, 1977, response furnished and described Volume II of the briefing booklets as being dated January 13, 1964, when, in fact, the copy furnished was dated January 7, 1964.

As you advised on September 28, 1977, the Committee has compared Volume II of the briefing booklets, previously furnished, to a volume which it obtained from another source and found that the two did not coincide, page for page. It has been ascertained that Volume II, which was copied from the Lee Harvey Oswald file (105-82555-4977) and delivered to the Committee, is dated January 7, 1964. It does not coincide in every detail with another booklet dated January 13, 1964, which has been located as a reference to the Assassination of President John F. Kennedy file (62-109060).

The January 13, 1964, version is basically an update of the January 7, 1964, booklet and it reflects additions, deletions or modifications as a result.

It has now been determined that the mechanical processes of preparing the booklets for delivery to the Committee did not provide the opportunity to note the date and

After differences between the Oswald file copy of Volume II and any other copy. It has been ascertained that, of all copies of the Volume II currently located, only the Oswald file copy is dated January 7, 1964.

A complete copy of the January 13, 1964, version is now being provided to the Committee so that it may have the benefit of both versions.

You are requested to furnish HSCA the copy of the enclosed memorandum, with the January 13, 1964, version of Volume II attached.

Assistant Attorney General
Criminal Division
Attention: Mr. Robert L. Keuch

NOTE: This is to supplement a previous response and it has been coordinated with the Legal Liaison and Congressional Affairs Unit (LLCA), Legal Counsel Division, and with Mr. Robert L. Keuch, Deputy Assistant Attorney General, Criminal Division, who has requested that the Committee be provided with the January 13, 1964, version of Volume II of the five briefing booklets. The Committee has apparently had access to the January 13, 1964, version, probably through National Archives and Records Service which has previously advised that it duplicated the briefing booklets in its possession for the Committee's use, although, the Committee has previously advised a representative of the LLCA Unit that it did not possess copies and was, therefore, requesting them from the FBI. Deputy Assistant Attorney General Keuch telephonically contacted SA Drew J. Clark, Congressional Inquiry Unit, on 9/28/77, and requested that a January 13, 1964, version of Volume II be furnished to the Committee in addition to the January 7th version which it has already received from the FBI. Copies of the identified differing pages in each report are being made a part of the FBIHQ file copy of this response. Further comparison of the five volumes previously furnished to HSCA indicates: Volume I, a narrative volume, coincides with another file copy located in 62-109060; Volume II, a narrative volume, is addressed in this response; Volume III, an exhibits volume, coincides in content with another copy located in 62-109060; Volumes IV and V, exhibits volumes, do not coincide with other extant copies in that some of these exhibit volumes do not contain typed, true copies of some handwriting exhibits, however, care was taken to initially provide the Committee with copies of Volumes IV and V which did contain typed, true copies so that HSCA might have the most complete copy available. The Oswald file copies were Xeroxed initially since it was the only file to which a complete set of the five volumes were serialized.

was lead sentence in 1/7/64

The FBI Laboratory has determined that the bullets used in the assassination of President Kennedy on November 22, 1963, were a military type manufactured by the Western Cartridge Company, East Alton, Illinois. These bullets have solid noses with full copper alloy jackets and lead cores. Examination of the President's clothing by the FBI Laboratory disclosed that there was a small hole in the back of his coat and shirt approximately six inches below the top of the collar and two inches to the right of the middle seam of the coat. There were minute traces of copper on the fabric surrounding the hole.

There is a slit approximately one-half inch long about one inch below the collar button in the overlap of the shirt the President was wearing. The slit has the characteristics of an exit hole for a projectile. There is also a nick on the left side of the tie knot, which possibly was caused by the same projectile as it passed through the shirt. The coat and shirt were X-rayed for metal bullet fragments that might have been embedded among the layers of the fabric, but none were found.

B. Photographs

A motion picture of the assassination taken by an amateur photographer, Abraham Zapruder, 3909 Marquette Street, Dallas, was examined by the FBI Laboratory. The ^{reworded} best estimate of the time interval of the shots fired is that approximately six seconds elapsed from the first to the final shot, with the second shot occurring approximately in the middle of the six-second period. The firing period begins with the first shot, so that it is necessary to operate the rifle bolt only twice to fire three shots within a given period of time. The assassination weapon is a right-handed, bolt-action, military rifle. Oswald's wife has stated that Lee Oswald was right-handed.

The photograph showing an object in the window of the sixth floor room from which the shots were fired (described on pages 19-20 of the initial report) has been examined by both the FBI Laboratory and the United States Navy Photographic Interpretation Center, Suitland, Maryland. From a study of this and other photographs in the sequence, neither the FBI Laboratory nor the Navy Photographic Interpretation Center

A motion picture of the assassination taken by a photographer, Abraham Zapruder, 3909 Marquette Street, was examined by the FBI Laboratory. The most nearly accurate estimate of the time interval of the shots fired is that approximately six seconds elapsed from the first to the final shot, with the second shot occurring approximately in the middle of the six-second period. The firing period begins with the first shot, so that it is necessary to cock the rifle bolt only twice to fire three shots within a period of time. The assassination weapon is a right-hand bolt-action, military rifle. Oswald's wife has stated Lee Oswald was right-handed.

The photograph showing an object in the window of sixth floor room from which the shots were fired (described on pages 19-20 of the initial report) has been examined both the FBI Laboratory and the United States Navy Photographic Interpretation Center, Suitland, Maryland. From a study of this and other photographs in the sequence, neither the FBI Laboratory nor the Navy Photographic Interpretation Center could make a positive determination of what the object was. It was concluded, however, that the image seen does not depict the form of a person or persons and is possibly a stack of boxes later determined to have been in the room.

In March, 1959, while in the United States Marine Corps, Oswald took a battery of five GED (General Educational Development) high school level tests and received a rating of satisfactory. According to an official of the United States Armed Forces Institute, Madison, Wisconsin, the purpose of these tests was to determine a student's educational level as compared with a typical high school senior, and a rating of satisfactory was recognized by many state educational departments and employers as indicating a level equivalent to a high school education.

reworded During FBI's verification of Oswald's education, numerous former teachers and fellow students were interviewed, but no additional pertinent information was developed.

He also stated Oswald evaded the subject of religion, and he received the impression that Oswald ^{reworded} was an atheist. Mr. Murret stated he had no further contact with Oswald.

Mrs. Joyce O'Brien, 1615 Fairway, Beaumont, Texas, was interviewed on November 30, 1963. Mrs. O'Brien stated that while visiting her mother in August, 1963, she received a telephone call from Lee Harvey Oswald who was in jail in New Orleans. Oswald asked her to post \$25 for his bond. Mrs. O'Brien went to the New Orleans Police Department and was informed Oswald was charged with "disturbing the peace" for carrying posters. She said that, after she saw a poster

In interviews, Marina Oswald said she first met Lee Harvey Oswald at a social function in Minsk, USSR, in March, 1961, and married him April 30, 1961, in that city. She maintained that she did not know of Oswald's desire to return to the United States at the time of their marriage and, had she known of such a desire, she probably would not have married him.

Mrs. Oswald admitted requesting permission of Soviet authorities in mid-1961 to take up residence in the United States. She said that in late 1961 she was advised by Soviet authorities that she would be permitted to leave the Soviet Union and travel to the United States, whereupon she submitted formal application for an exit visa. She did not know whether it was a rifle or a shotgun and was not certain whether it had a telescopic sight.

Mrs. Oswald has stated that she recalls the incident described by Mrs. DeMohrenschildt but remembers that it definitely occurred at the Oswald residence at 214 West Neely Street, Dallas. This would fix the time as March or April, 1963. Mrs. Oswald added that she knows of no rifle her husband had, other than the one which has been identified as the assassination weapon.

1. Subversive Background of Father

Michael Ralph Paine's father, George Lyman Paine, Jr., and latter's wife, Frances Paine, are leading members of the "Johnson Faction," which is also known as "Correspondence." The "Johnson Faction" is an offshoot of the Johnson-Forest Group which, in turn, broke away from the Trotskyite Socialist Workers Party (SWP) in 1951. The "Johnson Faction," which has completely divorced itself from the SWP, has a national membership of approximately six members, and the current activities of George and Frances Paine are limited to nominal membership and financial contributions.

Investigation has developed no information indicating any subversive activities on the part of Michael Paine or any close association between him and George and Frances Paine, who are located in the Los Angeles area. However, the records of the Military Personnel Records Center, St. Louis, Missouri, concerning MICHAEL RALPH PAINE contain the following statement:

B. Expenditures

Persons interviewed advised that Lee Harvey Oswald lived a very frugal life.

During the period from late September, 1963, to November 22, 1963, when his family resided at the Paine residence, Oswald contributed nothing toward their support. At this time, he resided in a room which cost \$8 a week and usually prepared his own meals consisting of bread, lunch meat, and jelly.

Investigation disclosed that despite his modest income, he had sufficient funds to defray the expense of all of his known activities, including his trip to Mexico.

No evidence has been obtained to show that Oswald lived beyond his means or that he had any sources of income other

B. Expenditures

From June 13, 1962, when Oswald returned to the United States from the USSR until November 22, 1963, his expenditures, exclusive of food and clothing, approximated the following:

Repayment of State Department loan	\$435.71
Rent	457.00 (approximately)
Trip to Mexico	75.00 (approximately)
Rifle	21.45
Printing	10.00 (approximately)

Estimated total: \$999.16

While Oswald's income following his return to the U. S. was small, it appears that, by practicing the utmost thrift, he managed to live within it. During the period from late September, 1963, to November 22, 1963, when his family resided at the Paine residence, Oswald contributed nothing toward their support. At this time, he resided in a room which cost \$8 a week and usually prepared his own meals consisting of bread, lunch meat, and jelly. On December 6, 1963, Vincent T. Lee, national director of the Fair Play for Cuba Committee (FPCC), furnished the FBI material relating to Oswald. Included in this material were six letters from Oswald describing his activities in behalf of the FPCC in Dallas and New Orleans; three change-of-address cards for Oswald; a membership application blank; a newspaper clipping describing Oswald's arrest in New Orleans; an affidavit of the Municipal Court, New Orleans, specifying the charge against Oswald and the three Cuban refugees with whom he was involved in an altercation on August 9, 1963; and an FPCC throwaway. Examination by the FBI Laboratory has determined that the handwriting and handprinting on these documents were prepared by Oswald. Copies of Oswald's letters to the FPCC are included in Part Three of this Supplemental Report. (Exhibits 61 - 66) not in 1/7/64

Dr. Mattie Russell, Curator of Manuscripts, Duke University Library, advised on December 18, 1963, that the October 3, 1956, letter by Lee Oswald and its accompanying advertisement coupon were acquired by Duke University on January 2, 1959, from Stephen Siteman, Executive Secretary, Socialist Party of America, 112 East 19th Street, New York, New York. On December 27, 1963, Patricia Winston and Pamela Mumford, both of 153 North New Hampshire Avenue, Los Angeles, California, stated that Oswald was on the Red Arrow bus and introduced himself to them after they boarded it at Monterrey. They said that Oswald claimed to have lived in Russia for two years and to have had a difficult time leaving Russia. He said he was from Fort Worth or Dallas. They noticed he was traveling alone and had one piece of baggage. Oswald recommended to the young women that they stay at the Hotel Cuba in Mexico City, as he had stayed there several times and had found it inexpensive.

Inquiry has established that there is a Hotel Cuba in Mexico; however, records of that hotel failed to disclose any registration for Oswald under his true name or known aliases from June, 1962, to October, 1963.

The McFarlands, Patricia Winston, and Pamela Mumford all immediately recalled Oswald upon reading the accounts of his arrest and death in conjunction with the assassination of President Kennedy.

On November 23, 1963, a confidential source abroad advised that official records of the Mexican Government indicated that one Lee Harvey Oswald had entered Mexico on

September 26, 1963, at Nuevo Laredo, Tamaulipas, and had departed Mexico at the same place on October 3, 1963. ^{modified} The Mexican Tourist Card (Form FM-8) used for the entry of this person into Mexico bears No. 24085 and was issued on September 17, 1963, by the Mexican Consulate General in New Orleans, Louisiana. It was issued in the name of Lee, Harvey Oswald. It would appear that the comma was placed on the card in error inasmuch as the signature appearing on the original and duplicate portions of the card is Lee H. Oswald.

In applying for the Mexican Tourist Card, Oswald listed his profession as "photographer," stated he was 23 years of age and married, and presented a birth certificate in proof of his citizenship. The card was valid for a single journey to Mexico for a period of fifteen days.

It is noted that Oswald's letter to the Soviet Embassy dated November 9, 1963, states as follows:

"I was unable to remain in Mexico indefinitely because of my Mexican visa restrictions which was for 15 days only. I could not take a chance on requesting a new visa unless I used my real name, so I returned to the United States."

September 26, 1963, at Nuevo Laredo, Tamaulipas, and had departed Mexico at the same place on October 3, 1963. This source subsequently, on November 24, 1963, made available a copy of the Mexican Tourist Card (Form FM-8) used for the entry of this person into Mexico. The following information was noted from the copy of the card:

According to rubber stamp impressions appearing on both the original and the duplicate copy of the Tourist Card, Oswald was admitted at Nuevo Laredo on September 26, 1963, by a Mexican Immigration Service employee named Helio Tuexi Maydon. A rubber stamp impression on the original of the Tourist Card indicated that he departed Mexico at Nuevo Laredo on October 3, 1963, his departure having been handled by Mexican Immigration Service employee named Alberto *on next line in 1/7/64* Arzamendi Chapa.

By way of general information, Mexican Tourist Cards are issued in duplicate. The duplicate copy of the card is picked up at the time of entry into Mexico of the bearer of the card. The latter retains the original of the card until departure from Mexico, at which time the original is picked up at the port of departure. Both the original and the duplicate copy of the card are stamped at the port of entry and in addition the original is stamped at the port of departure.

for identification. It was determined that Oswald's revolver produces rifling impressions such as are on the bullet from Patrolman Tippit.

The revolver, a .38 Special Smith and Wesson, Victory Model, serial number V510210, was originally made for the United States Armed Forces but was sent to England during World War II because of a shortage of weapons in that country. It was chambered for the British .38/200 cartridge (which is the same caliber as the American .38 Smith and Wesson). After the war, the revolver was bought by George Rose and Company (which also does business as Seaport Traders, Inc.), Los Angeles, California. George Rose and Company shortened the five-inch barrel to 2 $\frac{1}{4}$ " before selling the gun to Oswald for \$29.95.

Oswald purchased the revolver from Seaport Traders, Inc., Los Angeles, California, through a mail order coupon signed by him, using the name "A. J. Hidell." It was shipped to A. J. Hidell, Post Office Box 2915, Dallas, Texas, on March 20, 1963. This box had been rented by Oswald on October 9, 1962. *not in 1/7/64*

TO: DIRECTOR, FBI

Re Butelcalls to Albuquerque, 11/4/77, and Bureau teletype to Albuquerque, 11/4/77.

This is to record the fact that SA [REDACTED] of this division traveled to Washington, D.C. on 11/7/77 and appeared before JOHN HORNBECK, Counsel for the House Select Committee on Assassinations, on 11/8/77. Mr. HORNBECK was interested in determining activities and associates of SANTO TRAFFICANTE, JR. during the period 1959 - 1964. Mr. HORNBECK had apparently researched the activities of TRAFFICANTE during this period and appeared very knowledgeable in his questions. SA [REDACTED] was able to answer all of the questions posed by HORNBECK and was able to furnish him information about Cuban associates of TRAFFICANTE. At the conclusion of the interview on request of HORNBECK, SA [REDACTED] suggested to him that he attempt to personally interview TRAFFICANTE in Miami rather than subpoenaing TRAFFICANTE to Washington, D.C. Memorandum

TO : The Associate Director

DATE: 11/2/77

FROM : Legal Counsel

SUBJECT: HOUSE SELECT COMMITTEE ON ASSASSINATIONS
95TH CONGRESS (HSCA)

PURPOSE:

The purpose of this memorandum is to request the release of five current and former Special Agents from their employment agreements in order that they may be interviewed by HSCA staffers and may testify during HSCA hearings.

DETAILS:

On 11/1/77, Mr. G. Robert Blakey, Chief Counsel and Director, HSCA, was in telephonic contact with Special Agent Drew J. Clark, Congressional Inquiry Unit, Special Investigative Division, and inquired of the FBI's progress in making five Special Agents available for interview by Committee staffers on 11/3-4/77, and for subsequent testimony during Committee hearings on 11/8-10/77, per his oral request to Special Agent Danny O. Coulson on 10/21/77, and his letter of request dated 10/27/77. It has been ascertained that no formal action had been undertaken by the FBI in this regard pending receipt of a written request. Recontact with HSCA on 11/1/77, disclosed, per HSCA staffer, Gary Cornwell, that the 10/27/77, HSCA request had been sent to Attorney General Bell and no copy was directly furnished to the FBI, which oversight Cornwell was in the process of rectifying. The names of the current and former Special Agents with office of assignment and last known address, respectively, are: James P. Hosty - Kansas City, John T. Kessler - FBIHQ, Robert P. Gemberling - [REDACTED], Leon F. [REDACTED] (b)(7)(c), Brown - [REDACTED] and Charles W. Flynn - [REDACTED]

Preliminary contact with Special Agent Kessler indicates he is available on dates requested, if approved. Notification to appropriate field offices in accordance with past procedures will be handled by the Special Investigative Division, if approved.

PURPOSE: The purpose of this memorandum is to establish procedures for handling requests from captioned Committee.

DETAILS: It has come to the attention of the Congressional Inquiry Unit of the Special Investigative Division that the many requests for information concerning individuals generated by this Committee may include the names of former or current FBI informants. It should be noted that representatives of captioned Committee have questioned the FBI's procedures when these requests include information concerning individuals who have been or are currently FBI informants. The Committee has been advised that procedures are being worked out with the Department to cover this possibility. On 11/8/77, Mr. Robert J. Lehner, Deputy Chief Counsel, HSCA, was advised by SA Danny O. Coulson that the FBI would in no way indicate to the Committee if an individual was or was not an FBI informant.

On 11/9/77, SA Danny O. Coulson, Legal Counsel Division, and SA Drew J. Clark of the Special Investigative Division met with Mr. Robert L. Keuch, Deputy Assistant Attorney General, Criminal Division, to discuss this problem. At this meeting it was decided that every response to this Committee would contain specific language to enable the FBI to withhold information regarding whether an individual was or was not an FBI informant. It was felt that the FBI could not categorically state to the Committee that there was no record in FBI files concerning an individual knowing that individual had been or was an informant of the FBI. The language that will be used in these responses will allow us to withhold information concerning

an individual's informant status pursuant to the Memorandum of Understanding with this Committee. This language is as follows:
". . . retrievable information in FBI Headquarters files identifiable with (individual's name) has been prepared for the Committee's access (delivery) subject to the usual excisions or deletions. Where information is not provided, it is either not retrievable from Headquarters files or is not being produced pursuant to the Memorandum of Understanding."

RECOMMENDATION: That all responses of the HSCA include the above phraseology in order that we may continue to offer protection to our current and former informants.

DETAILS: Mr. Blakey, by referenced letter (attached), requested issuance of official visitor badges to the staff of captioned Committee to better facilitate the research efforts of the staff while at FBIHQ and, thereby, eliminate necessity for escort service while here. The letter listed 71 staff members, including Mr. Blakey.

Congressional Inquiry Unit maintains a Committee sign-in book and, in connection with this request, checked to determine the frequency of staff visits to FBIHQ for the 160 workdays between April and November 14, 1977. This log reflected 72 days when at least one staff member was here. A total of 39 different staff members were visitors on those days, of whom 13 were here only one time and four were here only on two occasions. Only 13 staff members were here more than five occasions on these days, while three visited more than 10 times each.

It is also noted that, of the 71 staff members listed, 15 have not as yet been certified as having Top Secret clearance.

On 11/15/77, the above statistics were brought to Mr. Blakey's attention by SA D. O. Coulson, Legal Counsel Division, and SA J. T. Aldhizer, Congressional Inquiry Unit, Special Investigative Division, who also advised him of required standards of security and the need to limit access to a minimum number of individuals with Top Secret security clearance needed to serve liaison functions. All others having need to review matters would be afforded escort.

Mr. Blakey stated a valid case had been made and advised he would review his needs for a resubmission request, adding a response to his letter of 11/8/77, would not be necessary.

HOUSE SELECT COMMITTEE ON ASSASSINATIONS

Pursuant to a written request by captioned committee, SA [REDACTED] was interviewed by Staff Counsel John Hornbeck on November 8, 1977. This interview was primarily along the lines of attempting to develop background information concerning Santo Trafficante with particular reference being made to his activities and associates during the late 1950s and until the date of President John F. Kennedy's assassination in 1963. (b)(7)(C)

SA [REDACTED] explained the fact that he was not in a position to furnish any information of this description with regard to this specific time frame since he was not assigned to Tampa, Florida, until November, 1966, and subsequent to that date has never been the Case Agent in any investigation involving Santo Trafficante. Mr. Hornbeck was advised that SA [REDACTED] since 1967 had participated in some of the investigation concerning Trafficante on a very limited basis and as a result the identities of known contacts, associates, and activities of Trafficante in the Tampa, Florida, area which were developed as a result of this participation were made available. (b)(7)(C)

Re: James P. Hosty, Jr.

Dear Mr. Coulson:

I am enclosing the original of the letter addressed to Attorney General Griffin Bell and signed by Mr. Hosty. As you are aware, in this letter Mr. Hosty requests the Attorney General to authorize the continued payment of legal fees to Mr. Bray of this firm for the representation of Mr. Hosty in his appearances before Congressional committees and other related matters. Assuming that Mr. Hosty's letter meets with your approval, please forward it to the appropriate person(s) at the Department of Justice. Unless I hear from you or the Department of Justice to the contrary, we will follow the same procedure in submitting our bills as we have in the past.

Thank you for your attention to this matter.

Very truly yours,

Francis X. Lilly

HSCA

The Committee's attention is being directed to the fact that these booklets contain information that proved to be incomplete or erroneous in the light of subsequent investigation or inquiry conducted by the FBI, other agencies and the Warren Commission after January 13, 1964. However, all information set forth in them was based on the best data available at the time the booklets were prepared for dissemination.

When you approve, an FBI representative will deliver copies of the five requested briefing booklets to the HSCA. Only third agency material has been excised or deleted.

Attention: Mr. Robert L. Keuch

NOTE: This matter has been coordinated with the Legal Liaison and Congressional Affairs Unit (LLCA), Legal Counsel Division, with the Document Classification Office, Records Management Division, and with Assistant Attorney General Robert L. Keuch. Review of material to be delivered disclosed no necessity to classify any elements of information therein and Mr. Keuch agrees with the thrust of this response and the mode of delivery. The five enclosures are detached because of their bulk and are to be delivered directly to the Committee by a representative of the LLCA Unit when approved by Mr. Keuch. The material to be delivered consists of an FBI summary report prepared during the first week of December, 1963, a supplemental report dated January 13, 1964, and three volumes of exhibits. The file discloses this material was originally prepared for and disseminated to the White House, Warren Commission and prominent Bureau and Government officials. Only third agency information and documents are now being excised and deleted respectively. While the third agency is identified in each instance, it is felt that this Bureau should not be required to go further and identify the proper persons in each agency to which requests should be directed for the information or documents.

ENCLOSURE 62-117290-359

House Select Committee on Assassinations

**Volume V - "Investigation of
Assassination of President John F. Kennedy,
November 22, 1963 - Exhibits, Volume III."**

Only information and documents obtained by the FBI from other agencies have been excised or deleted from these booklets; however, in each instance the source agency has been identified to assist the Committee should it choose to contact the source agencies directly.

It must be noted that a review of these booklets discloses some information that has since been shown to be incomplete or erroneous in light of subsequent investigation or inquiry conducted by the FBI, other agencies and the Warren Commission after the booklets were prepared.

An example of incomplete and erroneous information may be found in Volume I, page 18, (prepared approximately December 5, 1963, and prior) where it is stated:

"... Medical examination of the President's body revealed that one of the bullets had entered just below his shoulder to the right of the spinal column at an angle of 45 to 60 degrees downward, that there was no point of exit, and that the bullet was not in the body. . ."

Commenting on this same wound in 1964, the "Report of the President's Commission on the Assassination of President John F. Kennedy," on Page 60 stated:

"The autopsy also disclosed a wound near the base of the back of President Kennedy's neck slightly to the right of his spine. The doctors traced the course of the bullet through the body and, as information was received from Parkland Hospital, concluded that the bullet had emerged from the front portion of the President's neck that had been cut away by the tracheotomy at Parkland. . ."

House Select Committee on Assassinations

In 1968, a panel of prominent physicians reviewed photographs, X-ray films, documents and other evidence pertaining to the assassination of President Kennedy and stated as follows with regard to the President's back wound:

"The other bullet struck the decedent's back at the right side of the base of the neck between the shoulder and spine and emerged from the front of his neck near the midline. . ."

It must also be noted, however, that the information contained in these booklets is based on the best data available to the FBI at the time each booklet was prepared.

When approved, a representative of the FBI will deliver copies of the five requested briefing booklets to the HSCA.

TO : The Associate Director

DATE: 12/14/77

FROM : Legal Counsel

SUBJECT: HOUSE SELECT COMMITTEE ON ASSASSINATIONS

PURPOSE:

The purpose of this memorandum is to establish procedures for handling requests from captioned committee that will reveal information furnished to the FBI by foreign governmental agencies.

DETAILS:

The Congressional Inquiry Unit of the Special Investigative Division has raised a question with the Legal Counsel Division as to the proper procedure of handling requests that will reveal information furnished to the FBI by foreign governmental agencies. It should be noted that in many cases foreign governmental agencies have advised the FBI that they do not want to be identified as having furnished information to the FBI on a confidential basis. In view of this fact it is felt that procedures for handling these requests must be established that differ from procedures that are used where U.S. governmental agencies have furnished information to the FBI. In dealing with information supplied by other U.S. governmental agencies the committee is advised that the requested information has been received from another governmental agency, the agency is identified and the committee is referred to that agency for access to the information. It is Legal Counsel's opinion that where the request would reveal information from a foreign governmental agency, the material should be deleted in its entirety and the committee should only be advised that the information came from a foreign governmental agency. If the committee then desires access to this

information the FBI through the Liaison Unit, Intelligence Division, will ascertain from the foreign governmental agency its views regarding furnishing the identity of the agency and the specific information requested. This matter has been discussed with representatives of the Intelligence Division and they concur with Legal Counsel's opinion.

RECOMMENDATION:

That where requested information would reveal material furnished by a foreign governmental agency, the material be deleted in its entirety and the committee advised that the information was obtained from a foreign governmental agency. When the committee requests the identity of the foreign governmental agency or the specific information, the FBI through the Liaison Unit, Intelligence Division, will ascertain from the governmental agency its views regarding furnishing the identity of the agency and the information requested.

The purpose of this memorandum is to advise of contact with Mr. G. Robert Blakey, Chief Counsel, captioned Committee, regarding the number of requests that will be directed to the FBI by captioned Committee in the near future.

DETAILS:

On November 28, 1977, SAs Drew J. Clark and John T. Aldhizer III of the Special Investigative Division, and Danny O. Coulson of the Legal Counsel Division, met with Mr. Blakey to discuss the number of requests that will be forthcoming from the Committee. Mr. Blakey advised that the Committee had decided to concentrate its efforts with regard to the assassination of President John F. Kennedy into areas regarding the association of Jack Ruby with various organized crime figures. The Committee will explore the possibility that Ruby may have been part of a conspiracy that involved Lee Harvey Oswald. Mr. Blakey further advised that the Committee will be conducting a "grand jury type investigation" into Ruby's associates and activities and emphasized the need for timely response from the FBI to Committee inquiries. Mr. Blakey advised that the FBI's responses in the past have been adequate for the Committee's needs, however, with regard to this new area of inquiry a delay in response could jeopardize the Committee's efforts. He indicated that the Committee will be calling numerous individuals to testify and that quick access to FBI information is absolutely essential to the Committee. He stated that he would like to submit requests to the FBI on the Monday of each week in order to receive a response on the following Friday.

RECOMMENDATIONS:

(1) That the Special Investigative Division furnish its views regarding the adequacy of manpower and the ability to respond to the Committee's request in the time frame outlined by Mr. Blakey.

ADDENDUM SPECIAL INVESTIGATIVE DIVISION ^{68F} GJF:sas 12/7/77

The Congressional Inquiry Unit (CIU) was formed 11/76, and consisted of a unit chief, four supervisory agents, two stenographers and five service and support personnel. Subsequently, two research analysts (GS-9) were temporarily assigned to the CIU from the FOIA Section. These two research analysts both have returned to FOIA. As of 12/7/77, the complement of the CIU is one unit chief, four agents (one agent currently under transfer), one stenographer, two research analysts (GS-7) and three service and support personnel.

In view of the anticipated increase in the workload and with a short deadline to respond to the HSCA, contact was made with Inspector - Deputy Assistant Director Allen H. McCreight who advised 12/6/77, that the two research analysts who had previously been temporarily assigned to the CIU might be temporarily reassigned in the event of a heavy increase of workload. A memorandum has already been submitted requesting a replacement for SA John T. McGirl currently under transfer to Albany. In order to promptly respond to the requests from the HSCA, and based on past experience in handling previous requests, it is recommended that an additional stenographer and two experienced service and support personnel be assigned to the CIU. An analysis of the personnel requirements of the CIU will be made in five months.

JP
APD
27
JSH/DOC
ADD/HWC

Since Special Investigative Division addendum dated 12/7/77, the only experienced Clerk-Stenographer assigned to the Congressional Inquiry Unit, Sharon A. Sutherland, is being transferred to Division Six. An experienced Clerk-Stenographer for Sharon A. Sutherland is necessary. SA Drew J. Clark is working on a special matter in connection with the Kennedy assassination which will fully occupy his time and may necessitate his being in a travel status for the next three to four weeks. A temporary replacement for three to four weeks for SA Clark is necessary.

The Congressional Inquiry Unit has received from the HSCA since 12/1/77, 19 written requests. One of these requests dated 12/16/77, is ten pages and contains 80 individual requests. Another request dated 12/22/77, contains 16 requests, one of which requests access for the FBI file on "La Cosa Nostra" from 1/1/64, through 4/1/65. This request requires a thorough review of the file for excising material, Xeroxing the file and coordinating with the Organized Crime Section information that will be furnished to the HSCA. According to information recently received from Mr. Blakey, Chief Counsel and Director, HSCA, hearings are to commence the first or second week in January in both the King and Kennedy assassinations. These hearings will be approximately three days a week and will result, according to Blakey, in numerous requests of the Bureau with short deadlines. If the HSCA is unable to fulfill its commitments based on their requests, in all likelihood the HSCA could claim the failure, in part, was due to the FBI to answer its requests in a timely manner.

In view of the above, it is felt that the need for additional personnel on a temporary basis is justified and necessary.

TO : Mr. McDermott

FROM : H. N. Bassett

SUBJECT: HOUSE SELECT COMMITTEE
ON ASSASSINATIONS (HSCA)

PURPOSE: To advise of meeting on 1/13/78 with Mr. G. Robert Blakey, Chief Counsel and Director, House Select Committee on Assassinations (HSCA), and his current requirements which will heavily task this Bureau's resources.

DETAILS: On 1/13/78 William Bailey, Deputy Assistant Director; Danny O. Coulson, Legal Counsel Division; George J. Foster, Unit Chief, Congressional Inquiry Unit; David Ryan, Section Chief, Document Classification and Review Section, and I met with Mr. Blakey in my office. Mr. Blakey indicated that while the Bureau has been prompt in handling requests from his committee, he wanted to emphasize that the "crisis" will be in the next 60 to 90 days and that prompt delivery of the material requested will be necessary since they will be conducting "grand jury" type hearings.

Mr. Blakey commented he has met with CIA officials regarding the need for expeditious delivery of material requested by the committee and the Agency has agreed to endeavor to make available such material within five days. To accomplish this deadline, the Agency has placed ten full-time employees on the project. Blakey expressed the opinion more material would be requested of the Agency than of the FBI.

When asked his estimate of the volume of material to be requested of the FBI, Blakey responded it would be somewhere in the vicinity of 500 volumes (100-150 pages per volume).

Blakey stated the four prime objectives of the committee are to determine (1) if Oswald was responsible for the assassination; (2) if Ruby was involved in a conspiracy; (3) if the Government agencies (FBI,

CIA, Secret Service, Warren Commission, etc.) acted efficiently and properly; and (4) to prepare positive recommendations in accordance with the committee's mandate. He stated a key issue in the committee's endeavors relates to the credibility of the FBI and it was necessary for the Bureau to make full and complete disclosure.

While Mr. Blakey assured of his complete cooperation in pin-pointing areas of requests, there was no doubt the committee is going to be demanding on a highly expeditious basis a wide range of material which will severely task this Division's resources. Inasmuch as the Attorney General and the Bureau have pledged complete cooperation, we have no alternative but to comply with these anticipated requests. In fact, in order to handle the current requests, we have temporarily assigned four support persons from other Units in the Document Classification and Review Section to assist the Congressional Inquiry Unit. Further, we have assigned Records Branch personnel temporarily to expedite necessary Xeroxing. It is very probable we may have to rely upon Freedom of Information/Privacy Acts Branch personnel if the committee demands accelerate as Mr. Blakey has indicated.

RECOMMENDATION: For information.

SUBJECT: HOUSE SELECT COMMITTEE
ON ASSASSINATIONS

PURPOSE:

To record information received concerning a letter of criticism by Staff Director Blakey of captioned Committee.

SYNOPSIS AND DETAILS:

At 12:45 p.m. on February 1, 1978, Inspector Hotis told me that Judge William Webster advised him that he had received a letter from Staff Director Robert Blakey of captioned Committee in which Blakey was critical of the time delay involved in the FBI's response to requests for information and documents by his Committee. Judge Webster told Hotis that he did not intend to respond to the letter.

The purpose of recording this information in our files is to advise you and others dealing with this Committee of the efforts being made by the Committee staff to encourage the FBI to use additional resources in order to respond more promptly to the Committee requests.

Memo to The Director from Legal Counsel
Re: House Select Committee on Assassinations

ADDENDUM: (ASSISTANT DIRECTOR H. N. BASSETT:jmr 2-2-78)

With regard to captioned matter, I, too, received a letter from Blakey dated 1-27-78, copy of which is enclosed, and in which Blakey is complaining regarding the time delays on the part of the FBI in response to his Committee's requests. An appropriate communication will be prepared and sent through in the immediate future concerning this matter.

I would like to record that Blakey called me on Monday, 1-30-78, and advised that such a letter was forthcoming. During that conversation he made specific reference to the Committee's request of 12-16-77 and the fact that the material still was not forthcoming. I told Mr. Blakey that I perceived a possible breakdown of communication. I noted that at the very moment of his call I was having a conference relating to requests by his Committee and had been informed that we were meeting the Committee's deadlines and that the reason the 12-16-77 request had not been complied with was due to the fact that Committee members had advised that there were other requests of a higher priority.

The foregoing is for record purposes and, as noted above, detailed information concerning this situation will be forthcoming in the immediate future.

NOTE: Based on the time period of interest to the HSCA, only Sections 68 through 80 of the Southern Christian Leadership Conference (SCLC) file have been prepared for HSCA access.

The Black Nationalist-Hate Groups Counterintelligence Program (COINTELPRO) file (100-448006) was reviewed for the period of interest to the HSCA, January 1, 1967, to May 1, 1968. From this file approximately 25 serials relating to actions or considered actions against King and SCLC have been processed for Committee access.

The Communist Party U. S. A. (CPUSA) COINTELPRO file (100-3-104) was not reviewed for material pertaining to King or SCLC. There was previously conducted at FBIHQ a thorough review of COINTELPRO files. Summaries of all actions were prepared in order to respond to Department and Congressional inquiries about the scope and depth of the programs. Therefore, serials in this file pertaining to King and SCLC have already been identified. These serials, approximately 15 in number from 1962 to 1968, have been processed for the HSCA (100-3-104-34).

It should be noted that the majority of counterintelligence-type activities against King and SCLC were carried out in their substantive investigations and not under any COINTELPRO.

To date, Congressional Inquiry Unit procedure has been to remove classified information from material being prepared for HSCA access and to make the classified material available upon request only to HSCA staff member with appropriate security clearance. Since most staff members now have their clearances and the volume of classified serials involved in this request is considerable, all classified information is being left in the material processed for the HSCA. The Congressional Inquiry Unit will insure that only HSCA staff members with security clearances will be granted access to these files.

Other items in the HSCA request of 11/30/77, are being prepared and upon completion a response will be submitted.

NOTE: Based on the time period of interest to the HSCA, only Sections 63 through 83 of the King Security File have been prepared for HSCA access. All five sections of the Sanitation Workers Strike file fall within the time period of interest to the HSCA.

Per HSCA requests dated January 9, 1978, and
March 7, 1978, the HSCA requested [REDACTED] HSCA

[REDACTED] Pursuant to the Memorandum
of Understanding, this information was made available for the
HSCA by Director letters to Assistant Attorney General, Criminal

[REDACTED] Mr. Speiser orally requested [REDACTED]

An informant file relating to [REDACTED]
was located and reviewed. A communication from [REDACTED]
[REDACTED] of the FBI to FBI Headquarters dated [REDACTED] b7D
reflected [REDACTED] volunteered information to the FBI on one
occasion but the possibility of him furnishing valuable infor-
mation was considered unlikely. A notation on this communication
reflected that the Bureau telephonically advised [REDACTED]
[REDACTED] that contact with [REDACTED] should not be initiated.
Additionally, the [REDACTED] informant file reflected
that, by communication dated [REDACTED] no consideration
was being given to opening [REDACTED] as an informant.

Mr. Speiser was advised of the above information and
he requested a copy of that communication. On March 15, 1978,

U. S. HOUSE OF REPRESENTATIVES (HSCA)**

Reference is made to the letter to the Attorney General from G. Robert Blakey, Chief Counsel and Director, HSCA, dated February 6, 1978, which requested, in connection with the HSCA's investigation into the assassination of Martin Luther King, Jr., delivery of certain information in the files of FBI Headquarters. Specifically, this letter requested [REDACTED]

ALL INFORMATION CONTAINED
HEREIN IS UNCLASSIFIED
DATE 1-10-86 BY SPINACME

In an effort to comply with the above request of the HSCA, a search was conducted on subjects four through seven, listed above. Thereafter, references were located only on Carol and Albert Pepper.

With respect to the financial records of James Earl Ray, as the Committee is aware, the FBI conducted an extensive investigation in this area, and, as such, it is not possible to segregate the requested information without a review of the King assassination file (MURKIN), which is not feasible at this time. The Committee has been given access to the MURKIN file and has been delivered the Memphis Field Office file, either of which would contain all of the requested information regarding Ray.

The HSCA letter of February 6, 1978.

Two St. Louis reports dated May 10, 1968, and June 25, 1968 (Bureau files 44-38861-3333 and 44-38861-4760), were located and reviewed. These two reports contained all the information referred to above regarding the Peppers and some of the information regarding Jerry and John L. Ray. The pertinent pages of these two reports have been processed and are attached. Included in this attachment is information regarding Ray's father, Jerry Raynes, due to the obvious interconnection of the financial affairs of Raynes and Carol Pepper. Where information is not provided, it is, as stated above, because the information has already been furnished, is not retrievable, or is not being furnished pursuant to the Memorandum of Understanding.

HOUSE SELECT COMMITTEE ON ASSASSINATIONS
U. S. HOUSE OF REPRESENTATIVES (HSCA)

Enclosed are the original and two copies of a memorandum advising HSCA that additional material on Yuri Ivanovich Nosenko has been prepared for its access.

Reference is made to my letters of February 10, 1978, and March 8, 1978, with memoranda enclosed, which also addressed the Committee's request for information on Nosenko.

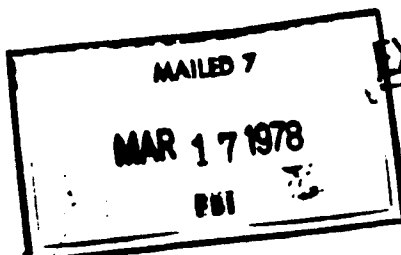

You are requested to furnish a copy of the memorandum to HSCA.

Enclosures (3)

NOTE: This matter has been coordinated with Section CI-1, Intelligence Division, which advised that discussions with G. Robert Blakey, Chief Counsel and Staff Director, HSCA, on 3/3/78, also resulted in our agreement to provide access to documents in the Nosenko file that relate to the assassination of President John F. Kennedy. This will confirm telephonic notice made to Blakey on 3/16/78 that such material was available.

**HOUSE SELECT COMMITTEE ON ASSASSINATIONS
 U. S. HOUSE OF REPRESENTATIVES (HSCA)**

This is to confirm that the FBI has agreed to provide access to additional documents pertaining to Yuri Ivanovich Nosenko.

This is also to advise that such retrievable documents found in the FBI's Nosenko file relating to the assassination of President John F. Kennedy are available for HSCA access in Room 8988 at FBI Headquarters (FBIHQ).

On February 17, 1978, G. Robert Blakey, Chief Counsel and Staff Director, HSCA, and two of his associates were afforded a briefing on Nosenko at FBIHQ. As a result of this meeting and a second meeting on March 3, 1978, between Mr. Blakey and representatives of the FBI's Intelligence Division, it was agreed that retrievable documents relating to the assassination of President John F. Kennedy in the FBI's Nosenko file would be prepared for Committee access.

Pursuant to Mr. Blakey's subsequent request on March 16, 1978, for access to [REDACTED] HSCA [REDACTED] personnel of the FBI's Intelligence Division have identified a working paper dated September 20, 1968, which reviewed and analyzed material in an earlier Central Intelligence Agency (CIA) study dealing with Nosenko's bona fides. Copies of the working paper were furnished to CIA as enclosures to an FBI memorandum dated October 1, 1968, under the Nosenko title. A copy of the October 1, 1968, memorandum, which summarizes the FBI's observations on the CIA study, is being included in the aforementioned documents compiled for HSCA review. Since the working paper itself almost solely addresses CIA observations, the FBI will have to effect coordination with CIA relative to your request for access to it. If the CIA interposes no objection to HSCA access, the FBI will, of course, grant same.

SUBJECT: HOUSE SELECT COMMITTEE ON ASSASSINATIONS

PURPOSE:

The purpose of this memorandum is to advise of the possibility that agents who are interviewed by captioned Committee may be placed under oath.

DETAILS:

On 3/30/78, Michael Eberhardt, Staff Counsel for captioned Committee advised that the Committee had decided that in view of the large number of agents that will be called as witnesses by this Committee, a decision had been made to place certain agents under oath at the time of interview. This will be done in order to avoid the necessity of a large number of agents appearing before the Committee itself. Certain agents will be placed under oath pursuant to rule 4.1 of the Committee which provides, "Pursuant to House Resolution 222, counsel on the committee staff may be designated to obtain statements from a witness who is placed under oath by an authority who is authorized to administer oaths in accordance with the applicable laws of the United States or of any State."

It should be noted in dealing with other Committees of Congress, notably the Senate Select Committee on Intelligence, agents have been placed under oath by Committee Members and subsequently interviewed by staff personnel. This procedure on the part of the House Select Committee on Assassinations does not depart from procedures of other

PURPOSE: To set forth identities of analysts of the Special Case Review Unit (SCRU) and the Special Projects Review Unit (SPRU), Document Classification and Review Section, who will be assigned during the period 2/21-24/78 to work in connection with the processing of expedite requests levied upon the Congressional Inquiry Unit by the House Select Committee on Assassinations (HSCA).

DETAILS: At a meeting with the Assistant Director and Branch Chiefs of the Records Management Division with personnel of the Document Classification and Review Section and the Records Section on 2/21/78, ways and means by which this Bureau could further expedite processing of the expanding requests of the HSCA for information in our files were considered. It was decided in order to meet the immediate requests of the HSCA, 15 analysts would be temporarily loaned to the Congressional Inquiry Unit from the SCRU and ten would be loaned to the Congressional Inquiry Unit from the SPRU. This temporary assignment would cover the period 2/21/78 to 2/24/78, at which time this matter will be reassessed to determine future personnel needs. The analysts involved are:

Unit Chiefs of the SCRU and SPRU should endeavor to utilize their remaining manpower in an effort to meet court orders and other expeditious requests relating to civil litigation. Any "crisis" situation arising requiring a return of the analysts on loan should be immediately brought to the attention of the Section Chief.

Where circumstances permit and it is in the interests of efficiency in the expeditious processing, the above personnel should be asked to work overtime.

DATE: 4/19/78

FROM : Legal Counsel *J. J. J.*

SUBJECT: HOUSE SELECT COMMITTEE ON ASSASSINATIONS (HSCA)

PURPOSE:

The purpose of this memorandum is to recommend procedures for handling material that was furnished to the Senate Select Committee on Intelligence (SCI) and is now being requested by the captioned Committee.

DETAILS:

It should be noted by way of background that captioned Committee requested the SCI to provide it with information previously supplied by the FBI with regard to the Assassination of President John F. Kennedy to the Senate Select Committee to Study Governmental Operations With Respect to Intelligence Activities. This material is now in the custody and control of the SCI. This Committee did not desire to furnish this information directly to the HSCA, but instead had representatives of the Committee deliver to FBIHQ the previously furnished information. These documents were Xeroxed at FBIHQ in the presence of a representative of the SCI. An agreement was reached between the HSCA and the FBI whereby Committee staff members would be allowed access to this information at FBIHQ. The notes that were taken by the staff members were to be properly classified by a document classification officer. Because of the nature of the notes taken on this information, it was determined that it would not be possible to properly classify these notes.

Memorandum to the Assistant Director
Records Management Division
Re: HOUSE SELECT COMMITTEE ON ASSASSINATIONS (HSCA)

On 4/5/78 a meeting was held with Miss Jacqueline Hess, Chief Researcher for captioned Committee, and SAs James W. Gerblick, Records Management Division, Drew J. Clark, Records Management Division, and Danny O. Coulson, Legal Counsel Division. At this meeting, Miss Hess was advised that the notes taken by staff members with regard to the Senate material were not of such a nature that would allow for their classification. It was agreed that the staff members who had taken these notes would go back through the material they had previously reviewed using their notes and would indicate on a selective basis specific documents that were needed for their information. These documents would be excised according to the current Memorandum of Understanding and classified where appropriate. This would be done with regard to the first ten volumes of material to see if the procedure is satisfactory to both parties.

This material was discussed with Robert Keuch, Special Counsel for the Attorney General, on 4/13/78, who concurred with these procedures.

RECOMMENDATION:

None. For information.

PURPOSE: To provide details of a contact at the National Archives and Records Service (NARS) regarding a document pertaining to the assassination of President John F. Kennedy (Bufile 62-109060).

DETAILS: On March 29, 1978, SA Danny O. Coulson, Legal Liaison and Congressional Affairs Unit, Legal Counsel Division, requested that SA Clark contact NARS regarding an FBI document that HSCA was requesting access to or delivery of.

On March 29, 1978, SA Prew J. Clark met with Miss Trudy Peterson, Assistant to the Archivist, NARS. She located FBI letter to Robert B. Olsen, dated April 21, 1975, captioned "Commission on CIA Activities Within the United States," with attachments, copies of which are attached, which she stated HSCA was requesting that NARS provide. The document, minus attachments, is Serial 58 in Bufile 62-116391 with an unrecorded copy designated to Bufile 62-109060, "Assassination of President John F. Kennedy."

Peterson advised that HSCA claimed it had asked the FBI for the same document but was told that it could not be found. Peterson was advised that no request for this document had been received from HSCA to SA Clark's knowledge.

SA Clark reviewed the document at NARS and furnished a signed note to Peterson which stated that the document had been reviewed and found to be appropriate for access by HSCA. The question of whether or not NARS could deliver the document to HSCA, if requested to do so, was raised. Peterson was advised that SA Clark could grant no authority to NARS to deliver the document to the HSCA since the FBI required the HSCA to furnish written requests for any item to be delivered.

Since no HSCA request for this document could be located in the Congressional Inquiry Unit, on 4/17/78, Ms. Jacqueline Hess, HSCA, asked if HSCA required access to or delivery of this document. She declined, advising that she felt the Committee's needs had been met by viewing the document at NARS. She also advised that she could not recall that HSCA had requested access to or delivery of this document from the FBI in the past.

RECOMMENDATION: For information.

YOUR NO.

Examination requested by: Addressee

Reference: Two letters dated April 2, 1975, and April 4, 1975,
directed to Mr. James A. Wilderotter

Examination requested: Photographic

Twenty-one photographs of E. HOWARD HUNT

Thirty-four photographs of FRANK STURGIS

Result of examination:

The photographs of E. HOWARD HUNT were compared with the shortest and oldest of the three men arrested in Dallas, Texas, on November 22, 1963, as depicted in photographs previously furnished to the FBI Laboratory with the following results:

1. The shortest and oldest man of the three men arrested in Dallas, Texas, on November 22, 1963, compared with photographs of E. HOWARD HUNT, shows a marked and significant age difference, with Mr. Hunt having a much younger appearance.

2. The jowl area of the chin of the oldest man has protruding pouches while this area of HUNT's chin is smooth and tightly contoured.

Enclosures (3)

Page 1

(over)

3. The nose of the oldest man appears more bulbous while the nose of HUNT is more angular or pointed.

4. There appear to be some inconsistencies in the ear contours; however, the known photographs of HUNT show differences in the ear contours between the late 1950 photographs and the mid to late 1960 photographs. The ear contours of the oldest individual in the Dallas photographs are different from the ear contours of HUNT in the mid to late 1960 photographs.

All of the above characteristics are considered sufficient to support the opinion as previously stated that the oldest individual in the Dallas photographs is not E. HOWARD HUNT.

The tallest of the three men arrested in Dallas, Texas, on November 22, 1963, and shown in the photographs previously furnished to the FBI Laboratory, was compared with the photographs of FRANK STURGIS with the following results:

1. The tallest of the three men in the Dallas photographs has the general appearance of a Nordic type and FRANK STURGIS has a very definite appearance of a Latin.

2. FRANK STURGIS has very black wavy hair, and the Nordic individual has light or blonde straighter hair.

3. FRANK STURGIS has a rather round face with square chin lines and the Nordic individual has an oval shaped face with a less square or more rounded chin.

4. The ratio of the length of the nose to the height of the forehead from the bridge of the nose to the hairline shows these measurements approximately equal on STURGIS as compared to a greater forehead height than nose length on the Nordic individual. This is most obvious in the right profile where the nose and forehead of STURGIS measure approximately 7/8 inch. The nose of the Nordic individual measures 7/8 inch, and the forehead approximately 1 3/8 inches.

5. Some differences in ear contours were noted with the right ear of STURGIS being slightly triangular in shape.

6. The left ear of STURGIS has a slight projection along the outer edge about one-third down from the top. This projection does not appear in a similar view of the left ear of the Nordic individual.

7. The general outer contour of the left ear is more triangular on STURGIS and has a more distinct lobe, while the ear of the Nordic individual is wider at the lower half and has very little lobe.

8. Differences were noted in the nose contours and general facial contours between comparable photographs of STURGIS and the tallest individual in the Dallas photographs.

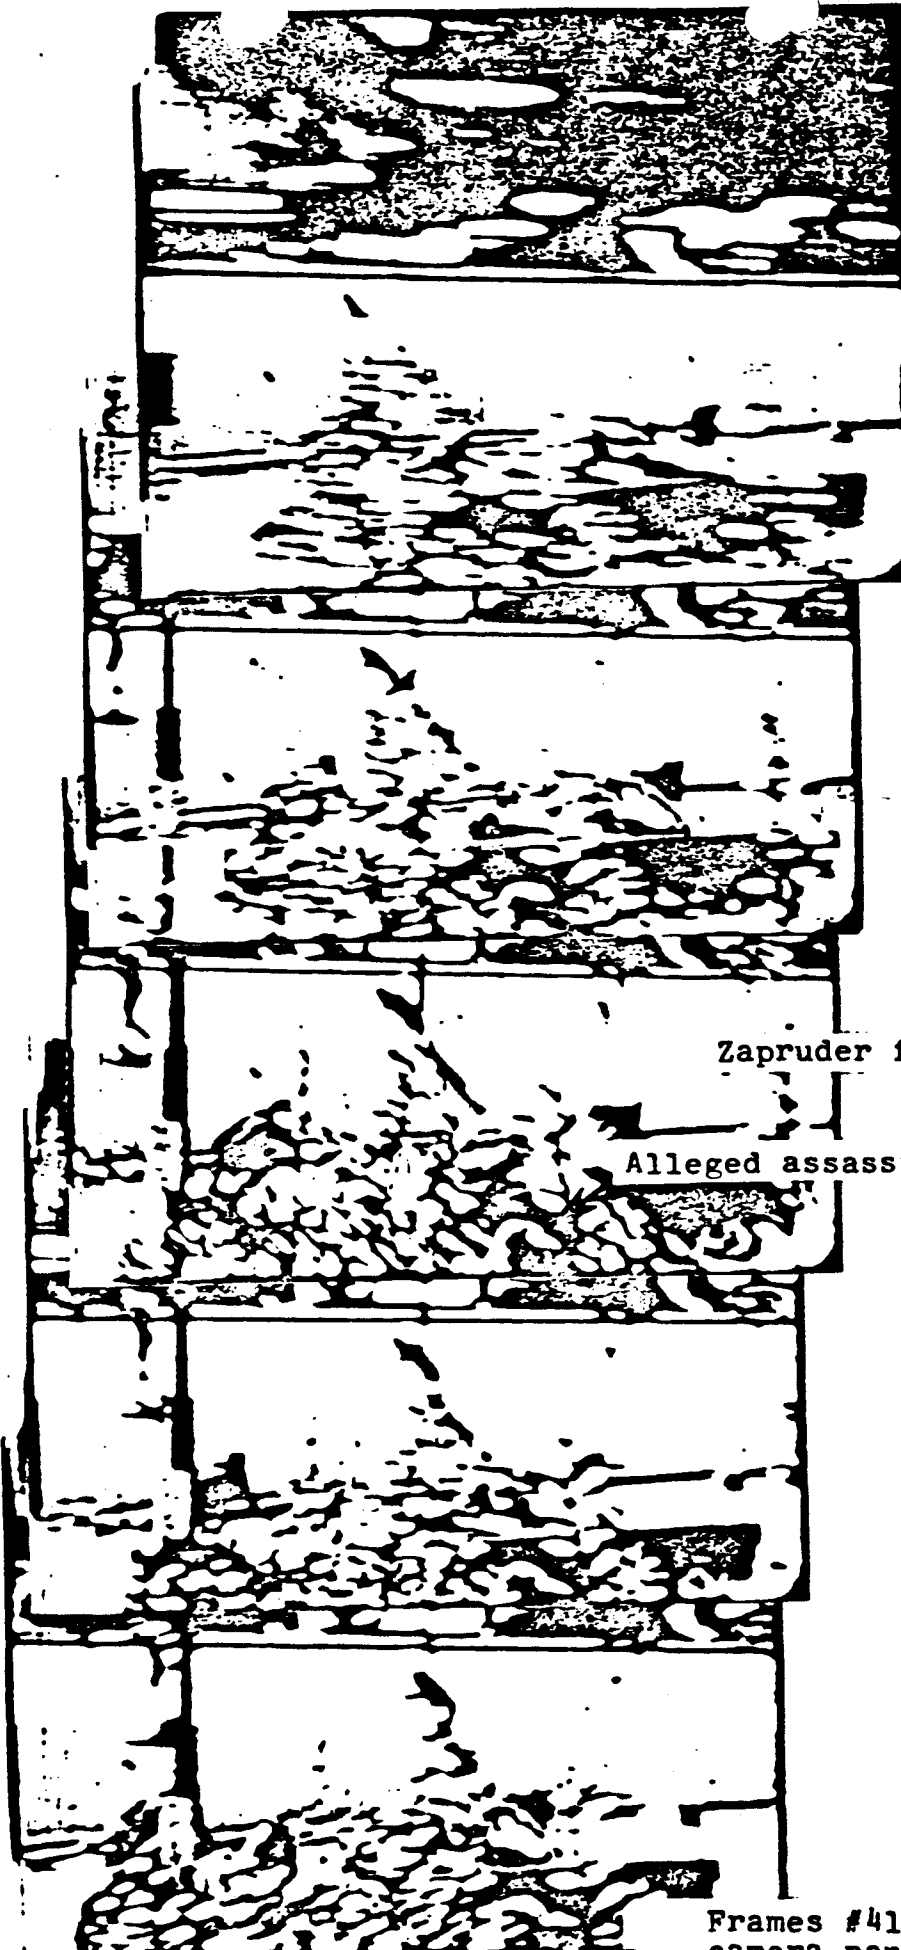

All of the above characteristics strongly support the previously stated conclusions that the tallest of the three individuals arrested in Dallas, Texas, on November 22, 1963, is not FRANK STURGIS.

Further, it is the opinion of this Laboratory, based on the examination conducted, that neither E. HOWARD HUNT nor FRANK STURGIS appear as any of the three "derelicts" arrested in Dallas, Texas, as shown in the photographs submitted.

Your request for a determination of the height of the individuals in the Dallas photographs based on an on-site study is under investigation, and this study will be made as soon as appropriate background information can be obtained.

The thirty-four photographs of FRANK STURGIS and the twenty-one photographs of E. HOWARD HUNT that you furnished for this examination are attached. Copies of these photographs have been retained in the FBI Laboratory.

One set of these photographs is attached for your files.

PURPOSE: To provide details concerning delivery to the Central Intelligence Agency (CIA) of CIA documents from the Senate Select Committee on Intelligence (SSCI) material.

DETAILS: On 2/16/78, SAs Danny O. Coulson, Legal Counsel Division, and Drew J. Clark, Records Management Division, met with G. Robert Blakey, Chief Counsel and Director, HSCA, and staff representatives of the SSCI. The HSCA had requested SSCI deliver certain documents pertaining to the assassination of President John F. Kennedy, which the FBI had originally furnished to the SSCI; however, the SSCI declined to do so and instead turned such documents over to the FBI (58 volumes).

By letter of 2/16/78, the HSCA requested delivery of these documents from the FBI. On 2/17/78, Mr. Bassett met with Mr. Blakey and proposed the FBI provide access to the documents in their present form if the HSCA agreed that notes taken by the HSCA after reviewing these documents would not leave FBI Headquarters until they were reviewed for classification and other matters. At this meeting, SA Coulson advised that third agency documents contained in the 58 volumes had previously been referred and cleared for release by the respective agencies. Assistant Attorney General Robert L. Keuch agreed the matter might be handled as Mr. Bassett proposed. Mr. Bassett had also informed Mr. Blakey that individual documents might be provided after processing if the Committee required same. Bureau response to the 2/16/78 HSCA request is dated 2/24/78 and the HSCA subsequently agreed to Mr. Bassett's proposal.

The FBI subsequently determined it was not possible to classify the HSCA notes as originally anticipated and, furthermore, the CIA requested review of its documents since it was not certain it had properly cleared all at the time they were furnished to the SSCI. Accordingly, identifiable CIA documents were removed from the SSCI material and copies were furnished to the CIA for its review on 3/28/78 by SA Coulson, who was to advise the CIA that it should make such documents available to the HSCA as the CIA saw fit to do. A copy of each document furnished to the CIA has been retained in the Congressional Inquiry Division.

Enclosed are an original and two copies of a memorandum responding in full to HSCA requests by letters of February 13, 17, and 28, 1978. These requests asked for information in file on 139 items in connection with the Committee's inquiry into the assassination of President John F. Kennedy.

Many items have been previously prepared for Committee access in accordance with other HSCA requests for priority access.

This is to advise the Committee that all remaining items, not requested previously on a priority basis, have been researched and retrievable material is available for its access.

You are requested to furnish a copy of the memorandum to the HSCA.

NOTE: This matter has been coordinated with Freedom of Information - Privacy Act Branch, Special Case Review Unit, and Special Projects Review Unit, in order to provide all material requested in HSCA letters of February 13, 17, and 28, 1978. Owing to the voluminous material available on Barney Baker, Harry Hall, and the Tolstoy Foundation, Jacqueline Hess, HSCA John F. Kennedy Staff Coordinator, furnished limiting dates and factors regarding Baker and Hall on February 22, 1978, and on the Tolstoy Foundation on March 6 and 16, 1978. The HSCA is aware that response on these remaining items has been delayed in order to respond to its other priority requests.

**HOUSE SELECT COMMITTEE ON ASSASSINATIONS
U. S. HOUSE OF REPRESENTATIVES (HSCA)**

This responds in full to the February 13, 17, and 28, 1978, letters of G. Robert Blakey, Chief Counsel and Staff Director, HSCA, to the Attorney General, wherein he requested access to information in FBI files on 139 items in connection with the Committee's inquiry into the assassination of President John F. Kennedy.

As the Committee is aware, it has made other requests which asked that many items be extracted from the above-mentioned requests and provided on a high priority, short deadline basis. Such requests have been met by the FBI. Accordingly, the Committee is also aware that the priority matters delayed a complete response to any one of the above-mentioned letters.

This is to advise that all remaining items, not requested previously on a priority basis, have been researched and the retrievable material is available for Committee access at FBI Headquarters (FBIHQ).

Retrievable material on each item is based on information furnished by HSCA for each item. In the case of Barney Baker, Harry Hall, and the Tolstoy Foundation, the Committee was able to modify the original requests by furnishing limiting dates or other limiting factors for these items. This reduced the total amount of voluminous files that required processing and proved to be mutually efficacious as it resulted in pertinent material being provided more expeditiously.

Where information is not provided, it is either not retrievable from FBIHQ files or is not being produced in accordance with the Memorandum of Understanding.

Enclosed are the original and two copies of a memorandum responding to an HSCA request by letter of March 27, 1978, signed by G. Robert Blakey, Chief Counsel and Director, HSCA.

The Committee has advised that it is convening a Photographic Panel Conference on April 6 and 7, 1978, at the Image Processing Institute, University of Southern California, at Los Angeles, California.

The HSCA has asked that the FBI make available

which the Committee intends to show at its Photographic Panel Conference. Additionally, the Committee requests that no FBI representative be present in the viewing room where the panel is assembled.

The film now being requested is the same which the FBI gratuitously offered to the Committee as a substitute on February 10, 1978, in an effort to assist the Committee when it learned it did not have the proper projectors to show two eight millimeter films it had previously requested. You may recall receiving a copy of a February 16, 1978, letter which Mr. Blakey forwarded to Director Webster thanking the FBI for this accommodation.

On February 10, 1978, when Special Agent Drew J. Clark offered the film to Committee Staff Counsel Michael Goldsmith, Special Agent Clark explicitly advised him that FBI records maintenance requirements dictated that an Agent remain with the film in the room in which the projector was located, since this film was a one-of-a-kind item in the FBI's "Assassination of President John F. Kennedy" file.

Assistant Attorney General
Criminal Division
Attention: Mr. Robert L. Keuch

Although the Committee is fully aware that it is incumbent on the FBI to preserve the chain of custody with regard to this item, HSCA now requests that any accompanying Agent leave the room when the film is shown in California.

On March 23, 1978, Committee Counsel Michael Goldsmith telephonically contacted Special Agent Clark to acquaint him with the Committee's new requirement for the film which was originally obtained by the FBI from a United Press International (UPI) representative. This 16 millimeter film replicates portions of the Orville Nix and Marie Muchmore films and contains some photo analyses work. Goldsmith explained that the Committee is impressed with the quality of this 16 millimeter film and therefore needs to work with it again. Goldsmith was reminded that on February 10, 1978, he stated that the HSCA was obtaining its own copy of this film from UPI and would therefore probably not require the FBI film copy again. To this Goldsmith responded that UPI had declined to furnish the original film for copying except under highly technical and controlled circumstances, which will result in a cost of approximately \$600 for each frame of the UPI copy that the Committee requires. Goldsmith further explained that the Committee planned to request and use the FBI copy to isolate those frames which it will eventually require from UPI.

It should be noted that when the Committee attempted to show one of the FBI's eight millimeter films on February 10, 1978, the projector being used apparently malfunctioned and caused damage to at least one of the frames in the film. On March 23, 1978, Goldsmith disclaimed knowledge of this damage although he was present in the viewing room at the time the damage occurred. Also, on March 23, 1978, Goldsmith was offered a black and white copy of the 16 millimeter UPI film in order to overcome the difficulty of an Agent's presence, but he declined this offer stating that the Committee required the same copy it viewed on February 10 and 11, 1978, which contains color segments.

Assistant Attorney General
Criminal Division
Attention: Mr. Robert L. Keuch

The enclosed memorandum advises that the FBI will make the requested film available in California, but the requirement for the continual presence of an Agent to maintain physical custody of it still remains. This will not only satisfy a custody requirement, but will also provide an on-the-scene FBI witness should any accidental damage to the film occur. The Committee is also being offered a possible solution to its difficulty with regard to the Agent's presence.

You are requested to furnish a copy of the memorandum to the HSCA.

NOTE: In a 2/6/78 response to an HSCA request of 1/30/78, the FBI agreed to make available the eight millimeter Nix and Muchmore color films for Committee viewing at FBI Headquarters. The Committee declined this and instead requested the films be made available for Committee viewing at the Dirksen Building, Capitol Hill. This was done on 2/10/78, but, when the Committee attempted to show the films, it learned it did not have the proper projectors. Also, one of the frames was damaged in the process. In the spirit of cooperation which the FBI has continuously displayed towards the Committee's work, the Committee was reminded that the 16 millimeter UPI film contained Nix and Muchmore segments which might prove useful. The Committee immediately requested the FBI's copy of the UPI version and it was immediately obtained for the Committee's use. An Agent maintained custody of the film and remained for two showings of the film on 2/10/78. Again, on 2/11/78, the Committee asked for and did view the same 16 millimeter film. This response to the Committee's current request that the same 16 millimeter film be made available for Committee viewing at the University of Southern California at Los Angeles, California, advises that the film will be made available in California if the Committee can agree to and insure the presence of an FBI Agent at the projector. This response has been coordinated with the Records Systems Section, Records Management Division, and the FBI's Legal Counsel. It is agreed that an Agent should retain custody and physical observation of this one-of-a-kind item in Bureau files.

If the Committee agrees to our terms, the film will be mailed to Los Angeles Division with appropriate instructions.

The FBI will arrange to make this film available for Committee use in California provided the Committee agrees to insure that an FBI Agent is physically present at the projector. In this regard, it is felt that the Committee can arrange a mechanical solution to its difficulty with regard to the presence of an Agent in the panel conference room by obtaining a facility that provides a separate projector booth. This arrangement would accommodate the Committee's requirements and the FBI's necessity to preserve the chain of custody of this item.

Enclosed are the original and two copies of a memorandum responding to an HSCA request by letter of March 1, 1978, signed by G. Robert Blakey, Chief Counsel and Director, HSCA. The request asked for access to information in FBI files on 11 individuals. The material has been processed and is available at FBI Headquarters.

The Committee is aware that response to this request has been delayed in order to respond to other requests to which the HSCA assigned higher priorities.

Some of the names enumerated in this request involved voluminous files. The Committee staff was able to supply limiting dates, which effectively reduced the total amount of material to be processed, thereby expediting the production of pertinent material.

You are requested to furnish a copy of the memorandum to the HSCA.

Enclosures (3)

NOTE: This matter has been coordinated with the Freedom of Information - Privacy Act Branch, which has processed the material for access. Congressional Inquiry Unit obtained limiting data from HSCA. On 3/14/78, HSCA Counsel John Hornbeck provided limiting dates as follows: Item #2 - 1951, 1958-1963; Item #3 - main file 1960 to present; Item #4 - 1958-1968; and, Item #5 - 1960 to present. On 3/21/78, Ms. Jacqueline Hess, HSCA John F. Kennedy Staff Coordinator, limited the scope of Item #11 to only that material from 1959-1969.

**HOUSE SELECT COMMITTEE ON ASSASSINATIONS
U. S. HOUSE OF REPRESENTATIVES (HSCA)**

This responds in full to the March 1, 1978, letter of G. Robert Blakey, Chief Counsel and Director, HSCA, to the Attorney General, wherein he requested access to information in FBI files on 11 individuals in connection with the Committee's inquiry into the assassination of President John F. Kennedy.

As the Committee is aware, this response has been delayed in part due to the allocation of resources to other requests to which the HSCA assigned higher priorities.

Material on Item Number 9 was previously provided in response to the Committee's February 13, 1978, request. On March 28, 1978, the retrievable material available on Item Number 4 was provided for access in response to the HSCA's urgent request for same.

This is to advise that retrievable material on the remaining nine individuals is available for Committee access at FBI Headquarters.

Retrievable material is based on information furnished by the HSCA for each individual. In this regard, Ms. Jacqueline Hess and Mr. John Hornbeck were most helpful in limiting the time frames for material required on Items 2, 3, 4, 5, and 11. This effort has proved to be mutually efficacious as it has resulted in the production of pertinent information more expeditiously.

Where information is not provided, it is either not retrievable from FBI Headquarters files or is not being produced in accordance with the Memorandum of Understanding.

Enclosed are the original and two copies of a memorandum responding, in part, to the HSCA letter of February 17, 1978, sent to Assistant Director Harold N. Bassett and signed by G. Robert Blakey, Chief Counsel and Director, HSCA. A copy of this letter is attached for your information.

The enclosed memorandum addresses that portion of the letter which relates to the Committee's acceptance of the FBI's offer to provide it with the Freedom of Information Act (FOIA) release of the "Assassination of President John F. Kennedy" files, together with the classified information in those files which was deleted from the FOIA release.

Reference is made to my letter of February 27, 1978, with enclosure, which advised that eight volumes of classified material had been prepared for delivery.

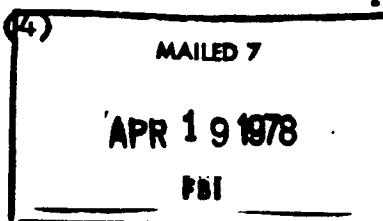

The memorandum is to confirm past deliveries of classified material and to advise that the remaining classified documents from the FOIA release are now ready for delivery as previously agreed.

You are requested to furnish a copy of the memorandum to the HSCA.

HOUSE SELECT COMMITTEE ON ASSASSINATIONS
U. S. HOUSE OF REPRESENTATIVES (HSCA)

This responds, in part, to the February 17, 1978, letter of G. Robert Blakey, Chief Counsel and Director, HSCA, to FBI Assistant Director Harold N. Bassett. In this letter, Mr. Blakey accepted the FBI's offer to provide delivery of the Freedom of Information Act (FOIA) release of documents from the FBI's files on the assassination of President John F. Kennedy, together with the classified material contained in those files which was exempted from the FOIA release.

This will confirm that eight volumes of classified documents were delivered to HSCA representatives on March 1, 1978, and on March 21, 1978, for a total of 16 volumes delivered to date.

This is also to advise that the remaining classified documents exempted from the FOIA release are now available and will be delivered to an HSCA representative at FBI Headquarters (FBIHQ). As the Committee has been advised previously, certain classified documents will be available for access only.

Where information or a document is not provided, it is either not retrievable from FBIHQ files or is not produced pursuant to the Memorandum of Understanding.

ORIGINAL AND TWO SENT TO ASSISTANT ATTORNEY GENERAL, CRIMINAL DIVISION, ATTENTION: MR. ROBERT L. KEUCH.

MEMORANDUM FOR MR. NICHOLS

Attached hereto is a copy of the Supervisors' Training Course which the writer has worked up to be given to new Supervisors who are taking over their duties from time to time in the Files Division. A review of this course will reveal that it is very brief and incomplete, but I hope worthwhile. An effort has been made only to cover the salient points involving supervision.

The writer plans to give this course of instruction personally about one-half hour per day until the course is completed, at different times. This will naturally take a lot of time and because of this, this outline has been made as brief as possible. There is a great need for an instruction course of this type and it is hoped that this course will fill the need and that it will be given in such a manner that it will bring the desired results.

Respectfully,

OK

SUPERVISORS' TRAINING COURSE

FILES DIVISION

INTRODUCTION

- I. Supervision of others is a science - volumes have been written on it - lengthy studies have been made of the subject of Supervision.
- II. This course is short - brief - and is intended only to cover the salient points regarding the science of Supervision.
- III. The Unit Supervisors are the key people in the organization - you are the "first line" Supervisor. You come in direct contact with employees - the success or failure of the organization depends directly upon you.
- IV. There are two parts to Supervision or Management:
 - A. Supervising the work - this pertains to getting the work done by others.
 - B. Supervising the personnel - this pertains to handling your employees so that they will want to work.

ENCLOSURE

ENCLOSURE

SUPERVISING THE WORK

- I. Supervision or Management is the responsibility for accomplishing results through the efforts of other people." You are a Supervisor - not a Unit worker.
- II. You must have vision - imagination - you must even "dream" - above all, you must THINK.
- III. "See Things" - be alert and alive to your surroundings - notice neatness or lack of neatness - notice the condition of the work in your Unit - see the little things - even be "old maidish."
- IV. Don't be a "Desk Supervisor" - get out on the floor - move around.
- V. Inspect constantly - check - check - check. Question every doubtful situation - dig into it - find out "why" a situation is not being handled.
- VI. Have INITIATIVE (Give dictionary definition) - do something - be aggressive.
- VII. Be prompt - get things done on time - don't have to be followed up - build a reputation for promptness and dependability.
- VIII. Know your job - learn it - dig in - always do the difficult thing first - don't bluff - get the answer.

II. Keep up to date on everything - know your work - don't get careless - if you do, you have failed as a Supervisor.

X. Be "on top" of your job - keep a tickler system (Explain this in detail). Follow up all instructions given to see if they are carried out - keep a full set of ticklers.

XI. Look out for detail - detail - detail. Check - check on everything.
BUT -

XII. Learn to delegate authority and responsibility - and then follow up to see that the job is done.

XIII. Criticize constructively when a job is not correctly done - after you have followed up and checked. Be cautious in your criticism - AND

XIV. Learn to take criticism and profit thereby. Don't be stubborn or narrow-minded - be honest with the organization and with yourself - never resent criticism - welcome it.

XV. Be open-minded - listen to suggestions - think - consider both sides of every matter before you make a decision. Don't ever conclude you know everything about your job. That is impossible and fatal.

XVI. Be a salesman - sell your job and yourself - your job is important no matter what it is - believe in it - let your superior know what

you are doing - "Keep him advised" - "Don't hide your light under a bushel."

XVII. If you make a mistake, confess it and start anew - never, never hide anything. Be HONEST.

XVIII. Be fair in your judgment of others and other Units. Don't criticize - never find fault unless you have something better to offer - don't be a chronic complainer - "Judge not that ye be not judged."

XIX. Above all, be DEPENDABLE. When you are instructed to do a thing - do it - get it done - right - in every detail.

XX. "GET RESULTS" - excuses are worthless - results only count.

XXI. Your ability alone counts - get results or be prepared to step aside for someone who can.

SUPERVISING THE PERSONNEL

I. This is the most important and the most difficult task of all.

Only a few have the ability to lead and control others.

II. To supervise personnel, you must be a leader - you must be liked - you must be respected - you must have character and you must reflect it.

III. Be HONEST with yourself first - with others next - be fair and impartial with your employees - you cannot have favorites.

IV. Be COURTEOUS - "Please" and "Thank you" bring miraculous results - don't order - ask - be a lady or a gentleman - have good manners - be pleasant - but of course be firm when necessary.

V. Be PATIENT - you must understand the importance of sympathy and of understanding itself. Remember - when an employee comes to you with a problem, it is important to him no matter how trivial it is to you - take time - listen to him - let him pour out his troubles - he will solve his own problem - never be hasty.

VI. Be friendly - "To have a friend, you must be a friend." Remember names - call your employees by their names - say "Hello" first - never snub anyone. You can be the boss and a friend at the same time. Make your employees feel you are interested in them - make

then like you first - then trust you - and never betray their trust.

VIII. Develop your personality - be alert - alive - friendly - express character and uprightness - be a Christian - make a good appearance - SMILE - be cheerful.

IX. "The worst sin and greatest human weakness is TEMPER." Never make a decision if you are angry - don't even speak - wait twenty-four hours before you act - NEVER LOSE YOUR TEMPER - never lose your poise - your control - if you do, you are no longer a leader.

X. You cannot ever become prejudiced toward an individual or a problem - be fair and open-minded - don't have likes and dislikes.

XI. Don't be conceited - "We" will accomplish more than "I." Be humble.

XII. To maintain discipline, you must be a leader - you must have control of all the traits set out above. Be firm and decisive - act promptly - you cannot hesitate. You must be respected or discipline will disappear.

XIII. Any employee can be handled. In handling a personnel problem, your first approach must always be one of friendliness, fair play, and reasoning with the employee. If this does not succeed, then quietly and firmly state the facts - what you expect the employee to do - never bluster or threaten - always be prepared to back up

with action anything you say. (How To Win Friends and Influence People - by Dale Carnegie.)

XIV. Any difficulty between two or more employees can be straightened out.

There are always two sides to any controversy - listen to both sides - get the employees involved together - let them talk - they will feel better and usually offer the solution themselves - listen to them - then step in with firmness and fairness - resort to chastisement and sternness only as a last resort but use it as forcefully as necessary. Honesty, fairness, and understanding will usually solve any personnel problem.

IV. Morale - "A mental attitude which impels the individual and the group to subordinate personal desires to the objective of the organization."

You, more than anyone else, will bring about high or low morale among your employees - "You" are the organization to most of the employees because you have closer contact with them. Praise good work done - say "Thank you" when it is deserved - be on the alert for good work - a word of praise in its proper place is far more potent than volumes of criticism. Be constructive - not destructive - encourage your people constantly - flatter when necessary. But - when necessary, deflate the egotist with proper criticism, but only when deserved.

XVI. Criticism. When it is necessary to criticize an employee, so so gently at first - you can always increase the severity of your criticism. Never use the full force of your criticism the first time. When criticizing or chastising an employee, be a lady or a gentleman -

keep your temper - be constructive - be fair and reasonable and
make the employee understand WHY he is being criticized. Strive
to make the employees feel grateful for the criticism, not resentful. -

**HOUSE SELECT COMMITTEE ON ASSASSINATIONS
 U. S. HOUSE OF REPRESENTATIVES (HSCA)**

This responds in full to the March 27, 1978, letter of G. Robert Blakey, Chief Counsel and Director, HSCA, to the Attorney General, wherein he requested delivery of photographic items from the FBI's "Assassination of President John F. Kennedy" file.

Items 1, 2, and 3 have been identified based on information furnished by the HSCA and have been duplicated. They are available for delivery in Room 8988 at FBI Headquarters.

Item 4 is not identifiable in FBI Headquarters files based on information furnished by the HSCA. On April 13, 1978, HSCA staff member, Mrs. Jane Downey, was advised of the available information in FBI Headquarters files pertaining to Item 4.

Item 1 cost \$42.04 to duplicate. Should the Committee desire, it may remit a check in that amount payable to the FBI.

The HSCA has requested access to 66 enumerated items relative to the assassination of John F. Kennedy. The material regarding 20 of the items has been prepared for HSCA access subject to the usual excisions and deletions. The remaining material is voluminous, is currently being compiled, and will be made available to the HSCA upon completion.

Additionally, on April 6, 1978, Miss Jackie Hess, HSCA, was orally advised of our forthcoming response to their request that the Bureau identify all employees, agents, and contacts involved with Anti-Castro Cuban investigations in the Miami and New Orleans Divisions during the period 1960-1964.

It was pointed out to Miss Hess that the Bureau could in no way conduct a research project of this magnitude; however, that we would make every attempt to identify employees for the HSCA given a certain amount of descriptive data, initials, etc., which might appear on specific documents reviewed by the HSCA. Additionally, Miss Hess was advised that the tenets of the Memorandum of Understanding must be adhered to regarding the identity of confidential sources and informants. Miss Hess indicated that she understood the Bureau's position and raised no objection to this response. Additionally, she indicated that she would discuss the matter with the HSCA team which generated the request.

HOUSE SELECT COMMITTEE ON ASSASSINATIONS
U. S. HOUSE OF REPRESENTATIVES (HSCA)

Enclosed are the original and two copies of a memorandum responding to an HSCA request by letter of March 23, 1978.

Retrievable information has been prepared and is available for the Committee's access at FBI Headquarters.

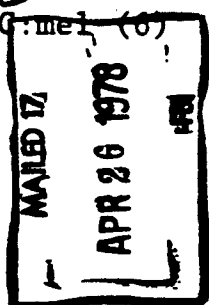

You are requested to furnish a copy of the memorandum to the HSCA.

Enclosures (3)

NOTE: On 3/29/78, Jacqueline Hess, HSCA John F. Kennedy Staff Coordinator, advised that only main files on the Fair Play for Cuba Committee (FPCC) for 1963 would be required since to respond to the Committee's request for all information on the FPCC for 1959 through 1964 would have entailed voluminous files. However, Ms. Hess also requested that the other files be checked for membership lists pertaining to Tampa and Miami, Florida; Chicago, Illinois; New York, New York; New Orleans, Louisiana; Dallas, Texas; Mexico; and Puerto Rico.

HOUSE SELECT COMMITTEE ON ASSASSINATIONS
U. S. HOUSE OF REPRESENTATIVES (HSCA)

Reference is made to letter to the Attorney General from G. Robert Blakey, Chief Counsel and Director, HSCA, dated April 28, 1978, requesting access to material in the files of the FBI pertinent to the John F. Kennedy assassination investigation.

Enclosed are an original and one copy of a memorandum which responds in part to the above request and advises that the material is available for HSCA access at FBI Headquarters.

NOTE: The HSCA has requested access to six enumerated items relative to the assassination of John F. Kennedy. A review of FBI Headquarters indices revealed that there is voluminous material regarding Item Number 1 and said material is currently being compiled and will be made available to the HSCA upon completion. In response to Item Number 2, our Los Angeles Division was instructed to contact the Los Angeles Police Department, who in turn advised that they have a similar request pending from the HSCA and they prefer to deal directly with the Committee. Items Number 3, 4, and 6 are explained in attached response. Item Number 5 has been prepared for the Committee's access subject to the usual excisions and deletions.

**HOUSE SELECT COMMITTEE ON ASSASSINATIONS
 U. S. HOUSE OF REPRESENTATIVES (HSCA)**

Reference is made to letter to the Attorney General from G. Robert Blakey, Chief Counsel and Director, HSCA, dated April 28, 1978, requesting access to material in the files of the FBI pertinent to the John F. Kennedy assassination investigation.

Retrievable information regarding Item Number 1 which is voluminous, is currently being compiled and will be made available to the HSCA upon completion. In response to Item Number 2, the Los Angeles Police Department has advised that they have a pending request from the HSCA for this material and they prefer to deal directly with the Committee. In view of this, no further action is being taken by this Bureau. Item Number 3 is a topical question and the material is not retrievable in and of itself. Information of this nature would require a serial by serial review of the John F. Kennedy and Lee Harvey Oswald files. These files have been made available to the HSCA. Therefore, no further action is being taken by this Bureau. Item Number 4 has been covered by HSCA request dated March 9, 1978, with our response being furnished April 6, 1978. This material has been made available to the HSCA for access at FBI Headquarters. Pertaining to Item Number 5, retrievable information concerning [REDACTED] (b)(7)(C) has been prepared for the Committee's access subject to the usual excisions and deletions. Where information is not provided, it is either not retrievable or is not being furnished pursuant to the Memorandum of Understanding. Item Number 6: This confirms a conversation of May 17, 1978, between John Hornbeck, HSCA, and Special Agent John S. Giaquinto, FBI Headquarters, wherein Mr. Hornbeck advised that this item should be held in abeyance until further notice. In view of this, no further action is being taken by this Bureau unless advised to the contrary by the HSCA.

POLICE DEPARTMENT, REGARDING THEIR REQUEST FOR DOCUMENTS CONCERNING THE KENNEDY ASSASSINATION. HARVEY ADVISED THAT THIS REQUEST IS STILL PENDING, AWAITING THE RETURN OF CHIEF OF POLICE DARYL F. GATES TO THE CITY OF LOS ANGELES ON MAY 19, 1978. HARVEY STATED THAT IT IS THE POSITION OF THE POLICE DEPARTMENT THAT ANY POLICE DEPARTMENT DOCUMENT AND/OR RECORDS SHOULD BE MADE AVAILABLE BY THE POLICE DEPARTMENT AND NOT THROUGH A THIRD PARTY SUCH AS THE FBI. HE FURTHER STATED THAT THE LOS ANGELES POLICE DEPARTMENT PREFERS TO DEAL DIRECTLY WITH THE COMMITTEE, AND HE SEES NO NECESSITY FOR THE COMMITTEE TO BE IN TOUCH WITH THE BUREAU FOR THE PURPOSE OF OBTAINING POLICE DEPARTMENT RECORDS.

**HOUSE SELECT COMMITTEE ON ASSASSINATIONS
U. S. HOUSE OF REPRESENTATIVES (HSCA)**

FEDERAL GOVERNMENT

Reference is made to letter dated May 17, 1978, to Attorney General Bell from Louis Stokes, Chairman, HSCA, concerning the file destruction program of this Bureau as it relates to the Select Committee on Assassinations' investigation into the circumstances surrounding the deaths of President John F. Kennedy and Dr. Martin Luther King, Jr.

On November 24, 1976, a teletype captioned "House Select Committee on Assassinations, U. S. House of Representatives (HSCA)," was sent to all of our Field Offices and Legal Attaches advising of the formation of captioned Committee and the recipients of this communication were reminded "that, in accordance with our destruction of files and records program, records possessing evidentiary, intelligence or historical value, such as the Kennedy and King assassination investigations are excluded from the file destruction program and cannot be destroyed." A similar teletype dated January 5, 1977, captioned as above, was again directed to all Field Offices and Legal Attaches again setting forth instructions that the Kennedy and King assassination investigation files are excluded from our file destruction program.

Each Field Office and Legal Attache was advised by letter dated August 15, 1977, that the Attorney General, by letter dated June 6, 1977, informed this Bureau that the moratorium on file destruction had been lifted and indicated his approval for the FBI to resume the file destruction program. However, the Attorney General specifically instructed that all records in litigation and those records which the Select Committee on Assassinations has asked to be retained be preserved. FBI Headquarters identified the subjects involved and these were set forth in the above letter. Those subjects are as follows: House Select Committee on Assassinations; The Assassination of President John F. Kennedy; Lee Harvey Oswald; Marina Oswald; Jack Ruby; President's Commission on the Assassination of President Kennedy (Warren Commission);

O.S.

This Bureau received an HSCA request dated March 9, 1977, wherein HSCA desired information on a number of individuals, one of which was Willie Augustus Somerset. This request was processed in the usual manner, that is, only FBI Headquarters files were reviewed. At this time, there was no request for any review of a Field Office file pertaining to Somerset. Almost a year later, an HSCA request dated March 7, 1978, was received by this Bureau, wherein the Miami Field Office file pertaining to Somerset was requested. Our Miami Field Office advised on March 28, 1978, that the Somerset file in Miami was destroyed under the Bureau's routine file destruction program. However, the last section of this file inadvertently was not destroyed and therefore was made available to HSCA.

O.S.

**HOUSE SELECT COMMITTEE ON ASSASSINATIONS
U. S. HOUSE OF REPRESENTATIVES (HSCA)**

For your information, a teletype dated January 16, 1978, was sent to all Bureau Field Offices and Legal Attaches advising that due to certain pending litigation matters, file destruction in all security related classifications was to be immediately suspended until further notice. Each Field Office was again reminded of the above by communication dated May 8, 1978, stating that the moratorium on file destruction in all security related classifications was still in effect.

Many facets of the HSCA investigation are unknown to the FBI, particularly to our Field Offices. This prevents this Bureau from knowing the nature of the files that would be of potential interest to the HSCA. In the future, if the HSCA desires specific Field Office files be excluded from our file destruction program, this Bureau would appreciate being advised by the HSCA the subject and Field Offices involved so that appropriate measures can be taken to exclude these files from destruction.

Reference is made to letter dated May 17, 1978, to Attorney General Bell from Louis Stokes, Chairman, HSCA, concerning the file destruction program of this Bureau as it relates to the Select Committee on Assassinations' investigation into the circumstances surrounding the deaths of President John F. Kennedy and Dr. Martin Luther King, Jr.

Enclosed are the original and two copies of a memorandum concerning the file destruction program of this Bureau and the efforts taken by the FBI to prevent destruction of Field Office files that would be pertinent to the investigation being conducted by the captioned Committee. It is requested you furnish a copy of this memorandum to Congressman Louis Stokes, Chairman, HSCA.

NOTE: By letter dated 5/17/78 to Robert L. Keuch, Assistant Attorney General, Criminal Division, Louis Stokes, Chairman, HSCA, expressed concern in regards to the Bureau's file destruction program as it relates to the investigation being conducted by the HSCA. Mr. Stokes mentions two examples wherein Field Office files were destroyed (however, FBI Headquarters files not destroyed) and the attached communication is being sent to apprise Mr. Stokes of the facts concerning the two examples mentioned in his letter and of the steps that have been taken by the Bureau to exclude certain files being destroyed.

HOUSE SELECT COMMITTEE ON ASSASSINATIONS
U. S. HOUSE OF REPRESENTATIVES (HSCA)

NOTE: This matter has been coordinated with the Identification Division, which will provide access to the Oswald prints which are maintained by that Division. In this connection, while searching Bureau files for latent prints requested, on 5/17/78, Mr. Philip T. Brookman, GS-5, Congressional Inquiry Unit, located a Dallas Police Department original arrest fingerprint card for Lee Harvey Oswald. The card was initialed by a "WEB" on 11/22/63 and signed by "J.B. Hicks." Attached to the card were two original Oswald palm prints. These documents were found in Bureau file 62-109060, bulky 5846, behind guide card entitled "Prints of Oswald," which was attached to an envelope entitled "Latents of Oswald not used for Commission report." On 5/18/78, the original fingerprint card and two original palm print cards were turned over to Deputy Assistant Director Banner, Identification Division, for safekeeping.

In order to find all latent prints requested, all John F. Kennedy files must be reviewed. Therefore, HSCA is being invited to locate those they wish as Congressional Inquiry Unit has no time for such Committee research.

SUBJECT: HOUSE SELECT COMMITTEE
ON ASSASSINATIONS (HSCA)

PURPOSE: To obtain approval for handling certain informant matters resulting from captioned Committee's investigation into the assassination of John F. Kennedy and Martin Luther King, Jr.

SYNOPSIS: Through intensification of the HSCA's investigation into the Kennedy and King assassination cases, three problem areas have arisen concerning informant matters. Discussed during a conference on 5/26/78 at FBI Headquarters (FBIHQ), these problem areas are (1) Desire of the HSCA to interview unidentified current or former Bureau informants (2) Situation where an informant is subpoenaed to testify before the HSCA when his identity is not known to the Committee, and (3) Situations where the HSCA has determined an informant's identity, interviewed him, and obtained a waiver authorizing HSCA access to his FBI file. Recommended policy for handling each problem area is set forth in details. If approved, the Department of Justice should be briefed regarding these problem areas and our policy for each. Information concerning the HSCA should be updated for all Field Offices and Legats with reminder for the Field to promptly refer to FBIHQ any contact by HSCA representatives with FBI personnel and/or informants.

DETAILS:

BACKGROUND: Since approximately December, 1976, the HSCA has been conducting investigation into the assassination of John F. Kennedy and Martin Luther King, Jr. The HSCA has been given access to voluminous FBI files involving many aspects of FBI operations, some of which contain informant information where informant identity protected. As the Committee's investigation nears conclusion, believed to be December, 1978, approximately 40 days of public hearings are

RE: HOUSE SELECT COMMITTEE
ON ASSASSINATIONS (HSCA)

scheduled for the Fall of 1978. These hearings will involve appearances of witnesses, some of whom may be FBI informants whose identities may or may not be known to the HSCA. In addition, the HSCA staff will be conducting interviews, some of which will involve informants and former informants of the FBI.

FBIHQ MEETING 5/26/78: In order to propose a sound policy regarding informant matters as related to the HSCA, a meeting was held on 5/26/78, attended by Agents of the Congressional Inquiry Unit and the following: David Ryan, Records Management Division; D. O. Coulson, Legal Counsel Division; and M. V. Hale, Top Echelon and Criminal Informant Unit, Criminal Investigative Division. The following three problem areas were defined and recommendations for handling each of these situations are set forth as follows.

INFORMANT PROBLEM AREAS:

1. Desire of HSCA to Interview an Unidentified Current or Former Bureau Informant

To date, in several specific instances, the HSCA has reviewed information furnished by an informant whose identity has been protected, whom the HSCA feels the need to interview. The HSCA has asked the FBI to contact the informant and determine if he is agreeable to HSCA staff interview. Our policy has been to contact the informant and advise him of HSCA interest. He is told that we have not disclosed his informant status, but the HSCA may know his name through review of substantive FBI files or other investigative techniques. If the informant objects to interview, the Committee is advised to that effect. If he has no objection, the informant is given the name and telephone number of a staff member of the HSCA. In this way, it is the informant who furnishes his identity to the HSCA and not the FBI. Also, the informant can negotiate personally with the Committee concerning the location, nature and scope of the interview.

During the conference on 5/26/78, it was proposed that the above policy was sound though somewhat incomplete. In addition, it was desired that upon initial contact with

Memorandum to Mr. Bassett
RE: HOUSE SELECT COMMITTEE
ON ASSASSINATIONS (HSCA)

the informant to determine if he would agree to interview by the HSCA, the informant should also be told the following: That he has no guarantee from the FBI or HSCA of immunity or confidentiality; that the FBI is not responsible for what resulting action the HSCA may take following interview; that since the Committee may already know his identity, he could be subpoenaed to testify; and, that if he does not want to be interviewed, the FBI will do everything in its power to protect his identity. These matters should be presented objectively to the informant by contacting Agent.

2. Witness Situation - Where Informant is Interviewed or Subpoenaed to Testify Before the HSCA When it is Not Known to the Committee that He is an FBI Informant

In one instance to date [REDACTED] has been interviewed by HSCA staff personnel and subsequently subpoenaed to testify before the HSCA. Informant has sought our advice as to his reply if asked during testimony if he is or has been an FBI informant. (b)(7)(D)

At the conference on 5/26/78, it was proposed that if the informant has no objection to his identity being disclosed during HSCA interview or testimony, then he should be told the FBI is agreeable to this disclosure (if that is the case). If informant does not want his confidential relationship revealed during testimony, we will suggest the following. If he has no objections, FBIHQ will present his situation to Congressman Louis Stokes, HSCA Chairman; Congressman Sam Devine, HSCA Ranking Minority Member; and to G. Robert Blakey, HSCA Chief Counsel and Director, in an effort to prevent questioning concerning his informant status. If neither of the above possibilities is acceptable to the informant, he will be told that if he testifies, he should use his own initiative in responding to Committee questions. He will be told, however, that if he decides to answer questions, he must be truthful.

Memorandum to Mr. Bassett
RE: HOUSE SELECT COMMITTEE
ON ASSASSINATIONS (HSCA)

3. Situations Where HSCA Has Determined an Informant's Identity, Interviewed Him, and Obtained a Waiver Authorizing HSCA Access to the FBI Records, Including Those Involving His Confidential Relationship

In several instances to date, the HSCA has provided a waiver as described above, attached to a request for all files and references concerning the informant. These waivers have been honored without verification, based on the credibility of the HSCA and the fact that a copy of the waiver was attached to a letter to the Attorney General and signed by Mr. Blakey. Subsequently, files were processed for HSCA access, and in two cases requests for delivery of informant files were honored.

At the conference on 5/26/78, it was proposed that in the future the FBI Field Office would contact the informant and verify the authenticity of his waiver.

Subsequent to the conference, Assistant Director Mintz, Legal Counsel Division, advised it would be in the best interest of the Bureau in protecting against civil suits to obtain our own waiver from the informant, rather than rely on any waiver which informant furnished under unknown circumstances to the HSCA. Our waiver will be worded so as to authorize the FBI to release any and all files (FBIHQ and Field Office) concerning this informant to the HSCA, including those records pertaining to any confidential relationship the informant may have had with the FBI. This waiver will state that the informant understands that these files will disclose to the HSCA any confidential relationship informant may have had with the FBI. If this waiver is signed by informant, then his informant file will be processed for the Committee with excisions allowed by the Memorandum of Understanding, between the Department of Justice and HSCA. These excisions are primarily to protect other informants, third agency information, foreign agency information and sensitive investigative techniques. Unless unusual circumstances exist, informant files processed as a result of the waiver will not be delivered, but only made available for HSCA access at FBIHQ.

Memorandum to Mr. Bassett
RE: HOUSE SELECT COMMITTEE
ON ASSASSINATIONS (HSCA)

GENERAL INFORMATION: The above problem areas and recommended policy for handling each is set forth for general information and approval. It is recognized that before the HSCA expires, other situations involving informants will occur which fall outside the scope of those outlined above. These situations will be reviewed separately and coordinated with appropriate FBIHQ Divisions.

In addition, if the above procedures are approved, each will be discussed by Legal Counsel Division with Robert L. Keuch, Special Assistant to the Attorney General, who is liaison official between the HSCA and the Department of Justice.

FIELD OFFICES AND LEGATS: At inception of the HSCA review, by teletype dated 11/24/76, all Special Agents in Charge and Legats were alerted to creation of the HSCA and that some members of the HSCA staff may attempt to interview our employees in the Field. This teletype instructed that any attempts by the HSCA to obtain information through Field personnel or any other matters pertaining to the HSCA should be promptly furnished to FBIHQ.

Because of intensified investigation by the HSCA and scheduled public hearings, particularly where informants may become involved, the Field should be reminded of the contents of our teletype of 11/24/76 and additionally alerted to the possibility that the Committee may be interviewing current or former Bureau informants and subpoenaing them to testify.

RECOMMENDATIONS:

1. That policies outlined in informant problem areas Number 1, 2 and 3 be approved as stated above.

RE: ASSASSINATION OF PRESIDENT JOHN F. KENNEDY

Following arrival at the Naval Medical Center and preparation of the President's body for inspection and autopsy, to be performed by Dr. HUMES, Chief Pathologist and Commander, United States Navy, Admiral BERKLEY, the President's personal physician, advised that Mrs. KENNEDY had granted permission for a limited autopsy and he questioned any feasibility for a complete autopsy to obtain the bullet which had entered the President's back.

At this point, it will be noted Dr. HUMES, M.D., the physician conducting the autopsy, stated it was his opinion that the bullet was still in the President's body and could only be extracted through a complete autopsy, which he proposed to do.

Special Agent ROY KELLEHER, Secret Service, in conference with Special Agents SIBERT and O'NEILL, from an investigative and prosecutive standpoint, advised Admiral BERKLEY that it was felt the bullet should be located.

At this point, Admiral C. B. GALLOWAY, Commanding Officer of the National Naval Medical Center, Bethesda, Maryland, told Commander HUMES to perform a complete autopsy.

HOUSE SELECT COMMITTEE ON ASSASSINATIONS
U. S. HOUSE OF REPRESENTATIVES (HSCA)

Enclosed are the original and two copies of a memorandum, with enclosure, responding in full to an HSCA request of May 9, 1978, asking for photographs on 14 individuals.

You are requested to furnish a copy of the memorandum, with enclosure, to the HSCA.

Enclosures (4)

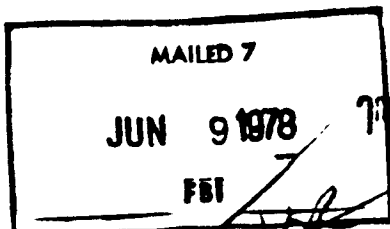

NOTE: This matter has been coordinated with the Identification Division, which separately searched its records for photographs on each of the 14 listed individuals. None were located. HSCA may be endeavoring to cause the FBI to go back over material the FBI previously prepared for HSCA access on six of the 14 individuals and locate photographs, if any exist. Theoretically, HSCA should have reviewed material on the six individuals and identified, by document serial number, the photographs it required. It is not felt the FBI can afford the time to research the material already prepared for HSCA; however, main files on the remaining eight individuals were checked for any photographs. One was located and is being furnished. The Identification Division search was conducted on all names since there was no assurance that Identification records appeared in the material originally prepared for access.

HOUSE SELECT COMMITTEE ON ASSASSINATIONS
U. S. HOUSE OF REPRESENTATIVES (HSCA)

This responds in full to the May 9, 1978, letter to the Attorney General, signed by G. Robert Blakey, Chief Counsel and Director, HSCA, who asked for delivery of all photographs in the possession of the FBI on 14 individuals in connection with the Committee's inquiry into the assassination of President John F. Kennedy.

The Committee listed 14 persons, numbering them from 1 to 15. No Number 14 is listed. Persons listed as Items 3, 5, 7, 10, 11 and 15 were the subjects of previous requests from the HSCA. All retrievable FBI Headquarters material on these six individuals has been available for HSCA access. Should the HSCA identify any desirable news clipping photograph or the like among this material, the FBI will be pleased to provide a xerographic copy of same.

Records searches for a photograph of any one of the remaining eight individuals were unsuccessful, with the exception of Item 13. A reproduction of a photograph of this individual has been available among material previously prepared for Item 5.

A xerographic copy of a reproduction of a photograph of [REDACTED] Item 13, is enclosed since this copy may not have been available in material previously prepared on Alexander Rorke, Item 5. (b)(7)(c)

Where information or a document is not provided, it is either not retrievable from FBI Headquarters files or is not produced in accordance with the Memorandum of Understanding.
